SUNDAY

11 A. M.—Morning Prayer and Sermon, Church of Incarnation, Highlands.

7:30 P. M.—Evening Prayer and sermon, St. Agnes Church, Franklin. Sermon—"Does God Will Sickness?"

BY REV. NORVIN C. DUNCAN

The thing uppermost in our minds just now is the Life Abundant mission which Dr. Bell is to conduct, God willing, November 8 to 15. Having had experience with Dr. Bell in these missions, the writer can fully appreciate what ours may mean to the community.

This mission is quite unlike the usual type, though there is a deep evangelical note running through it. It is not designed to promote the welfare of any particular branch of the church, but to proclaim the Glad Tidings of radiant health, physical and spiritual, through all branches of the church. It will be one in which all Christians may take part without feeling that it belongs to any one more than the other.

These missions depend upon the faith of those attending, and we urge those Christians of every branch of the church, who believe in the power of God through prayer, to attend and thus contribute their faith towards helping others to radiant life through Jesus Christ, who is the Way, the Truth, and the Life.

The message of this mission is particularly appropriate at this time, when the wave of depression is so adversely affecting so many people. God is rich, and God is generous. Those who obey His laws will find Abundant life, both spiritually and materially.

Some beef-cattle breeders think that too much silage harms the breeding qualities of a bull. A bull weighing about 1,400 pounds should keep in excellent breeding condition during winter if fed a ration of about 30 pounds of silage, 10 pounds of good-quality alfalfa or other legume hay, and 12 pounds of grain mixture.

The English classes have made an intensive study of autumn birds and flowers. The following poems are an outgrowth of this study.

AUTUMN

October days are here, and the grass is turning brown.

The sad and joyful times of year, when the leaves come tumbling down.

The flowers are slowly dying as October comes along.

And south the birds are flying, with their beautiful farewell song.

OCTOBER

October days will soon be here, and the fall of the year,

The corn is almost ready to gather, and we'll soon see the snow-birds' feathers;

The Snow King is coming soon, his icy breath to cover the moon,

He will bite our nose, and sting our toes, as over the hill he goes.

SCHOOL

(Note that initial letters, reading down, spell FRANKLIN PRESS)

Final tests will be given soon, Readings and drillings come before noon.

After that comes English next, No one thinks of being vexed.

Kindly at the teachers' text, "Love your books," the teachers said,

In the evening use your head, and read, Ninety minutes before going to bed.

Pass the ball at school next day, Run and jump and always play.

Eat some vegetables is a very good rule, So you will feel better in the school.

OCTOBER DAYS

Oh! for the glorious October days, With skies so blue and clear— The happy golden autumn days, That each of us loves so dear.

They are speeding, speeding by us, On wings of sunshine rare— No matter how much we'd like to keep them, They are here and then gone by.

We must send up our thanks for the harvest, That October days bring to us, And try in a measure to thank Him, For His every blessing to us.

"More genuine satisfaction than any car I ever owned"

THE FORD is good-looking. It is safe. Comfortable. Speedy. Reliable. Long-lived. Economical. Everything a good car should be.

saying this, I am thinking in terms of comfort, safety, driving pleasure, ease of control and economy. My next car will also be a Ford because it will give me what I want at a price I can afford to pay."

There is, too, an added something about it that brings enthusiastic comments from every one who has ever driven a Ford . . . the joy it puts in motoring.

"I have been a car owner continuously for nearly 20 years," writes a motorist connected with a leading university. "During this period I have bought eleven new automobiles. Eight of the eleven were in the middle-price field, one cost three thousand dollars, and the last is a Ford I purchased thirteen months ago."

"In the light of this experience I can say in all sincerity that I have derived more genuine satisfaction from the Ford than any car I ever owned. In

In Memoriam

As one stands beside the mound of a loved one who has passed on, there is comfort in the age old thought—here might an appropriate memorial be erected to perpetuate the qualities one has known and grown to love. By the erection of a Roberts' Memorial there will be a permanent reflection to the world of a personality it has lost.
