

An Expression of Appreciation

In reviewing the accomplishments of the present year we can not but recognize the fact that our business has been prosperous and that this prosperity is due entirely to the liberal patronage of the public. Consequently, we take this means of expressing our thanks and appreciation for the support given us during this time.

As stated before our business this year has been remarkable considering the fact that Ford cars were off the market during most of the year. But in 1928 we expect to surpass all our previous business records. The hand writing on the wall is plain. The record breaking business year that lies before us will be due to the fact that we have the agency for the most marvelous car ever made, a car that sells sight unseen and for which we have already received unsolicited orders for more than half a hundred from those who have yet to see this master production of a master mind.

The pictures that the public has seen of the various new Ford models fail absolutely to do justice to this great automobile. We hope to have one on exhibition soon.
