Government authorities tell us that thirty different diseases are transmitted by flies. Any one of these often proves fatal. Flies must be killed. Use the scientific product developed at Mellon Institute of Industrial Research by Rex Fellowship. It is fragrant and harmless to mankind but death to all household insects. Just follow instructions on blue label of bottle. INSIST on FLY-TOX from your retailer.—Adv.

es of the branch col-
reckoned only by the
transportation and board,
an a saving of several thous-
dollars to students. Preparations
being made to care for as many
students as may enroll. As many
teachers as necessary will be brought
to Franklin, and as much equipment
as necessary, will be sent here from
the main college at Athens. Local
help will probably be secured to teach
the course in commercial law.
Other courses will include book-
keeping, shorthand, typewriting, bank-
ing, and general office training. The
Byrnes system of shorthand will be
used. This, Mr. Carter states, is
the speediest system in the world,
giving a saving of 39 per cent over
the average system. Mr. Carter him-
self is the author of the text in
bookkeeping that will be used. The
text has been endorsed by the govern-
ment.

Not only will students from Macon
county be enrolled with the college
here, but it is expected that the gradu-
ates of the various high schools in
adjoining counties will avail them-
selves of the opportunity to get busi-
ness training near home. It has been
pointed out that these prospective
students can motor to Franklin and
never even undergo the necessity of
paying a board bill.
Mr. Carter states that the college
at Athens is not graduating students
rapidly enough to supply the demand
that will soon be experienced in the
city of Athens alone. The Mont-
gomery Ward company and the Sears
and Roebuck company are both estab-
lishing branches at Athens. These
will employ many stenographers and
bookkeepers. Rumor also has it that
the national headquarters of the
Woodmen of the World is to be
moved to Athens. Surveys of prop-
erty for the location of the head-
quarter's building have been made.
From 300 to 400 persons are em-
ployed by the Woodmen for office
help.

The school at Franklin will run for
six months or longer. It is pointed
out that eleventh grade students may
take the training and continue their
work in high school. Mr. and Mrs.
Carter will remain here until the
branch is established and the work
is underway. The work will then be
left in the hands of assistants.

Hall-Hurst

A quiet marriage taking place in
Asheville June 23 at the home of the
