Oldsmobiles :: International Farm Equipment :: Hardware

## DEPENDABLE USED CARS

The new Oldsmobile is the finest General Motors has ever produced. Fine inside and out. In styling, in performance, in endurance; this new automobile is even longer lived than the Oldsmobiles which served so faithfully in the past. And this fine car offers the New General Motors Hydra-Matic Drive, the modern "drive" that is fully automatic. In the new Oldsmobile with Hydra-Matic Drive, the gears shift automatically through all three forward speeds. There isn't even a clutch pedal in the car! All that the driver has to do is to step on the brake to stop. All forward-speed gear-shifting is automatic.

\*Hydra-Matic Drive, white sidewall tires, optional at extra cost.

**FUTURAMIC OLDSMOBILE**

## DEPENDABLE USED CARS

In our Service Department we are equipped to give "the very best" in automobile and truck repairing and rebuilding. Each department is manned by experienced mechanics to do your job in the shortest possible time.

The difficult mechanism in your car motor must be "weath-erized" for winter driving. Our "complete "cleaning" service includes lubrication, motor tune-up, brake adjustment and a thorough over-all inspection. It's best to be sure. Let us check your car to make certain that you are getting the most mileage from your gas; that the wheels are properly aligned; that the lubrication is complete.
