BOATING ON GLENVILLE LAKE

This is a view of Glenville Lake about 15 miles from Sylva on Highway No. 107 to Cashiers. Glenville Lake was formed when Nantahala Power Company built a dam on Tuckasee River for power to operate the Glenville power plant. The water from the lake is piped through large pipes and tunnels through the mountains for several miles before it goes into the Turbine at the power house. The lake covers an area of 1,472 acres. It is 4,000 feet above sea level and is well stocked with game fish.

Numerous citizens of Sylva have cabins on the lake's shores where summer outings are enjoyed. Several motor boats can be seen on the lake during the summer months.

LOCAL DODGE DEALER URGES SAFE DRIVING PRACTICES TO HELP REDUCE ACCIDENTS

All motorists are urged to observe safe driving practices by Ray Cogdill, of Cogdill Motor Co., Dodge dealership of Sylva. Mr. Cogdill is co-operating with Dodge dealers nationally to help reduce the tremendous toll of highway fatalities and prevent a recurrence of the alarming number of deaths and accidents such as occurred during the Fourth of July weekend.

"A recent survey conducted by the International Association of Police Chiefs in the United States and Canada revealed that one car in every three that were examined had one or more mechanical defects that were hazardous to safety", Mr. Cogdill said. "A large percentage of our highway accidents are caused by mechanical defects and by lack of observance of traffic regulations and safe driving habits."

Mr. Cogdill points out that, according to the Police Chiefs' survey, the mechanical defects in order of their frequency were as follows: rear and stop lights; front lights; brakes; windshield wipers; horns; and tires. These defects accounted for eighty percent of the total discovered in the cars checked. The survey also re-

vealed that the reasons for police contact with motorists in order of frequency were speed, stop sign violations, signal light violations, right-of-way violations, improper driver signals, and reckless driving.

"It costs comparatively little to have your car checked for a mechanical defect that might be the cause of an accident or a death", Mr. Cogdill said. "A week-end trip will be more enjoyable if your car is in good working con-

N. C. MOTORIST WARNED THAT DEADLINE IS NEAR

Raleigh—The Motor Vehicle Department today warned North Carolina motorists that the first deadline for having vehicles inspected is fast drawing near.

The inspection regulations state that all motor vehicles of the year models up to and including 1936 and models 1947 and 1948 must be inspected on or before August 31.

The Department reported that most lanes have been doing a "rushing business" during the past few weeks taking care of vehicles in this group.

Beginning with September 1, the lanes will start checking vehicles of year models 1937 and 1946. Models of these years must bear their approved stickers by September 30.

The Department has announced that the operation of any motor vehicle after its specified date of inspection will be a violation of the Motor Vehicle Laws, and state highway patrolmen have been instructed to give citations to any vehicle owner whose car or truck does not bear the sticker of approval by its specified deadline.

The regulations state that any vehicle may be presented for inspection at any time prior to the expiration of the time limit for that vehicle.

Deadlines for other model vehicles follow:

All models of the year 1938, 1939, 1943, 1944, and 1945 shall be inspected by October 31.

All models 1940 and 1942 shall be inspected by November 30.

All models of the years 1941 and 1949 shall be inspected by December 31.

In addition, if you observe the rules of the road, and exercise courtesy and caution in your driving habits."

The Man With The Message

FRIDAY NIGHT—7:30

AND THIS IS . . . ?

You should hear this.

SATURDAY

WHO OWNS HELL?

Who made it, and who will run it?

Sunday, Sept. 12-7:30

THE U. S. A. IN BIBLE PROPHECY

Will she be dominated by Russia or some other world power? The Bible tells, it does not guess.

TUESDAY—7:30

The Short Bed and Narrow Covering

Read Isa. 28:20, then hear this.

WEDNESDAY—7:30

Things That Would Make Heaven A Living Hell

What are those things?

THURSDAY—7:30

The Bible Siamese Twins

NOTICE

Sunday Night, Sept. 19th—A closed door lecture will be given on the "Mark of the Beast". This must be done in order to give those that have been attending a seat and not overcrowd the Tabernacle. Pass tickets will be issued to all those that have attended two previous lectures until all available seats are taken.
