Sylva Takes Double-Header From Hiawassee On Sunday

Both Games Won By Shutouts, 2-0 And 1-0

The Sylva American Legion Baseball club took both games of a double-header at Hiawassee, Ga. Sunday afternoon, 2-0 and 1-0. James Cunningham pitched the first game and gave up only 4 hits while Taylor, Hiawassee's pitcher gave the Legion only two hits. A. Kinsey was the big gun for Hiawassee in the first game, collecting 2 of the 4 hits given by Cunningham. L. C. Arrowood drove in the 2 Sylva runs in the 4th inning.

Odel Griffin pitched the second game for Sylva and won his own game with a homer in the 5th. Sylva only collected 4 hits in the

No Dinner Bell Needed Here

CHEATA, A COCKER SPANIEL, nurses her four puppies and three orphaned pekinese waifs. Cheata, herself, was nursed by an "adopted" mother when she was a pup. The three newcomers are now out of danger and thriving with their newly "adopted" mother. (International Soundphoto)

Germ War Report

PRESIDENT of the American Association of Scientific Workers, Dr. Maurice B. Visscher announced in Chicago the publication of a 40,000-word technical summary of all that was known about the potentialities of bacterial warfare up to 1942. Dr. Visscher told reporters that the U. S. "might be particularly vulnerable" to bacterial warfare because of its geographical isolation. (International Soundphoto)

Halliburton Offered Fellowship At The State College, Wash.

CULLOWHEE — Lynwood Hall Halliburton, Hamlet, a student and part-time instructor at Western Carolina Teachers college, has been awarded a Fellowship at the State College of Washington, Pullman, Wash. He will study in the field of History for his Master's degree, and will also teach while he is there. The award was recently announced by Dr. Wilson Compton, president of the Washington college, and Dr. Claudius O. Johnson, head of the Department of History and Political Science there.

Mr. Halliburton, son of Mrs. L. H. Halliburton, Meredith college, Raleigh, will graduate from WCTC May 26 with a B. S. degree in education. He is majoring in history and English. Mr. Halliburton was assistant to Prof. Stillwell, former head of the social science department here, for three and a half years, and has been an instructor in history here since the beginning of the winter quarter last December 2.

It takes approximately one hundred years to add one inch of top soil to one acre of land.

STATE COLLEGE ANSWERS TIMELY FARM QUESTIONS

QUESTION: Can the Australian pine be grown successfully in North Carolina?

ANSWER: The Australian pine is not a true pine according to R. W. Graeber, in charge of Forestry Extension at State College. It was introduced in Florida and has been used extensively for windbreaks in some parts of that state, however, it has been found that it is not hardy where the temperature gets below fifteen degrees.

It is not advisable to attempt to grow it in this state because it would be subject to cold damage at any point north of Jacksonville, Florida.

QUESTION: How can I prevent gapeworm infection in poultry flocks?

ANSWER: Prevention from this infection lies chiefly in frequent cleaning of the chicken house and keeping young chickens away from old ones, according to Prof. Roy S. Dearstyne, head of the Poultry department at State College.

Strict sanitation of houses and yards is a very necessary measure for this type of trouble since the gapeworm eggs are expelled in the droppings of infected birds and embryos of the worm develop in the droppings.

QUESTION: Is it necessary to feed grain to hogs?

ANSWER: Sows with pigs over two weeks old, weaned pigs and fattening hogs should have all the grain they want at all times, according to E. H. Hostetler, professor of Animal Husbandry at State College.

Any good hog ration must be composed of grain, a protein supplement, a mineral mixture and green feed. The absence of any one of these in the hog ration, for any length of time, will cause a delay in growth and a decrease in resistance to disease.

Corn is the most satisfactory grain for hogs. Barley is an excellent feed for hogs, but it should be rolled or ground before being fed. Oats are too bulky and high

in fiber to form more than 25 per cent of the grain ration for growing pigs but may be used in greater amounts for mature sows and boars. Rye should not be fed to brood sows because it sometimes contains ergot, a poisonous substance to pregnant sows.

Are you planning to pick up and picnic this week end? Then I know you're hoping, as I am, for warm, sunny weather. But if it should turn out to be chilly or rainy, don't let that interfere with your plans. Go ahead and have your picnic anyhow... at home. That way your family won't feel let down, and you won't have to rustle up a regular meal at the last minute.

THIRST AID
It's no picnic being thirsty on a picnic, so be sure to take plenty of refreshing soft drinks on your outing! You'll find a big variety of "whistle wetters" at your A&P... each as enjoyable as the other, and all thrifty priced. Make A&P your thirst aid headquarters!

QUICK AND SLICK
If you go in for campfire cookery, you'll get yards of enjoyment from ENCORE Prepared SPAGHETTI. It's mighty good cooked at home on the range, too, so get a few cans at the A&P. Made with a tasty sauce of tomatoes, spices and cheese, all you have to do is heat it. And if you want an extra hearty dish for 8 hearty eaters, combine 2 cans of this swell spaghetti with 2 cans of red beans; mix well in a skillet; add 2 tps. of chili powder, and heat thoroughly. Add green pepper and onion rings if you like 'em. Grand indoors or out!

SWANK FOR SALADS
For the best-dressed cole slaw or vegetable salad that ever went a-picnicking, try this tangy dressing made with WHITE HOUSE MILK, the creamy-rich evaporated milk sold at the A&P. Just blend 1/2 tsp. prepared mustard, 1/2 tsp. salt, 2 tps. sugar, a dash of cayenne, and 1 cup undiluted WHITE HOUSE EVAPORATED MILK. Add 1 tps. vinegar gradually, stirring till thick. Enough for 8 servings of salad.

KING-SIZE SANDWICHES
Where there's a grill, there's a way to enjoy MARVEL HAMBURGER ROLLS in their special role of partners for sizzling hamburgers. But even if your picnic equipment doesn't include a grill, these delicious, freshly baked rolls from the A&P can have their innings on your outings. They're perfect for big he-man sandwiches of all kinds because they hold so much filling.

Local R. A's To Meet In City Park This Morning

The local Chapter of the Royal Ambassador will meet this morning, Thursday, at 9 o'clock in the city park near Tommy Ferguson's home. All members are urged to be present if possible.

The word "tobacco" is thought to have originated either from a reed called tobacco that the Caribbean Indians used as a pipe in which to smoke a weed or from a province now referred to as Yucatan, where tobacco was first grown.

Junior Baseball League Planned For County

A junior baseball league, sponsored by the William E. Dillard Post of the American Legion has plans underway for organizing a Junior baseball league in the county.

To begin with the Legion will sponsor a two weeks baseball school for all boys of the area between 10 and 16 years of age. Any boy in the area is eligible to attend the school. The only equipment he will need will be a glove.

This school will start Monday, June 16 and will be held at the Sylva high school athletic field each Monday, Wednesday and Friday afternoon at 2:30 during the two weeks period.

UNDER 12

Triena is the mild senna laxative made especially for children under 12. Easy to take. Flavored with delicious prune-juice. Prompt acting, reliable. For quick relief from annoying children's constipation, give TRIENA. Satisfaction guaranteed. Caution: use only as directed. 30c, large size, 50c.

FORD'S OUT FRONT with two great engines

Both with these BIG FORD features!

Fewer Engine Revolutions Per Turn of the Wheels

Yes, both SIX and V-8 have slower engine speeds than any other cars in their price range. The car "hustles" while the engine "loafs" for best economy, longer life!

4-Ring Pistons

Among the many V-8 features you get in the Ford SIX engine are light-weight aluminum pistons, with 4 oil-saving rings.

Balanced Carburetion

In both the modern SIX and famous V-8 you get new balanced downdraft carburetion, dual automatic spark control and super power combustion chambers—for performance and thrift!

Ford "50 year" Engineering

The Ford SIX is the only six-cylinder engine with the same basic engineering features as the V-8. No matter which Ford engine you select, the rest of the car is exactly the same.
