**Maxwell School Notes**

The Maxwell boys played a tie game of baseball with a Franklin volunteer team Saturday afternoon. The score was 20 to 20, which shows poor fielding or heavy hitting, probably both! Maxwell boys, who have had but little practice, feel encouraged.

Easter Sunday Maxwell had an outdoor dinner on the mountain side, an egg hunt, and a joyous Easter. Roasted weiners, sandwiches, cake, a bunch of bananas (given the boys by the United Fruit company at Charleston, S. C.) and marshmallows made a hearty dinner, after which Mr. Fleming, formerly of Maxwell, led the Sunday school lesson. Many kinds of flowers were found by the boys and exploring trips among the rock ledges were later reported Sunday afternoon.

Mrs. T. M. Slagle and Mrs. Hal Slagle gave a joint egg hunt for the junior Maxwell boys who attended their classes in the Slagle Memorial Sunday school. Fourteen boys reported a fine time.

**GREAT RALLY OF S. S. CLASS**

(Continued from page one)

The western part of the state. The Reece family, of Franklin, entertained the classes with an excellent vocal selection.

The following named men were then elected as officers of the permanent organization: President, R. E. Crawford, of Hayesville; vice-president, Bob Long, of Bryson City; secretary and treasurer, W. M. Fain, of Murphy. It was decided to hold the next meeting October 18 on No. 10, near Nantahala Station, at which time the cup will be awarded to the winning class.

For reason unknown Sylva, Whittier and Andrews were not represented at the meeting last Sunday.

**PROCLAMATION BY THE GOVERNOR OF N. C.**

(Continued from page one)

the seal of the State of North Carolina.

Done at our City of Raleigh, this seventh day of April, in the year of our Lord one thousand nine hundred and twenty-eight, and in the one hundred and fifty-second year of our American independence.

ANGUS W. McLEAN, Governor.

**NANTAHALA NATIONAL FOREST FIFTEEN YEARS OF AGE**

(Continued from page one)

(1) Direct administration and development of about one-fourth of our forest land as National Forests.

(2) Co-operative service in the extension of timber growing on the other three-fourths by working with the states on fire protection, forest taxation, timber planting, and education concerning forestry practice.

(3) Research, to provide the best technical basis for the entire development on both public and private lands.

These aims will be accomplished: (a) by the consolidation and blocking in to some extent of the present national forests to make administration more economical and efficient, (b) the co-operation with the various states which have forest organizations under the provisions of the Clarke-McNary law and, (c) the carrying of as large a forest investigative program as allotments will permit under the direction of the regional forest experiment stations.

It is obvious that such a program

will move only as fast as the progress in protection of those lands will permit. When fires take the attention of the force on the Nantahala men are taken from important road work, contractors for government stumpage are often held up in their work while an unsteady market drops on them and money is spent in controlling the fire which should be saved to supplement the always too small allotment for running the forest. In dollars and cents every fire means a red ink entry on the local forest office books. It means a financial loss to the man who depends on the woods for a living. It blocks progress when time is an important element.

**Tellico Locals**

The farmers of this section are getting ready to plant corn.

The young people of Tellico enjoyed an Easter egg hunt Sunday, April 8. The number was so great they could not be counted.

**Carriers of Southern Prosperity**

OUT from the heart of the South to Northern and Western Gateways and to Gulf and Ocean Ports reach the glistening steel rails of the Southern—that the products of the South may speed swiftly to the waiting markets of the world.

In the vast traffic handled by the Southern Railway System today is the story of the South's dramatic rise toward industrial and agricultural supremacy.

The Southern is inseparably linked with the destinies of the South. Its development to one of the most efficient transportation systems in the world has been made possible by the growth of the South—and has in turn laid the foundation for greater and more rapid progress of this great section in the future.

Our sixty thousand employees, Southern men and women, are proud in the knowledge that their job today is to build a greater Southern to serve a greater South.

**SOUTHERN RAILWAY SYSTEM**

From the Northern Gateways at Washington, Cincinnati and Louisville . . . from the Western Gateways at St. Louis and Memphis . . . to the Ocean Ports of Norfolk, Charleston, Savannah, Brunswick and Jacksonville . . . and the Gulf Ports of Mobile and New Orleans . . . the Southern Serves the South.
