COLLEGE COWS WIN NATIONAL APPROVAL

The Holstein-Friesian Association of America has announced that two registered Holstein cows in the dairy herd at North Carolina State college have recently completed official production records in herd test of more than 400 pounds of butterfat.

The higher producer of the two was North Carolina Echo 7th, 2097439, with a record of 471 pounds of butterfat and 13,225 pounds of milk. This is more than two and a half times the production of the nation's average cow. The record was made in 365 days at two milkings daily. Echo 7th is four years and 11 months of age and was sired by the famous Osbornedale Daniel Inka May, 726892.

The second high producer is North Carolina Echo 2nd, 1770760, with 448 pounds of butterfat and 12,391 pounds of milk, made in 344 days on twice daily milkings. Echo 2nd is nine years old, and was sired by North Carolina State Butterboy, 647045.

These and other purebred animals of various types have been used in a 20-year-old program to bolster private herds in the state. Despite the sale of many of its top animals over the years, the college herds have been gradually improved by the introduction of improved breeding stock.

ELIAS IS REDDEN'S DISTRICT MANAGER

ASHEVILLE, May 15.—"My upmost ambition is to see Western North Carolina develop, prosper and progress, and I feel I can make definite contribution to that end by supporting Monroe Redden for Congress," declares Don S. Elias, Redden district manager.

Mr. Elias, who is executive director of Radio Station WWNC and vice-president of the Asheville Citizen-Times company, and who has a long record of leadership in civic projects, sees Mr. Redden as a seasoned and successful attorney and business man whose ability and energy will make certain, this section's interests will be protected in Washington.

"We want the Great Smoky Mountains National Park developed, the Blue Ridge Parkway completed, tourist facilities expanded, agricultural and mining possibilities fostered, and more and more industries established, asserts Mr. Elias. "Moreover, we want our industries and visitors treated with such fairness and appreciation that others will be encouraged to come to live and work among us."

"The people of Western North Carolina are entitled to the most competent, energetic and intelligent representation in Congress. I am confident our people have an awakened understanding of our needs today and will register their desires by nominating Monroe M. Redden in the Democratic primary."

Twenty On 1947 Staff Of W.C.T.C. Catamount

Twenty persons have been appointed to the staff of the 1947 Catamount, annual at Western Carolina Teachers college, according to an announcement by L. H. Halliburton, editor-in-chief.

The appointees are as follows: assistant editor, James McRaney, Jr.; associate editor, Mary C. Moody; literary editor, Jannette White; activities editors, James Russell and Margaret Mallonee; art editor, June Wright; athletic editors, Bobby Terrell and Vada Lyda; feature editors, Mabel Morgan and Tommy Ellis; photography editor, Bill Hannah; snapshot editor, J. B. Beam; manuscript editors, Frank Curcio and Thelma Joyce Finch; senior class editor, Louise Edwards; junior class editor, Daphne Goodman, and sophomore class editor, Gerald Lovin. Charles Frazier is the elected business manager of the year-book.

Plans are going rapidly forward to the end that this staff will endeavor to publish the largest annual in the college's history.

Upper District Singing Convention At Cashiers

The Upper District Singing convention will meet with the Cashiers Baptist church the third Sunday afternoon in May at 1 p.m. The public is cordially invited to attend.

VOTE FOR Monroe M. Redden
Democratic Candidate For CONGRESS

Don S. Elias

Executive Director of Station WWNC, Vice-President of the Asheville Citizen-Times Co., and District Manager of Mr. Redden's Campaign—

Says:

"Without any ill-will toward any candidate, I feel I can make a contribution to the upbuilding of Western North Carolina by supporting the nomination and election of Monroe Redden to Congress, and have agreed to act as his district manager.

"Monroe Redden is a seasoned and successful attorney and business man. His demonstrated ability and well known energy and public spirited services to the area and the Democratic

party make certain that our interests will be protected and pushed if he is in Congress.

"The people of Western North Carolina are entitled to the most competent, energetic and intelligent representation in Congress. I am confident our people have an awakened understanding of the urgency of our needs today and will register their desires by nominating Monroe M. Redden in the Democratic Primary on May 25."

Blue Ribbon SHOE SHOP

Our dealers join us in making this frank report to THE FARMERS OF AMERICA

INTERNATIONAL Harvester is getting back into production with all possible speed. Extra shifts are being employed wherever conditions permit, to try to overcome the production losses of the recent strike. Everything is being done to get parts and machines to you.

While we and our dealers would like to tell you that this means an immediate end to the shortage of service parts and machines, it is more accurate to say that it means the beginning of the end of it. If illness or bad weather delays you seriously in the Spring, you know how much it throws you off your schedule. The strike has thrown our schedules off balance, too. There are many "chores" we must do before new machines reach you.

Material shortages

The preliminary chores of getting our plants back into shape for full production are finished. But disturbances in other industries and resulting material shortages may affect our plans. Light gauge steel sheets, brass and copper, fractional horse power motors, and many other items are all very short. The coal situation may also prove serious—we hope not.

Refilling the well

Both our dealers and our branches have run dry on parts and new machines. So the biggest chore is to get their working stocks back to normal. It will take time to fill the pipeline to dealers—just as it takes time for you to refill a well or cistern after it has run dry.

Stock and display rooms of our dealers represent not one, but ten thousand reservoirs which must be refilled. The most heroic pro-

duction efforts will mean that your local dealer can expect only a small number of parts and machines at a time. Since we must play fair with all our customers, there will be a sprinkle of parts and machines all over the country—not a downpour in any one section.

You will be glad to know that all repair parts production schedules are far beyond normal.

No hoarding

You may be sure that every machine will be shipped to dealers as soon as completed. We do not and will not hold machines off the market.

At the start of the strike we had on hand at all our factories and branches just 837 tractors of all kinds—less than two days' production—and 40% of these were not completed. Many of those on hand had one or more important parts missing—principally radiator cores. Most of the rest represented the normal daily "float" between the end of the assembly line and the shipping platform. Naturally no tractors were made during the strike.

What dealers may have for you

We can report to you that our current production on TRACTORS is good and we are shipping at a normal rate. Even so, there will not be enough to go around. The situation on PLOWS

and DISK HARROWS is reasonably good. On COMBINES, MOWERS, HAY RAKES, ONE-MAN HAY BALERS, CORN PICKERS and many other items, our schedules have been seriously disrupted. We must in fairness say that many of our customers are likely to be disappointed on delivery of these machines. On MILKING MACHINES, STATIONARY ENGINES, and some other small units we are hopeful of making practically normal delivery.

You know you will understand the reasons why your dealer cannot fill your orders overnight. He would like to give you the kind of delivery on machines you would like to get, but his situation is a difficult one and not of his own making. He is doing the best he can.

No cutting corners on quality

There is one thing you can be absolutely certain about: We will NOT cut corners on quality in order to increase production in this emergency. For years we have said: "QUALITY IS THE FOUNDATION OF OUR BUSINESS." Today we say it—and mean it—as much as ever.

We know you need new machines—and need them badly. But we believe it will pay you to wait just a little while longer if you cannot get all you want immediately. By waiting you can be sure your new equipment will have the quality so rightly associated with INTERNATIONAL HARVESTER for so many years.
