Group Of Sylva Flying Service G. I. Students

The above picture, taken recent-Johnnie Watson, Sylva Flying Sera group of his students standing in front of a Waco type plane (this plane crashed and was destroyed Sunday, June 6, no one hurt) and two small cub type planes back of the Waco. The Sylva Flying Service now has a large number of students, the majority of whom are G. I.'s. The flying course requires 24 weeks time with 45 heurs flight instructions and a minimum of 50 hours ground study. Mr. Watson, approved by the Government, is giving the instructtion. When a student completes the course he is then issued a private flying license and he is then qualified to continue further training if he is interested in a commercial

> The old adage, "Dry June, Full Barns" is going to be tested. The county-over has favorable growing season and crops are making a wonderful come back. Register of Deeds Glenn Hughes boasts he has the best corn in Jackson County. Lyman Stewart says by July he will be in time to challenge him. Mr. Stewart also reports it was reported to him a hail storm fell on Cedar Creek one evening last week and the next morning so many hail stones remained on the ground one scoop would fill a gallon bucket. Cedar Creek, that sounds like a hail of a story.

Alfalfa was seen growing at a 4000 foot elevation last week. Marion Prince and brothers on top of Cowarts Mountain are doing a wonderful job of farming up land and reports good yields are secured. If seeded right, alfalfa is King of Hay Crops.

Some sprays needed now-apoles (Bordeaux mixture), Grapes (Bordeaux mixture), Beans (Rotenene), Cabbage (Rotenone), Cucumbers and Melons (cryolite), Potatoes (Bordeaux mixture and arsenate), Tomato (Copper A or tomato dust), shrubs and shade trees (nicotine sulphate), roses and flowers (nicotine sulphate and rotenene). Kill the bugs, prevent the diseases. Consult your county

Mou Get MORE MOHAWK TRUCK TIRES

Fleet operators everywhere report that Mohawk Truck and Bus Tires have super-strength, which insures maximum mileage.

First, the original tread lasts longer, because of its extratough, heat-resistant construction. And the carcass of every Mohawk Truck Tire has surplus-strength - it's strong enough to handle several recappings. Fleet owners know that an undamaged Mohawk Tire with a smooth tread is still a valuable asset. So, they recap it, keep rolling, and save money.

Yes, the complete life of Mohawk Truck Tires provides you with more miles at less cost!

VOTE FOR

HE WON **FIRST**

PRIMARY **MAY 29**

Charles M. Johnson

FOR GOVERNOR

IN THE

RUN - OFF PRIMARY

SATURDAY, JUNE 26

Charles M. Johnson was high man of the five candidates for nomination for Governor in the Democratic Primary on May 29. He has been forced into an expensive run-off Primary by his opponent, Kerr Scott, which will cost himself and the taxpayers of North Carolina thousands of dollars. Go to the polls on Saturday, June 26, and vote for Johnson, the man most qualified to give this Great State the leadership it deserves.

Johnson has clearly stated his views on many of the State's problems regarding schools, school teachers, health, roads, labor, etc. We quote again what he had to say about State School Aid: "Some of the surplus now on hand in the State treasury should be used in aiding less fortunate communities, particularly rural areas, to provide adequate school BUILDINGS.

School buildings are one of Jackson County's greatest needs. Vote for the man who will help us get them.

> Sponsored by Jackson County Supporters of CHARLES M. JOHNSON FOR GOVERNOR
