

Many Tourists

"It's an ill wind that blows nobody good," is an old saying. The extremely hot and dry weather that has prevailed in the South for the past several weeks has brought many tourists to Franklin. The past week has seen the hotels comfortably filled with people who have come to the mountains to escape the hot winds further south. On the whole the present season has not been up to normal from the standpoint of the local hotel proprietors, but now indications are that August will surpass the same month of the past several years in the number of tourists.

New Dumping Ground

The town has recently purchased from Mr. J. H. DeHart an acre of ground at Double Branches for use as a dumping ground. Arthur Pannel has bought a new truck to haul the trash to the new dump. Chief Henry states that the trash is burned daily and that every precaution will be taken to see that the dump does not become objectionable in any way. A hedge screens the ground from passers-by on highway No. 286. The chief of police announces that he will be glad to have all trash carted away from private homes when notified that such is necessary.

Girl Drowned

Norman Angel who was at Hayesville last Saturday returns with a story to the effect that at four o'clock Saturday afternoon four boys of Hayesville were swimming in the Hiwassee river when the body of a girl apparently about seventeen years of age came floating by the swimming hole. The boys became frightened and returned to town and reported the matter. A search by men of the town failed to find the body of the girl. Norman states that he was informed in Hayesville that a girl of Andrews had been missing from her home for some time.

Mapping County Roads

Under instructions from J. C. Walker, district engineer, Mr. W. A. McNeil, resident engineer, is making maps of all the county roads in Macon county. Just why these maps are being prepared is not stated, but it is believed here that the state wishes to have this information on file in the event that the state takes over for maintenance all the county roads at some future date.
