## Weekly SERMONET

## Baptist Choir To Present Concert

And very early in the morning the first day of the week, they came unto the sepulcher at the rising of the sun, Luke 16:2.

It was very early in the morning, yes, while it was yet dark, that Jesus rose from the dead.

### GOD'S GARDEN

Let us picture in our imagination a lovely garden of flowers of various kinds and colors blooming in profusion. Fragrant flowers, some tall, some low—each arranged where best it can grow. Flowers you like, flowers I like, flowers to suit every individual. Then in the garden let us imagine a section given over to vegetables. They grow and bloom, have lovely foliage and blossoms as well as the flower in the first part of our garden. Their differing fruits add color and value to the garden of our imagination.

This is a lovely garden of our imagination and we admire it for its beauty. But its beauty is to be enjoyed by more than its owner and for far more than its beauty alone. We gather flowers from our garden—some go to shut-ins, some to home of friends in sorrow, and some to friends and neighbors. And to each one these flowers spread a wave of love and appreciation—nourishing the Soul.

Out vegetable garden serves a similar purpose. The vegetables nourish the body and the soul. We use them for our family, we share them with our neighbors, we divide with those in need. Our schools, orphanages, and charity cases often receive foods from our gardens. Then it is that not our bodies only are nourished but our souls also.

We have been speaking of this garden as our garden, but our subject is "God's Garden." Let us think now of the world as God's Garden and count ourselves among the flowers and vegetables. What kind of flower or vegetable are we? Are we serving in the right place and doing the best we can? Are we surly and dour in our service to others for lack of cultivation or study on our part? God has given each of us a talent, we believe, and we are to cultivate it for use and God's glory.

A florist was working among his flowers. One day as he toiled in the morning sun one of his favorite plants fell and the pot was broken by the fall. But the flower was not injured at all. The gardener carefully picked up the plant, placed it in some fresh soil in a larger and better pot, and soon it began to grow and blossom in great beauty. Our souls are the flowers, our bodies the flower pots which get broken and must be replaced. This is something not to make us sad, but glad. We are not to die alone, but to live again. Christ said, "I am the resurrection and life." Yes, he suffered and died and is risen that we may have life—glorious and glad and eternal.

Ten of the twenty advisory committees that will serve in connection with the Research and Marketing Act of 1946 have been appointed, according to an announcement by the U. S. Department of Agriculture. Latest additions to the total were Dry Beans and Peas, and the Soybeans and Flaxseed Advisory Committee.

Guest singers: Miss Alice Weaver, Messrs. Clarence Chrisman, Joe Crum, and Kendall Grady.

This annual concert is one of the highlights of the Easter season and the public is cordially invited to attend.
