INVASION CARGOES JAM LINGAYEN BEACHHEAD

PIERS AND DOCKS AND WHARVES ARE LACKING, but landing ships and miles of beach sand serve well enough for MacArthur's invasion traffic (above) on the shores of Lingayen Gulf in the Philippines. Landing ships and vehicles and many busy men create the illusion of a giant port—as in fact this will have to be until its services can be transferred finally to Manila Harbor, one of the finest in the Orient. With Clark Field firmly in American hands, Jap-held Manila becomes more vulnerable, and observers predict that the capture of the Philippines capital looms close ahead. This is a U. S. MEMO TO ADVERTISERS

Questions and Answers about Newspaper Advertising

- Q. Do you know of any measure for the value of newspaper circulation to an advertiser such as the standards that a business man uses in buying merchandise? A. Yes. In the well-known standards that have been approved and adopted by advertisers—namely A.B.C. standards. Q. What is A. B. C.? A. A.B.C. stands for Audit Bureau of Circulations, a cooperative association of 2000 advertisers, advertising agencies and publishers in the United States and Canada. Q. What is the Bureau's work? A. To audit the circulation of newspapers and periodicals so that advertisers can buy space on the basis of definite standards and verified facts and figures. Q. How does A. B. C. accomplish this? A. The Bureau has a large staff of experienced auditors. These men visit the publisher members annually and make audits of their circulation records. This information is then published in A.B.C. reports for the use and protection of advertisers. Q. What do these reports show? A. A.B.C. reports tell how much circulation a newspaper has, where this circulation is, how it was obtained, how much people paid for it, and many other verified facts that advertisers should know when they buy advertising. Q. Are all publications eligible for A. B. C. membership? A. No. Only those with paid circulation. This is important to advertisers because it is the best proof of interest and purchasing power on the part of the readers. Q. Is this newspaper a member of the Audit Bureau of Circulations? A. Yes. We are proud of our circulation and we want our advertisers to know just what they get for their money when they advertise in our columns. The audited information in our A.B.C. report gives them the complete facts.
