Hon. John E. Rickman, of Franklin accompanied by Mr. Oliver Hall, made a business call on Mr. J. M. Cochran and others, recently.

MAXWELL

We are anxious at Maxwell about the fruit. Are the experts of Macon as optimistic as those of Haywood? There seems to be considerable gloom when the 1930 apple crop is discussed in our neighborhood.

Dr. Smith and Mr. Dandy paid us a visit and seemed to like the appearance of the farm. Planting, repairing and some attempt to beautify continues.

Visitors Sunday from Waynesville were most welcome. Mr. and Mrs. Rheives and daughter and Mr. and Mrs. Rose spent part of the afternoon here. Willie Gossett was guest of Miss Ruth Shumate and friends of Asheville who motored out for a picnic lunch and a visit with Willie.

POPLAR COVE

Miss Mary Jane Ledford has come home from visiting her daughter, Mrs. J. W. Hastings, at Franklin.

Mr. and Mrs. Judson Dills are smiling over the birth of a big girl.

Mr. Will Dills went to Franklin on business Friday. np

NEWS OMITTED

Several items from country correspondents were omitted this week for lack of space.

THE WESTINGHOUSE ADJUST-O-MATIC IRON

This newest Westinghouse development is aptly called "the easiest iron to use" because it embodies every improvement that has ever been made in electric irons! From its tapered point to its convenient heel rest, every part has been designed with but one thought in mind...easier ironing for the woman who uses it. When you've finished your first ironing with it, you'll find how true this is! And then you'll agree with the thousands of women who say, "I never knew how easy ironing could be, until I got my Westinghouse Adjust-o-matic." Price \$8.75.

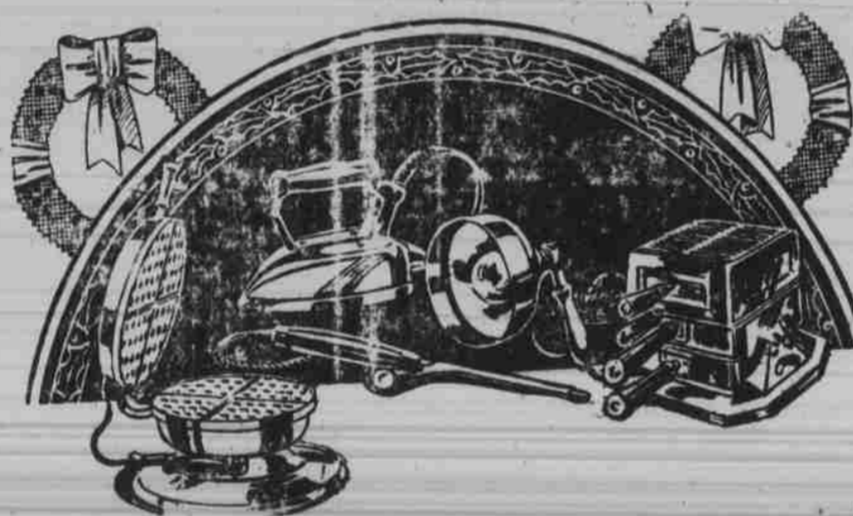

THE WESTINGHOUSE AUTOMATIC IRON

The Original Automatic Iron
With the Built-In Watchman

This chrome-finished Westinghouse Iron, the Automatic, has every feature of the Adjust-o-matic with the exception of the adjustable control. It is the original automatic iron...the iron that more than a million women are using today...the iron that has given seven years of unfailing service in actual use! The Built-In Watchman keeps the ironing heat just right and frees you from worry; the Chrome finish makes your ironing 30 per cent easier. Price \$7.95.

UNTIL you try the New Westinghouse Adjust-o-matic Iron you'll never know how easy your ironing can be...

Think of the things that irritate you most when you're using an ordinary electric iron. The iron's too hot or too cool...you don't know whether the heat is right for the fabric you're ironing...the iron doesn't slide easily over the cloth...you can't see around the edges without bending over...the point won't go under buttons or into tiny ruffles...the balance is wrong and your wrist gets tired! These are the things that make ironing hard work and make ironing hours seem endless! But now there's an iron...the Westinghouse Adjust-o-matic...that does away with every one of these annoyances...an iron that lets you do better work, faster and...most important of all...easier work every time you iron!

SPECIAL OFFER

for the Month of

MAY

**\$1.00 for your Old Iron if
you will Purchase a
Westinghouse**

**ADJUST-O-MATIC IRON
from us during this period**

\$1.75 Down, \$1.00 Month

**Six Reasons Why
the
ADJUST-O-MATIC
is the
Easiest Iron To Use**

FINGER-TIP CONTROL

A convenient lever sets this iron for any heat you want...you iron every fabric with your iron set at just the right temperature for that kind of cloth.

BUILT-IN WATCHMAN

The famous Spencer thermostat...the Westinghouse Built-In Watchman...keeps the heat just where you've set it. The iron never gets too hot or too cool.

CHROME FINISH

Actual tests show that Chrome finish makes the iron 30 per cent easier to move along the cloth. And this lustrous long-wearing finish resists tarnishing, stays bright and shining.

BEVELED BASE

Notice how the base of this iron is flared out, so that you can always see the edge without bending over your work. An ironing convenience originated by Westinghouse.

TAPERED POINT

The point of the Westinghouse Adjust-o-matic is carefully tapered to make it easy for you to get around buttons, under frills and ruffles and into hard-to-iron places.

PERFECT BALANCE

When you lift one of these new irons, you'll realize at once that it has the proper "feel" for easy ironing. Perfect balance is an important feature of its design.
