The Fishing Law

Fishing, as a sport, formerly governed by a variety of regulations or by none at all in some counties of the state, will in the future be protected by uniform rules, following action taken by the State Board of Conservation and Development.

The new rules establish uniform open and closed seasons, designate commercial and inland fishing waters, establish size and bag limits, and regulate the sale of game fish.

Partition of waters into the "commercial" and "inland" groups establishes a system by which the board simplifies the application of regulations and sets up a guide in the consideration and publication of the rules. Broadly, the "commercial" fishing waters cover the ocean and sounds and their estuaries, reaching up the large rivers for varying distances, depending chiefly on local conditions. The "inland" waters include those not specified in the other classification.

A special rule promulgated by the board makes it unlawful to take or kill fish in any "inland" waters of the state except with hook and line, rod and reel, or by casting, except shad and herring, which may be taken in these waters with skim or stake gill nets only from January 1 to May 1.

Sale of black bass from any part of the State of less size than 20 inches, with the exception of Currituck Sound, is prohibited. Currituck bass not less than 12 inches in length are allowed to be sold when labelled with tags furnished by the fisheries commissioner.

Open season on principal game fish, prescribed by the board are:

Black or large-mouth bass, June 10 to April 20, following.
Brook or rainbow trout, April 15 to September 1.
Small-mouth bass (mountain counties), June 10 to October 1.
Size limit rules are fixed as follows:
Bass (large or small-mouth) 12 inches; Blue Bream, 6 inches; Brook or speckled trout, 6 inches; Rainbow trout, 8 inches; Rock, 8 inches; Robin, 5 inches; Redfin, 8 inches; Goggle eye, 6 inches.

Fixing bag limits, the board regulation says, "It shall be unlawful in the State of North Carolina for any person or persons to take from the waters of the state designated as "inland fishing waters," by any means whatsoever, in any one day, more fish of the species herein mentioned than the following:

Black or large-mouth bass, 8; Brook or speckled trout, 25; Rainbow trout, 25; Blue or red bream, 50; Robin, 50; Rock 10; Crappie or chinquapin perch, 50; Goggle eye, 50.
