## STATE COLLEGE **ANSWERS TIMELY** FARM QUESTIONS

kitchen?

ANSWER - Many people think that the proper place for a kitchen is in the back part of the house. Convenience and comfort, not custom, should be the deciding factors in selecting the locations of the kitchen on the house plan. Many other house-hold and farm tasks must be carried on while the homemaker is cooking. Locate the kitchen so that other household tasks can be neatly fitted together. The location of the kitchen, in relation to the other rooms in the house, is a part of the plan for a step-saving layout.

A room with two outside walls and an eastern exposure does much to make a well-ventilated, pleasant kitchen.

QUESTION - How can I better manage my dairy farm?

ANSWER - Extension Dairy specialist at State College say that by following certain practices, a dairy farmer can greatly increase his annual income.

Free access to water of medium temperature is essential to maximum milk production. The milking

## REPORT XS-1 PLANE FLIES FASTER THAN SOUND

THE U. S. AIR PORCE'S NEW ROCKET-ENGINE PLANE, the XS-1 (shown in flight-inset) has broken through the "supersonie barrier" to fly faster than the speed of sound, it is reported in Aviation Week magazine. The plane is launched from the belly of a Superfort bomber as shown above. Its rocket motors have about a one-minute life, after which the plane is glided to a landing. Flights at speeds above 660 miles an hour, at record altitudes, assertedly have been made several times during the last month.

#### County Agricultural **Workers Council Elects** Officers For Coming Year
