Mr. Dick Sloan and family of Camilla, Georgia, are visiting Mr. Sloan's mother, Mrs. Jesse Sloan.

A "Chamber of Death" test is your guarantee of FLY-TOX efficiency. The FLY-TOX "Chamber of Death" is a small room in which live, healthy insects are turned loose. They are strong and lively. As they fly and buzz around inside the "Chamber of Death," FLY-TOX is sprayed inside. Less than a teaspoonful is used. Almost at once the buzzing stops. Within five minutes all is still. The insects are dead. This test shows you how quick and positive FLY-TOX works. Just what you need for those pesky flies and mosquitoes that bother you now. FLY-TOX is positively harmless to people. It has a delightful perfume-like fragrance that prevades a room like delicate incense. It is stainless. FLY-TOX was developed at Mellon Institute of Industrial Research by Rex Research Fellowship. Every bottle guaranteed.—Adv.

Mr. and Mrs. Thomas and little daughter of Atlanta, Ga., spent the week end with Mr. Thomas' mother, at the Franklin Terrace.

Mr. Will Holbrooks of Leatherman was a business visitor here last Saturday.

**TROUBLES END AS SHE GETS SARGON**

"Sargon restored my health at a time when I thought nothing would help me. For six years I bought medicine after medicine that gave me no relief.

"I began using Sargon and day by day my troubles left me. I suffered from indigestion, sour acid stomach, gastritis and heartburn. Also gas pains around my heart. At times my heart would palpitate until it would frighten me. I also had pains in my shoulders and back and at times my arms and legs ached. My complexion was sallow and my whole system was run-down.

"Sargon relieved all my troubles and I feel better than in years. I have gained 8 pounds and my complexion has changed to a natural healthy color.

"I cheerfully recommend Sargon because it does everything that is claimed for it and more besides."

Miss Elizabeth Bowen, 320 Newberg Avenue, Macon, Georgia.

Perry's Drug Store, Agents.—Adv.
