New Low Chevrolet Price

A new low price for Chevrolet's latest and most beautiful model, the Imperial Landau, which now lists at only \$745 f. o. b. Flint Mich., was announced today by R. H. Grant, vice-president in charge of sales of the Chevrolet Motor company.

This reduction was made possible by volume production growing out of the tremendous demand on the part of the public everywhere for this "Most Beautiful Chevrolet" when it was first introduced in May of this year, Mr. Grant explained.

"Seldom has the industry seen the warm and enthusiastic public response that greeted the initial offering of the Imperial Landau, which at that time was priced at \$780," Mr. Grant stated. "The output for this model far exceeded the production schedule."

"This great volume spelled manufacturing economies that the public will share in because of the lowered price effective today. In addition to making our newest model available to a wider field of prospective motorists, the reduction is further evidence of our aim to build the best possible popular priced car at the lowest cost consistent with sound merchandising principles.
