Tabernacle To Give Bibles Sunday Night

A free Bible? That's right! On Sunday night, July 25, Evangelist L. P. Knecht gave away several beautiful white Bibles at the new Community Bible Tabernacle located at the junction of Rts. 23 and 107 in Sylva. These Bibles were awarded to 175 individuals by the tabernacle services to the largest number of new individuals during the previous week. And several white Bibles will be presented this coming Sunday night to the person or persons bringing the largest number of new people to the meetings this week.

The Bibles, containing both Testaments, are bound in white with gold letters on the front. Self-promoting and illustrated with beautiful pictures, they also contain a place for the family record including births, marriages and deaths.

"Our purpose in giving away these Bibles, as well as our purpose in holding these meetings is to stimulate a greater trust in God in these times," stated the Evangelist. Services held at eight o'clock every evening except Monday evening are open to everyone, and all are invited to attend.

Rev. Kincaid Conducting Revival At East LaPorte

Rev. John Kincaid, pastor of the East LaPorte and Webster Methodist churches, is now engaged in a series of revival services at the East LaPorte church. Mr. Kincaid announced that services will be held each evening at 8:00 o'clock all this week and through Sunday night.

The public is extended a cordial invitation to attend these services.

STATE COLLEGE HINTS V. R. Riley Has Annual Picnic

By RUTH CURRENT

STARCH ON THE IRON. State Home Demonstration Agent V. R. Riley has a tip for you. It is to starch the iron. If the iron is hot, do it this way: Shake salt on a piece of paper and rub the iron back and forth over the salt until the starch rubs off. From a cool iron starch may be removed by scouring with very fine steel wool or with a moist cloth dipped in fine scouring powder. Sometimes just rubbing with a moist cloth will do the job.

As a prevention against sticking starch, rub a little bees wax or paraffin frequently over the hot surface of the iron. Well-cooked starch is less likely to stick than smooth, and stays clean longer.

Saturday, July 18, exactly 100 years ago, V. R. Riley at Millersburg, Va., was the first to starch the iron. Riley was a member of the State Home Demonstration Agent. Riley was a member of the State Home Demonstration Agent. Riley was a member of the State Home Demonstration Agent.
