CONSTIPATION

Risky in BAD COLDS

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter ills and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virus-laden mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

Prayer Gets Things Done

By REV. W. O. GRIGG

Many stories have come to us out of the war about men who apparently never paid much attention to religion before, but when faced with grave danger, they turned to the Lord in prayer and found that He did not fail them. The story of "Men on a Raft" and the statement, "There are no Atheists in foxholes," are examples. Such stories should cause the most disinterested layman to make inquiry, for if there is such a source of help, all of us should like to know how to get it.

The Christian Church has dared to preach throughout the centuries that there is a power available through prayer, that prayer gets things done. It is not a mere lip service of which we speak. It is that deep seated communion with God whereby a finite being taps the resources of the Infinite to accomplish His purpose.

This gospel message is a message of greatness—of power—not weakness. Small men have gone forth in the name of the Lord and have accomplished great things. The story of David and Goliath is symbolic of this power. Jesus said it is like leaven that works quietly but works until the whole lump is leavened. It is not noisy but irresistible.

Prayer manifests itself in many ways. First of all it does something to the man who prays. The man who struggles with issues that are too big for him finally surrenders to Him and says, "Thy will be done." A great power wells up from within and changes the whole picture. He is not weak because he has quit struggling, but he is strong because he has opened up a new avenue whereby the power of God is brought to bear. A sinful man, who is defeated and sees no purpose in life, comes to prayer with God and arises a different person.

But the benefits of prayer do not stop with the person who prays. Prayer reaches out to others. The prayers of godly mothers, godly ministers, and christian people have no bounds. They are not limited by time or space. Neither a brick wall nor the wide ocean can stop them. You should thank God for those who go to a throne of grace in your behalf. You cannot be unaffected unless you harden your heart. Prayer gets things done.

BISHOP MARTIN TO BE HEARD ON THE METHODIST HOUR

"Forgotten Dreams" is the subject of the radio address of Bishop Paul E. Martin of Little Rock, Arkansas over The Methodist Hour radio program on Sunday morning, March 23rd.

This program which is sponsored by The Methodist Church in the Southeastern and South Central Jurisdictions is broadcast over a network of 52 radio stations and originates in the studios of Religious Radio Center, Atlanta, Georgia at 9:30 a. m. EST.

The Methodist Hour is a part of The Southern Radio Conference, which is composed of radio committees from the Protestant Episcopal Church, the Presbyterian Church in the U. S., The Southern Baptist Convention and The Methodist Church. Each of these four denominations have a three month series of broadcasts over the same network. The Methodist Hour will be followed by The Baptist Hour during the months of April, May and June.

Bishop Martin is resident bishop of the Arkansas-Louisiana area of The Methodist Church and has supervision of the Methodist churches in those two states. He is a native of Texas, a graduate of Southern

International Harvester announces \$20,000,000 price reductions

We believe there is nothing more important to this country than to lower the prices of the goods that people buy.

The American people have insisted that the government withdraw from its attempts to control prices in peacetime. That places the responsibility where it belongs—in the hands of business and industry. Not all business can reduce prices now. Not all can reduce by the same amount.

Our company has felt a duty to act as promptly as possible. In our case, the business outlook now makes it possible to move toward the goal of lower prices. The only way out of the vicious circle of higher and higher prices is to break through.

We have taken this step not because of present competitive conditions nor because of a drop in demand from customers. We have taken it because of our belief that ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED.

These reductions, which will save the users of our products approximately \$20,000,000 a year, will become effective before April 1, and will apply to a selected list of tractor, farm machine, motor truck, and industrial power products. Since we lose money on a few of our products, and barely break even on some others, these reductions will not apply to our entire line. Reductions will be made individually on products. Some will be cut more than others. Exact details will be announced as soon as possible.

Our ability to maintain this lower level of prices will depend in part on what happens to the prices and flow of materials that we buy from others. Because we believe price reduction is vital, we are willing to assume the risks that are involved.

prices had not gone up as much or as fast as many others
Here are Average Price Increases since 1941
All Manufactured Products (U. S. Government Reports) 63.7%
Metals and Metal Products (U. S. Government Reports) 41.2%
Motor Trucks 35%
Industrial Power Products 34%
Farm Machines 25%

These benefits to customers will depend, too, on uninterrupted production at reasonable wage levels. This is not a program that can be carried out if it is hampered by strikes or work stoppages.

Our employees have had substantial increases in pay, and wage questions are currently being discussed with many of the unions with which we deal. Stockholders have recently had an increase in dividend rate. Having considered the interests of these two groups, we are now making these price reductions for the benefit of the third group—our customers.

Business, to our way of thinking, has a social as well as an economic responsibility. This company has long followed the policy of operating in the interests of three groups—its customers, its employees and its stockholders. The duty of the management is to see that equal justice is done as between the three groups.

This price reduction program is another demonstration of our policy in action.
