Pulse Beats of the South

Close your eyes and listen!

Hummm! Hummm! Hummm!

The throbbing, ever-mounting hum of busy factories. It's the industrial South turning out endless streams of finished products.

Grrr! Grrr! Grrr!

The roar of tractors . . . the whirl of machinery. It's the fertile Southland wresting treasures from the fields, forests and mines.

Bzzz! Bzzz! Bzzz!

The chatter of families . . . the carefree laughter in playgrounds . . . the optimistic talk of Southern business men. It's the people of the South enjoying the land they live and work in.

Clickety-click! Clickety-click! Clickety-click!

The continual clickety-click of railroad wheels hurrying over steel rails. It's the 8,000-mile Southern Railway System serving the South . . . 24 hours a day . . . with economical, efficient, dependable mass transportation.

Hummm! Grrr! Bzzz! Clickety-click!

These are the pulse beats of the South . . . pulse beats that have grown stronger and louder year by year . . . pulse beats that will mean even greater progress and prosperity for the land we all love—if we continue working together in the years ahead.
