

**Former Mars Hill Students Organize Club at W. C. T. C.**

A Mars Hill club was organized Wednesday, Oct. 15, at Western Carolina Teachers' college by former Mars Hill students who are now at Cullowhee in school.

The officers for the year are: President, Pearle Justice; vice-president, Ruth Gribble; secretary, Mattie Lou Mease; sponsor, P. L. Elliot.

The membership of the club is composed of Leonard McAlister, Porter Raper, Eulalia McClure, Roberta Bryant, Bud Thompson, George Gibbs, Charles Elmore, Jeffrie Freeman, Mattie Lou Mease, Ruth Gribble, and Pearle Justice.

Invitations have been issued to the following faculty members who were former Mars Hill students to become honorary members: Miss Lona Bill Braswell, piano teacher; President H. T. Hunter, and Dean Bird, head of the English department.

While chewing the drop cord of an electric light switch in a barn near Grand View, Wis., a cow swallowed the socket. In doing this the animal twisted the switch button with its tongue and thereby electrocuted her-

**Experiences of Buckner As Revenue Officer**

(Continued from page three)

some of us are prepared to believe that statement if the other half of it is true; we never knew any man who lived on Cowee in the nineties who missed anybody he shot at.

It would have disgraced the most honorable citizen of Macon county had it been known that he shot at another with his trusty firelock and missed him. And yet, Uncle Kentucky was shot at a thousand times.

**Officers Forced to Carry Grub**

Another statement found in the interview is worthy of notice. We are told that all officers of the law when riding the roads of Macon county in those awful times had to carry their grub with them as everybody sympathized with the law-breakers and would not furnish you a meal for love or money.

What are the facts? When Mr. Buckner and Jeter Prichard were in the revenue service I was a school boy in the Cowee township where the awful Panther boys lived. Gum Dalton was distilling liquor for the government, and you could buy a gallon for a dollar and fifty cents. There are now more bootleg joints in one section of Asheville than there were in those days in the seven Western counties of the state. My grandfather, John Franks was a neighbor of old Zoom Panther, father of the four sons before mentioned. My grandfather was a sober Christian citizen and would have furnished Uncle Israel a week's ration in aid of law-enforcement.

Riley Rickman, a Baptist minister, who reared and educated three sons for the ministry, and furnished our present post master in Franklin; Uncle Riley was always for law-enforcement. And I could begin at the mouth of the creek with Jim Bryson and name twenty families on Cowee where Uncle Kentucky could have found both bed and board without money or price. These men, nor the children they have given to the world are not keen in their appreciation of Mr. Buckner's interview as it relates to Macon county.

**MEXICAN BEAN**

We have on display at The Press office a Mexican bean raised by Geo. Elliott 36 inches in length and weighs 9 pounds. It is claimed they are good to eat, but we have never tried it.

**Governor Born Near Franklin**

FRANKLIN, Oct. 25.—Six miles out from Franklin there stands an old dilapidated house, built of logs more than 80 years ago. Within its walls whose cracks were "dotted with mud" was born a governor, and a few hundred yards away was born the mother of the already famous young doctors known as "Angel Brothers." They are not as widely known as the Mayo Brothers, but they are far better known than the Mayo Brothers were at their age. Their hospital and their skill are destined to mean as much to Franklin in the way of publicity as the Mayo hospital has meant to Rochester, Minn.

But back to this old log house. Elias Ammons, formerly governor of Colorado was born here. It was then owned and occupied by his parents. Later it became the property of William Berry, who for many years was one of Macon County's good citizens. Logan Berry, father of William and grandfather of Mrs. T. W. Angel, was one of the early settlers of Western North Carolina. When Mrs. Angel was born her father used the old house as a sheep-fold. More than 30 years ago this young woman of the mountains gave her hand in marriage to T. W. Angel and to them have been born a large family of children.

No man and woman anywhere have ever worked harder or sacrificed more freely for their children than have these two. They have toiled as slaves till that the lamp of knowledge might burn for their sons and daughter. Once it was hope, but hope has ripened into fruition. Henceforth they may live in full realization of their fondest dreams for their children.—Asheville Citizens-Times.

**MORE TATERS**

Aunt Dock Waldrup of Cartoogechaye called on The Press one day last week in company with Bob Davis. After looking at the large Irish potato we had on display, Aunt Dock said that she was some tater raiser herself, so she goes back home and sends us a red Spanish sweet potato 13 inches in length that weighs 3 1-2 pounds. She also sent an Irish potato that was not so large but had a handle to it that resembled a gourd.

Mrs. Waldrup said that she had been hearing of that Cale Ridley for years but had never met him and that

she came to Franklin to meet the gentleman.

After she got out on the street she told Bob Davis she did not know much about Ridley, but she bet he had a heart in him big as a pumpkin.

**SAVING FUEL**

In cooking see that your sauce pan is adapted to the flame. It is too small to cover the fire, it wastes fuel, as there will be an aureole of flame about it which will escape and do no good, but will burn the sides of the pan. See that the bottom of the pan sits firmly on the stove. If the bottom bulges and tilts the sauce pan up, there is a waste of heat.

**GRACE**

Fortunate is the child who, from babyhood has been permitted to run and jump and climb and sweat and strain and develop his muscles. This makes for grace and ease and freedom from self-consciousness and awkwardness. There is no reason why a girl should not do these things as freely as a boy. She needs the poise as much as he does. To learn to dance, swim, play tennis, or skate will make for mental agility and keenness as well as for bodily alertness and grace.

**THE DUST MOP**

Do you wash your dust mop when it has become too full of dust to do good work? This may be done without harm, using soap and warm water. If you have taken out too much of the oil in the process, restore it by pouring a few drops of floor oil on it and setting it away in a tin can until it absorbs the oil and it becomes evenly distributed throughout the mop.

**SERVICE BY PUBLICATION—NOTICE**

State of North Carolina, Macon County, G. N. Garland, C. F. Garland, and M. E. Garland, his wife, Mary Grist, Addie Martin and Algie Norton, and Miller Norton, her husband,

vs.

Nannie Hopper and Tom Hopper, her husband, May Hopper and Charles Hopper, her husband, Carrie Sizemore and Paul Sizemore, her husband, Rush Garland, Jesse Curtis, and Lizzie Curtis, his wife, R. S. Curtis and wife, Minnie Curtis, L. H. Curtis and wife, Anna Curtis, Mary Robertson and husband, Tatham Robertson, Sallie Keener and husband, Vergil Keener.

To Nannie Hopper and Tom Hopper, her husband, May Hopper and Charles Hopper, her husband, Carrie Sizemore and Paul Sizemore, her husband, Rush Garland, Jesse Curtis, L. H. Curtis, and Anna Curtis, his wife, Mary Robertson and Tatham Robertson, her husband, Sallie Keener and Vergil Keener, her husband, the non resident defendants above named:

Take notice that a special proceeding entitled as above has been instituted by the petitioners against the defendants in the Superior Court of Macon County, North Carolina, before the Clerk; that the purpose of said proceeding is to sell for partition certain lands in Macon County, North Carolina, belonging to the estate of P. H. Garland, deceased, late of Rabun County, Georgia, the proceeds of the sale thereof to be divided among the tenants in common of said lands.

Take notice further that you are required to appear before the Clerk of the Superior Court of Macon County, North Carolina, at his office in Franklin, in said County, and State, within ten days after the 8th day of November, 1930, and answer or demur to the petition in said proceeding or the relief demanded will be granted.

This the 9th day of October, 1930. FRANK I. MURRAY, Clerk, Superior Court, Macon County, 4tpN6 North Carolina.

**EVOLUTION IS NOT SCIENCE PART VII**

Evolution is not science. Scores of the greatest scientists both living and dead have and do declare that evolution is in no sense science, but a hypothesis—an impossible and unprovable guess.

More than one thousand of the world's greatest scientists are on record as repudiating evolution. Genesis says: "God created great whales" Evolution says, that's a lie; that the ancestors of whales had four legs and used to live on land. Genesis says that God "created every living creature." Evolution says that this is not true, that every living creature, bug, beast or insect came up through a process of evolution, man included. Genesis says that "God created every winged fowl." Evolution says that fowls came up from reptiles. Genesis says that "God made man in His own image." Evolution says that the first man was half man and half Anthropoid Ape. Genesis says that the first man fell by sin; Evolution says that this is a lie; that the first man never fell but that man has always been evolving upward; Genesis says that God sent a flood and destroyed man from the earth, save Noah and his family; Evolution says that is a lie. Now the Savior endorsed Genesis as the Word of God; if Evolution is true then He endorsed those lies; hence, Evolution makes the Savior in the minds of those who believe it, merely the illegitimate son of a fallen woman.

Conditions have become so alarming that magazines, newspapers, novelists and educators have set themselves to the tasks of finding out just what the effect of evolution in our schools is. Their findings relate to only nine colleges and are catalogued viz: Fifteen per cent of the Sophomore class, 30 per cent of the Juniors and 45 per cent of the Seniors had given up the Bible and the Savior as Redeemer; that of 5,500 teachers of Science, 67 per cent of the teachers of Physics, 77 per cent of the teachers of History, 80 per cent of the teachers of Biology, 83 per cent of the teachers of Sociology, and 86 per cent of the teachers of Psychology have given up the Bible as God's Word and the Savior as Redeemer.

The people are being forced to pay taxes to pay teachers to drill this teaching into their children, from primary to university. It is clearly a flagrant violation of the spirit of the Constitution of the United States which guarantees religious liberty. To compel us to send our children to tax-supported schools, to compel us to pay taxes to pay teachers to drill into our children, under the plea of science, which is not science, the teaching that means that the Bible is a tissue of lies and that the Savior was not God's real son, but the illegitimate son of a fallen woman, means crushing religious liberty and trampling on the Constitution of the United States.

**IF YOU ARE BLUE**

If ever you come home from work tired and depressed and feel that it is hardly worth while anyhow, try to forget it by doing something to make someone else happy. Make your life worth while by ministering to someone's need. There are many in the world who are old and feeble, many who are young and inexperienced and in need of guidance and friendships and something constructive to do. Lead a Scout troop. That is well worth while. There are those who are blind and ignorant and half nourished and unloved and ill and lonely and neglected. Find them and open your heart to them and busy your fingers with them and depression will evaporate. The blues are a symptom of selfishness. The joyous life is one of contribution to the welfare of oth-

**WISE MOTORISTS ARE BUYING TIRES NOW**

And for these Reasons:

1. Goodyear prices are at the bottom.
2. Cost of punctures added to delays in bad weather, is greater than the miles left in old tires a worth.
3. Slippery roads of fall and winter make the full grip of new Goodyears a desirable precaution.
4. New Goodyear treads during winter wear down slower than ever—about TWICE as slowly per 100 miles as in summer. It is economy to put on new Goodyears now—they will be practically as good as new next spring. Ride with pride and enjoy Goodyear protection all winter, the time you MOST need it.

Millions More people ride on Goodyears—See the Subertwist Demonstration at our store and KNOW WHY!
