

DID NOT BELIEVE IT COULD HELP SO

"If anybody had told me that Sargon and Sargon Soft Mass Pills would overcome the constipation and stomach trouble I suffered with for eight years, I wouldn't have believed it. But that's exactly what it

Wm. A. THOMPSON

did and I've gained six pounds in about three weeks!

"It seemed like everything I ate disagreed with me. I had headaches and such pains in my side that some times it was all I could do to stay on the job.

"It wasn't long after I started Sargon before I was eating three square meals a day and everything agreed with me fine. Those Sargon Pills beat anything I ever saw, the way they ended my constipation! I quit having headaches, the pains in my sides have disappeared and I'm so much stronger, I enjoy every minute of my time at work."—Wm. A. Thompson, 111 Wodolawn Ave., Atlanta.

More and More Colds Treated Externally

Demand for Vicks VapoRub Pioneer of "No Dosing" Method, Grows At Amazing Rate

A generation ago, when Vicks VapoRub was originated, the idea of treating colds without "dosing" was almost unheard of. Today, more and more colds are treated externally, and the whole trend of medical practice is away from needless "dosing."

Mothers especially appreciate Vicks, because it checks colds without risk of upsetting children's delicate stomachs. Just rubbed on, Vicks acts through the skin like a plaster; and, at the same time it gives off medicated vapors which are inhaled direct to the inflamed air-passages.

Year after year the demand for Vicks has grown until it is now the family standby for colds—adults as well as children's—in more than 60 countries.

A short time ago the famous Vicks slogan "17 Million Jars Used Yearly," was raised to "21 Million" to keep step with the ever-increasing demand. Again the figures have been outgrown, as there are now "Over 26 Million Jars Used Yearly," in the United States alone.

Millions of Miles of Constant Testing

to maintain the outstanding quality and dependability of The Chevrolet Six

In spite of the fact that a million Chevrolet Sixes have already been placed in the hands of owners, and have proved their performance and stamina by billions of miles of service over every type of highway the nation affords—

—the Chevrolet Motor Company continues to take new Chevrolet Sixes from the assembly line at the factory and subject them to pitiless testing on the roads of the General Motors Proving Ground!

This passion for proof—this consistent refusal to accept any

tests as final—is one of the fundamental reasons for the overwhelming popularity of Chevrolet cars. For in no other way is it possible to make the Chevrolet Six so sound in design and materials—so dependable in performance—and so economical to operate!

If you are considering the purchase of an automobile, come in and see the new Chevrolet. You will find that it is more than a Six in the price range of the four. In every way it is a finer car than you ever thought possible in the low-price field!

A fifth wheel speedometer accurately measures speed and mileage on all Chevrolet test runs at the Proving Ground.
