Freeing Of Paris Is Pleasing To Pershing

In commenting on the liberation of Paris, Gen. John J. Pershing, who commanded the American Expeditionary forces in World War I said, "Over four years ago, when the Germans took Paris, my sorrow was beyond words. Paris, to me, was and is the heart of France.

"Today Paris is free; and the sons of Americans who fought to preserve the freedom of Paris in 1917 and 1918 have had a permanent role in the liberation of 1944. By their cooperation with their British, Canadian, and French Allies, these American soldiers of 1944 have upheld the high military traditions of the United States Army.

"The liberation of Paris is a great step forward along the road to Berlin."

HAVE YOU BEEN MARRIED 75 YEARS?

Plans to honor couples married for by years or more are being prepared by the committee in charge of celebrating the Seventy-fifth Anniversary of the flour mill company founded by the Pillsbury family in Minneapolis in 1869.

The initial plan is to send a 75th anniversary cake to each of these couples who were married in the year the company was started or before. According to population figures, anayzed by statisticians, there may be 250 or more couples in the United States who are observing their diamond anniversaries.

The committee is, however, interested in the life story of these people and has asked The Herald to assist it in locating these couples.

The married life of the people will have spanned a period of remarkable dovelopment in this country. Theier early romance would have occurred in the closing year of the war between tl e states and the reconstruction peri'd that followed. Among them might be a wife who was a girl of 15 in 1869. She would be 90 this year. Her husband might have been a returned boy soldier, or a youth still in his teens who was inspired by the struck out at an early age to establish his own home.
