Franklin Garden Club Plans for Flower Show

The Garden club held its March meeting at the home of Mrs. Jess Conley with a good attendance. Much time was taken up in discussing and planning for the annual flower show in July. It was also decided to have a dahlia show in late summer.

"Community Meet" Attended by Many

The "community meet" that was put on by the ladies class of the Methodist church last Friday night was a great success. This was held in order to help raise funds to pay off a Sunday school debt. About

\$18.50 was taken in. Games and singing were enjoyed while the ladies of the class served hot chocolate and wafers.

An old-fashioned "grab bag" at five cents a grab was another feature of the evening. A cake was given away to the person guessing the correct pieces of candy on it. John Cunningham was the lucky boy. The male quartet composed of Messrs Roy Dady, Rogers Dalton, T. J. Johnston, Jr., and the Rev. G. Clifton Ervin, was greatly enjoyed. About one hundred people were present.

'Don't Go To Washington,' Job-Seekers Are Advised

WASHINGTON, D. C., March 4.—In a statement issued today, the United States Civil Service Commission advised the public not to come to Washington for the purpose of seeking federal employment.

The commission explained that the District of Columbia Committee on Employment has called its attention to a number of pathetic cases where persons have come from considerable distances expecting to obtain a government position on the strength of having passed a civil service examination, only to become stranded and in some instances a public charge.

Help Recovery of Business By Placing Future Orders

Anticipation of Coming Needs Will Quicken Industry

There is no magic formula that will set merchants to smiling and cash registers to singing, but wise ordering for future needs will do much to stabilize markets and the employment situation, suggests Fred W. Sargent, president of the Chicago & Northwestern railway in the March Rotarian.

"The story is told of a Kansas City paper wholesaler," writes Mr. Sargent, "who found he could place orders ahead for 240 items. Instead of buying his paper by ton lots, he could assure the manufacturer that periodically he would take a specified number of tons. This enabled the manufacturer to adjust his schedules so as to order his sulphite and pulp in larger quantities and to assure his workmen steady employment. And they, in turn, have greater purchasing power."

Business today is needlessly retarded by fear, Mr. Sargent points out. This uncertainty extends from the housewife who hesitates to make normal purchases because Saturday may bring a sale, to the manufacturer who, doubtful of the future, cuts his purchase of raw materials, reduces output, and discharges workmen.

"An opportunity now exists," declares Mr. Sargent, "for men with business insight to hasten the healthy readjustment between demand and supply and to help bring

examination with a high rating he has no assurance that a position will be immediately available to him. Appointments to federal positions, the commission said, are made only as the actual needs of the service require, and in accordance with the civil service rules, and the presence of an applicant in Washington cannot in any way improve or expedite any prospects of employment he may have.

The Commission stated in conclusion that no one should come to Washington expecting to receive a federal position except in response to a definite offer of employment from a government establishment.

about a reassuring psychology. Doubts about the future must be removed. This cannot be done by words. It can only be done by action. And action, translated into business terms, means active buying.

"We have already made a good start. Chambers of Commerce, Rotary and other business groups have it within their power to exert a salutary influence. Many are actively preaching 'buy now' measures. Firms are encouraged to make a careful survey of their needs six months or more ahead and to give orders for future deliveries..."

"It should never be necessary for business to ask humiliating favors of the government. Nor need we kill the golden goose by reducing standards of living. But commonsense, a feeling for humanity, and aggressive group action can certainly set forces to moving that will bring relief to the present situation."
