

Poultry Sale Set For Tues., Mar. 4

Tuesday, March 4, will be the date of the next co-operative carlot poultry sale in Macon county, according to F. S. Sloan, county agent. Four more sales are scheduled for the spring months and one for June and July.

Mr. Sloan also states that he expects to hold two co-operative carlot hog sales in April. One is to be held about April 1, and the other about the first of May. This will give the farmers a chance to market their hogs at one of the two sales at a very good price if the market stands at about what is expected for April, Mr. Sloan said.

The county agent stated that No. 1 hogs should be young and weigh from 165 to about 300 pounds.

Patton's

The community as a whole seems to be delighted that Mrs. Zeb-Norton and Mrs. John Henry will be our school teachers again. They have taught our school two years and have endeared themselves to both children and parents.

Mrs. Swanson has been quite sick with flu but is improving now.

Miss Lillian Patton, who is teaching at Hickory Knoll, spent the week end at home.

Mr. and Mrs. Lester Green returned from Enka, Saturday.

Dr. L. S. Patton, of Atlanta, accompanied by Dr. Fred Patton, also of Atlanta, spent Sunday with Mr. and Mrs. Robt. A. Patton.

Several of the worst places in our road have recently been filled with rock, which helps keep the road passable.

Mr. Randolph Hall who now owns the E. B. Angel farm is making extensive improvements on his place.

MERCHANTS MEET FRIDAY TO FORM OPPOSITION BODY

A meeting of Macon county merchants to organize an active body to oppose chain stores in the county is scheduled for Friday night of this week at the Franklin Hotel and Restaurant. The meeting is being sponsored by W. C. Cunningham, J. W. Hasting, and Andy Reid with the cooperation of other town and county merchants.

MANY QUAIL TO BE DISTRIBUTED SOON BY GAME WARDEN

Jess Slagle, warden of the Wayah Game refuge, announces that within the next few days he will have a large number of quail for distribution throughout the county. Persons desiring to make reservations for birds, should do so before the end of February, Mr. Slagle states.

BANKS TO CLOSE ON SATURDAY, 22, FOR THE HOLIDAY

In observance of Washington's Birthday, the Citizens' Bank and the Bank of Franklin will be closed on Saturday of this week, Feb. 22. People who have business at either of the banks which must be attended to before the end of the week, should do this business on Friday, announces W. T. Moore, cashier of the Citizens' Bank.

He has built a large barn, and is doing lots of ditching and cleaning up in general, all of which is helping the looks of his place wonderfully.

Mr. Ed Scroggs, who has been working at Pelzer for several months, has come home for a while.

CARD OF THANKS

We wish to thank our many friends and neighbors for their kindness during the sickness and death of our mother.

BUILDING AND LOAN FACTS AND FIGURES

CATCH UP WITH YOURSELF

We feel no bitterness toward the selling of automobiles and pianos, furniture and clothing, stoves and washing machines, on time payments.

Time payments buying is an effective aid to many people. When people must have things before they have the money to pay for them, time payments serve a valuable purpose. When people secure things that they could wait a bit for, when they take them now just because the monthly terms look easy, they are paying extra for a service that often is not worth what the buyer must pay.

Do you know what it costs you to buy things on time? If you knew, would you be willing to pay a premium for practically everything you secure? We say "practically" everything because when people start buying a few things on time, they soon start buying more things that way. The time comes when all of the miscellaneous payments due, take every cent of the income.

Often, people become so involved that they cannot keep up the many payments. The washing machine or the automobile that is half paid for goes back to the dealer from whom it was purchased and the person who is involved has paid a terrific price for the service obtained.

Let's look at a typical case.

A man who has an old car that might run for a year or two longer, decides to get a new glittering car in about the \$1500 class.

He turns in his old car and pays a few hundred dollars. For easy figuring, we'll say he owes about \$875 on the new car. He wants to pay for it in 18 equal monthly payments. Interest and carrying charges are added bringing the total up to approximately \$1000 on which he must pay \$55.50 monthly.

The question is, what has the service cost him—actually.

If he had decided to drive the old car for 18 months longer, he could have put \$55.50 away. He could have saved that money. In 18 months, with earnings added, he would have had about \$1050.

Thus, you see he lost \$175,—or approximately \$10.00 monthly for which he received no tangible value but merely the accommodation of time payments.

In other words he paid a premium of about 10 per cent of the value of his car.

It is easy to see that people who pay 10 per cent extra for almost

everything, are going to get about 10 per cent less value out of their total income.

To get the biggest value out of your income, you must put yourself on a cash basis as speedily as possible. When you do that, you can have just as much as you had formerly and still save 10 per cent of your income.

Such a saving schedule, with the earnings, will create a fund that will eventually make you independent.

Before you spend, look the facts in the face and calmly decide whether it is worth it or not.

The above, when you first read it, might be construed to be a lick at installment buying. It is not. It is a plain statement of facts with regard to needless installment buying. The man who sells a commodity on the installment plan must charge for that service. You are going to get a

WHEN GREAT SHIPS SINK

Usually, there is just a little leak,—at first.

Little leaks have a way of developing into big leaks. Finally, with a rush of mighty waters, the ship goes down.

Personal indulgences,—a scorn for small sums,—open-handed spending habits,—all are little leaks in a person's program,—AT FIRST.

Finally, that person is swallowed up,—an abject pauper.

That's why we counsel you to thrift. That's why you should maintain an account with us. Keep your good ship tight.

car. The dealer knows that he is going to supply you. He would much prefer selling for cash. By waiting 18 months, as suggested above, you buy that car on a cash basis, and instead of paying for it while you are wearing it out, you are accumulating the money to buy the next one. You will use a given number of cars in the course of a lifetime whether they are purchased on the installment plan or you pay cash for them. Now, figure your saving \$175 on each car in this way over the period of a lifetime and see what you have.

HAVE YOU FAITH IN THIS COMMUNITY?

Our funds are lent on first mortgage real estate security, principally on homes. People who are acquiring homes through our aid are the typical Americans that make up the bone and sinew of this community. This, we believe, is the soundest security possible for any investment.

THE "BEST" THRIFT ACCOUNT

Andrew Carnegie defined it completely when he said that the best way to accumulate money is to resolutely set aside a fixed amount of your income, no matter how small the amount.

The item of regular saving is well provided for in our plan of operation. We recommend that you set aside a fixed and definite payment for each and every month,—and STICK TO IT.

"HE MEANT WELL, TRIED LITTLE AND FAILED MUCH"

On a head stone in a cemetery near Saratoga, New York, a wife had the courage to thus summarize the record of her spouse.

Any person with or without an active Thrift Account will appreciate this epitaph.

We all want to accumulate money. We all can, if we really try. Success, not failure, results.

CAN YOU AFFORD TO LOSE?

With men who can save thousands of dollars in a comparatively short time, we are not concerned. If anyone can afford to lose through poor investment, they can.

The man or woman who works hard for his or her money and is able to save a few dollars each month cannot afford to lose one penny.

Such people should be particularly interested in investing their savings in this institution, whose record for safety has never been excelled.
