ADMINISTRATRIX NOTICE
Having qualified as administratrix of the estate of John H. Wilson, late of Jackson County, North Carolina, this is to notify all persons having claims against said estate to present them to the undersigned at Sylva, North Carolina, on or before the 25th day of Oct., 1949, or this notice will be pleaded in bar of recovery thereon. All persons indebted to said estate will please make immediate settlement.
This the 25th day of October, 1948.
Mrs. Madge B. Wilson, Administratrix of the Estate of John H. Wilson, deceased, of Jackson County, North Carolina. 10:28—12:2

NOTICE RE-SALE OF LAND UNDER DEED OF TRUST
North Carolina, Jackson County.
WHEREAS, the undersigned, acting as Trustee, in a certain deed of trust, executed by Lee Hooper and recorded in Jackson County, in Book 169, Page 133, in the Office of the Register of Deeds of Jackson County, foreclosed and offered for sale the lands hereinafter described; and whereas, within the time allowed by law an advanced bid was filed with the Clerk of the Superior Court and an order issued, directing the Trustee to resell said land, with an opening bid of \$141.25.

NOW, THEREFORE, under and by virtue of said order of the Clerk of the Superior Court of Jackson County and the power of sale contained in said deed of trust, the undersigned Trustee will offer for sale upon said opening bid, at public auction, to the highest bidder, for cash, at the Court House door in Sylva, North Carolina, at 12:00 o'clock, noon, Thursday, December 23, 1948, the following described property, located in Jackson County, North Carolina.
First Tract: BEING and comprehending the same lands and premises described in, and conveyed by, a deed dated 9 February, 1905, from Henry M. McAden et ux et al to Lee Hooper for 351.41 ac. s. more or less, recorded in Jackson County, in Book 38, page 175, to which said deed and record reference is had; and the description therein by metes and bounds is by this reference made the description in this deed of trust; also, being a part of the lands embraced in State of North Carolina Grant No. 391, issued to P. L. Davis 28 August, 1857, for 1000 acres, recorded in Jackson County, in Book No. 2, page 172, to which reference is had; this tract being known as a part of the Lee Hooper Cedar Cliff lands.
Second Tract: BEING and comprehending the same lands and premises described in, and con-

veyed by, a deed dated 9 February, 1905, from Henry M. McAden et ux et al to Lee Hooper for 41.5 acres, more or less, recorded in Jackson Co., in Book No. 38, page 181, to which said deed and record reference is had; and the description therein by metes and bounds is by this reference made the description in this deed of trust. BEING a part of State Grant No. 645 for 500 acres, issued on 11 June, 1860, to William H. Bryson, recorded in Jackson County, in Book No. 3, page 217, to which reference is had, and this grant lands are inside Grant No. 391. This tract is also a part of the Cedar Cliff lands.
Third Tract: BEING the same lands described in, and conveyed by, a deed dated 4 October, 1905, from William Shelton and wife, Lillie B. Shelton, and others to Lee Hooper for 230 acres, more or less, recorded in Jackson County, in Book No. 37, page 318, to which reference is had; and the description therein by metes and bounds is by this reference, made the description in this deed of trust. This 230 acres are within Grants Nos. 1172 and 1232, issued respectively on 11 July, 1879, and 5 April, 1882, recorded in Jackson County, in Books Nos. 7, page 574, and 8, page 258, to both of which reference is had. Also, this tract of 230 acres constitutes a part of the Lee Hooper Cedar Cliff lands.
EXCEPTING from the above lands, a tract containing 145 acres, more or less, heretofore conveyed by Lee Hooper to C. B. Webster, which tract is fully described in said deed recorded in Book 168, at Page 369, in the Office of the Register of Deeds for Jackson County, North Carolina, to which said deed and record reference is hereby had for a full and complete description of said exception.

This the 22nd day of November, 1948.
E. P. STILLWELL, Trustee.

MEN! EXCITING JOBS!

Draftsmen, photographers, carpenters, stenographers, radio technicians, medical technicians, radar mechanics, weather forecasters, mechanics, w. ather mechanics, some of the many jobs for which qualified men can be trained in the biggest business in the world—the business of Uncle Sam. Plus steady employment, security for your future. Good pay is only the beginning. Food, clothing, shoes, shelter are furnished free. And one of the most desirable benefits is a retirement plan that costs you nothing. Yes, you can retire at half pay in 20 years, regardless of age. You will receive a generous monthly income that means real security after that length of service! Get full facts and figures today at postoffice, Sylva, N. C. Talk to qualified representatives of the new U. S. Army and U. S. Air Force today. Get the whole story in person. It means much to you personally!

NOTICE OF FORECLOSURE
North Carolina, Jackson County.

Under and by virtue of the power of sale contained in a certain Deed in Trust duly executed by Robert Ball and wife, Thelma Ball, to C. C. Buchanan, trustee, in favor of George Wilkes and wife, Dolly Wilkes, dated July 29th, 1948, and duly recorded in Book 174 at page 158 et seq. in the Register's Office for the County and State aforesaid, and default having made in the payment of the notes thereby secured, and the holders of said notes having requested that said Deed in Trust be foreclosed;

Now, therefore, the undersigned C. C. Buchanan, trustee, will offer for sale and sell at public auction to the highest bidder for cash at the Court House door in the Town of Sylva, Jackson County, North Carolina, at twelve o'clock (noon) on December 16th, 1948, a certain lot or tract of land, situate, lying and being in Rhodes Cove in Sylva Township, in the County and State aforesaid, adjoining the lands of Fred L. Cope and others, and more particularly bounded and described as follows:

BEGINNING at an iron stake, common corner of Ham Ashe and Fred Cope, and running thence North 58 West 121 feet to a stake on the Southeastly margin of a street; thence in a South rly direction with said street 158 feet to its intersection with another street; thence in an Easterly direction with the said street just named and referred to, 121 feet to Fred L. Cope's corner; thence in a Northerly direction with the line of the said Fred L. Cope, 159 feet to the BEGINNING, containing one-third acres, more or less, and the same being a part of the lands heretofore conveyed by Ellen E. Ashe et al to George Wilkes and wife, Dolly Wilkes as is shown by deed duly recorded in Book 165 at page 78 et seq. in the Register's Office for the County and State aforesaid; to which reference is hereby made for a more complete description of same.
This the 15th day of November, 1948.
C. C. BUCHANAN, Trustee.

NOTICE OF SALE
North Carolina, Jackson County.

Under and by virtue of the judgment which is duly recorded in Book 3 at page 288 of Tax Judgments in the Office of the Clerk of the Superior Court for Jackson County, North Carolina, in an action entitled "County of Jackson vs. T. H. Queen heirs";

I, C. C. Buchanan, Commissioner, will on the 23rd day of December, 1948, at 12:00 o'clock (noon) at the Court House door in the Town of Sylva, N. C. offer for sale and sell to the highest bidder for cash at public auction the following described tract or parcel of land:

Lying and being in Caney Fork Township, in the County and State aforesaid, and the same being fully described in a deed of trust from T. H. Queen to Joseph J. Hooker, trustee for the Tuckasee Bank, as is recorded in Book 81 at page 104 et seq (this deed in trust having heretofore been duly satisfied) in the Register of Deeds Office for the County and State aforesaid; also that land fully described in a deed from Martha C. Hammett to T. H. Queen, dated Sept. 21, 1893, and duly recorded in Book 19 at page 494 et seq. in the Office of the Register of Deeds for Jackson County, North Carolina, to which said Books and pages reference is hereby made for a more complete description of said lands.

This land is being sold to satisfy the unpaid taxes against same. This November 22, 1948.
C. C. BUCHANAN, Commissioner.

FOOD PATTERNS FOR THE FUTURE

—Continued from last week
Food Needs Can Be Met
There is the possibility that temporary food shortages may develop in the future because of droughts or lack of imports or because we are called upon to supply food for foreign populations. In such a situation, it would be possible to support more people with adequate diets by moderate changes in the national pattern of food production and consumption. This shift would be in the opposite direction from that just discussed. The production-consumption pattern would need to include more of the crop products that give relatively large output of food nutrients per unit of resources.

Could Support More People
The average required to produce the products consumed per person has declined in the last 30 years because of increases in crop and livestock-product yields. In recent years, about 2.7 acres of cropland have been used to produce the average diet. This includes 0.8 of an acre as an allowance for the feed obtained from pasture. On this basis, about 430 million acres of cropland-equivalent have been used for food production in recent years.

With 1941-45 average yields, this acreage would supply about 160 million people with a diet such as we had during the war. Of course, we imported some products during the war but exports were much larger and our population was only 140 million.
About 40 percent of the food energy in our wartime diets was from livestock products. However, over 200 million people could have been supported from the same land resources, if we had consumed a diet similar to that described as adequate low-cost in the recent food plans of the Bureau of Human Nutrition and Home Economics. In this diet, only 30 percent of the energy is from livestock products. On the other hand, only 135 million could have been supplied with a diet plan described as liberal in which 44 percent of the energy is from livestock products.

Of course, very marked shifts in consumption to crop foods in place of livestock would involve changes in food habits that most people would not like to make. They would not be necessary so long as productivity of land resources continue to increase as rapidly as population.
Food producers have a very large stake in what happens to demand for food products. A decline in foreign demand for food products to prewar levels would mean some reduction in total demand. But if industrial employment and incomes remain at about 1947 levels, the larger food supply probably can be marketed at prices not much lower than they were in that year. On the other hand, if employment and incomes generally decline and demand returns to the levels of just before the war, a food supply per person at current rates could not be sold except at much lower

prices.
Technological advance has raised output per acre and per worker and will help food producers maintain good incomes even if the prices they receive are lower. Continued improvement in farming methods make possible lower costs per unit especially if costs of items in production also decline. In this connection, the gradual reduction in number of workers employed in agriculture which was speeded up during the war is significant. It means that net farm income must be divided among fewer people.
More Efficiency Needed
More efficient methods of producing and distributing food should be pushed forward as rapidly as possible. They will help make profitable a larger volume of production and will offset the effects of lower prices. And they will make possible a larger volume of consumption even though expenditures for food by consumers should remain unchanged.

A shift to more livestock products could help solve the problem of maintaining the natural fertility of soils. If most of the expansion is in roughage-consuming livestock, it would be possible to increase the acreage in grass and legume crops. The acreage of intertilled crops which cause more erosion could be reduced. Adjustments in land use to conserve land resources would help to make possible a high level

CONFIRMING THE WESTERN POWERS' charge that large numbers of policemen are being given "military drilling" in the Red zone of Berlin is this photo taken by a hidden American cameraman. The police are shown ending their drill with a march to the auditorium (background) where they were lectured on the "blessings of the Russian occupation." Soviet authorities have continuously denied there was any drilling. (International)

Odd Fact
While engineers of a New York state power and light corporation were pondering the feasibility of constructing a dam at a certain point on a river near Glens Falls, beavers completed a 250-foot dam six feet high across the river, flooding about 15 acres and convincing the engineers that the project was practical.

Approximately 385 persons attended an Achievement Day program held recently by Negro 4-H Club members and home demonstration women in Franklin County.

of production on a sustained basis. Farmers as well as others would benefit.
