

PRESENT WORK IS NOT ENOUGH

(Continued from page one)

with approved water supply, sewage, bathing and toilet facilities. Proper heating facilities, air space and ventilation are also required under authority of Sec. 1319 of the Consolidated Statutes.

A number of sections of the State Law regarding county jails have been cited in this letter for the purpose of laying this matter undimmed before your board of commissioners, in order that you may handle it in an expedient manner, and with the full accomplishment of the State Law requirements.

There are only two courses of procedure for the State Department to take in passing on the conditions of a county jail. The jail either meets the requirements of the law and is "approved," or it fails to comply with the requirements of the law and is "disapproved" under authority of Chap. 163, Public Laws of 1925, which makes it unlawful to use for the incarceration of prisoners.

The plan which was being carried forward for improving the Macon county jail on May 10th would not meet the minimum requirements of the State County Jail Regulations and law, therefore, the jail would be "disapproved" per se for lack of apartments, and other requirements.

I recommend that such other additions and equipment as are necessary for the jail's improvement be arranged for meeting the complete minimum requirements of the State Law, before proceeding further on the job, because it will be "disapproved" upon completion if the minimum requirements are not provided.

Thanking you for your co-operation in this matter, and assuring you of our full desire to render such assistance as we can in this connection, I am,

Very truly yours,
L. G. WHITLEY,
Chief, Sanitary Inspector.

MARKERS CANNOT BE PERMITTED

(Continued from page one)

any member of his or her family for the purpose of aiding in the marking of his or her ballot or by any other person requested by the voter and approved by a majority of the election officials.

Sec. 27. Any person who, on account of physical disability, is obviously unable to enter the booth without assistance, or who on account of such disability, or because of illiteracy, or for any other good reason, shall request assistance from the registrar or judges of election, may, upon such declaration and upon his own request, have assistance from any one of the markers or assistants provided

for in section twenty-six. The voter may indicate which of the markers he desires to assist him; whereupon the registrar shall direct that the marker or assistant so indicated by the voter accompany said voter into the booth and give him such aid as may be requested in the preparation of his ballot, whereupon said marker or assistant shall withdraw from said booth and to his place within the rail, and shall not accompany the voter to the ballot box unless assistance be required on account of physical infirmity and such assistance is requested by the voter, or have any further conversation with said voter prior to the time that he deposits his ballot. In the event the voter does not request the assistance of any particular marker or assistant, then the registrar shall appoint from among the official markers or assistants some person to aid the voter in preparing his ballot.

JUST FORTY-EIGHT HOURS ARE LEFT

ADVOCATES NEW HIGHWAY ROUTE

(Continued from page one)

Yellowstone National Parks, the director declared. "The deer in Yosemite," he said, "are so numerous they are destroying valuable species of plant life, while bears in the Yellowstone are becoming too numerous and familiar. We will have to transplant some of them."

At a luncheon today Albright spoke to more than 500 members of the Knoxville Civic Clubs. He left afterwards for the park area, where he will spend a week. He is accompanied by A. B. Cammerer, his assistant who was instrumental in obtaining \$5,000,000 from the Rockefeller for purchase of park lands.

North Carolina and Tennessee have deeded 158,000 acres of mountain land to the government as a nucleus for the park. The Great Smokies, when all lands are purchased, will be the fifth in area in the national park system.

UPPER ELLIJAY

Mr. Jim Keener's children are very sick with whooping cough.

Messrs Charlie and Howard Moore spent the week-end with friends at Bessie.

Misses Mary, Maude and Gertrude Mincey of Gastonia spent Saturday night with their parents, Mr. and

Mrs. C. G. Mincey. They were accompanied by Miss Anna Laura New-

man and Messers Clarence Lutz and Hoyle Broome.

The honest reason

THERE IS ONLY one real reason for... A pretty good reason after all. The cigarette will be the one that can contribute...

Camels are made with that idea... smoke pleasure is what you want in...

When you try them you will find... mellow richness of choice tobaccos—silky smooth—that makes smoking...

The fact that more millions have... rette is a tribute to an honest product...

WEIGHED ONLY 99 POUNDS; GAINS 32

"I only weighed 99 pounds when I started Sargon but I weigh 131 now and feel better and have more strength than in 20 years. My di-

MRS. FANNIE CAUBLE

gestion was so bad that I couldn't eat anything but bread and milk. I lost weight rapidly, had terrible pains in my back and sides, and a rheumatic condition developed all over my body. For months I couldn't turn myself in bed or even move without help. I was told I couldn't live and I'd lost hope of ever finding relief. But Sargon changed my whole life. I am eating anything I like without the least indigestion and I'm so strengthened and invigorated that I do all my housework and milk the cows too. There isn't a pain left in my body and I actually walked three miles the other day to a school house to attend a meeting.

"Sargon Pills cleansed my system of poisons, put my liver to work and ended my constipation."—Mrs. Fannie Cauble, R-2, Box 80, Fletcher, S. C. Perry's Drug Store, Franklin, N. C., Agents.—(Adv.)
