James Barnwell Named New Coach At Sylva High

BEACON MILLS DOWNS SYLVA LEGION 7-2

The Beacon Mills entry in the WNC Industrial League went the route for Beacon to gain credit for the win.

Joe Fountain, Sylva moundsman, was tagged with loss although he allowed only seven hits, recorded 12 strikeouts, and didn't give up an earned run. Both of Sylva's runs were earned.

Sylva collected 12 hits off Rhya triple but couldn't effectively

yant answer to Back Road and Boulevard

DEMEMBER that rough patch of N road up yonder where the ruts and ridges make a washboard seem smooth?

Recall the tiring tenseness brought on by the drum and hum of road noise and tremor even over smooth concrete highways?

Well, clock away the miles in this stunningly styled Buick - and meet up with the sweetest answer to such matters this side of cloud cruising.

"It's a ride that's soft and smooth as velvet," folks tell us. And we tell them it comes from a host of things.

It comes from the ample roadweight of a two-ton car built low and wide - and so beautifully balanced it handles light as a baton. It comes from the leveling buoyancy of Buick's all-coil springing which puts a pillow of deeply coiled steel at each wheel to soak up the bumps and ripples.

It comes from the softness of bigger, lower-pressure tires that cushion away road tremors and roughness - from the sure-footed, swerve-free steadiness of Buick's extra wide Safety-Ride rims, widest in the industry.

And it comes in special measure from a brand-new engineering gem we call Vibra-Shielding which banishes vibration build-up.

Here for the first time you're freed from the motoring fatigue brought on by tiny tremors piling up into bigger ones. Here your miles are made moss-smooth and quiet-long journeys become mere jaunts.

So why delay knowing the most buoyant answer to any road you ever traveled?

Come visit us now. Know at first hand the distinctive styling, the flashing action, the velvety ride over highway and byway that are Buick's and Buick's alone.

Then follow your heart's desire and get your order in promptly. We'll take it in proper sequence whether or not you have a car to trade.

REASON FOR THE VIBRA-SHIELDED RIDE

Placed with scientific exactness, 3 fat cushions of special composition cradle the engine so as to control its vibration frequency. Engine vibration is thus kept "out of tune" with those that might come from other parts of the car. The result is to shield car occupants against tiring pulsations, cut road noise, make engine sensation almost imperceptible and motoring practically fatigue-free

BUICK alone has all these features

* DYNAFLOW DRIVE Optional, Roadmaster Series * TAPER-THRU STYLING (Somer and Roady exter)

* VIBRA-SHIELDED RIDE * SAFETY-RIDE RIMS

* HI-POISED FIREBALL POWER

* ROAD-RITE BALANCE * RIGID TORQUE-TUBE * QUADRUFLEX' COIL SPRINGING

* SOUND-SORBER TOP LINING (Super and Roadmaster) * DUOMATIC SPARK ADVANCE * FLEX-FIT OIL RINGS

* TEN SMART MODELS * BODY BY FISHER
