Mrs. Dewey Passmore, postmaster of the Grimshaw Postoffice attended the Sylva Drive-in theater that evening as special guest of Mr. Elmer Neil, owner of the theatre. The main cause for her seeing her first movie, was the fact that Southland News Service had recently filmed Mrs. Passmore and her tiny postoffice. Friday night, the film was shown at the Drive-in, and so Mrs. Passmore was there to witness it.

The unique little postoffice, which measures only four and one-half feet by five feet is constructed of logs and boards. Operating the year around, it offers full facilities to about ten families in Grimshaw, parcel post, registered mail and money orders included.

## Parents Lax In Having Children Vaccinated, Says Health Office

The Health Department has announced that for the quarter just ended only ten infants under one year of age were vaccinated against diphtheria; while in the one to five year group there have been 64; and five years or over, 133.

This indicates, according to the Department, that there is a general lack of cooperation with the State Law, which requires that diphtheria vaccinations be given before a child is one year of age. It also indicates a failure on the part of parents, in a large number of cases, to realize and assume their responsibility to their infants and daughters to protect them against preventable disease while they are most dangerously susceptible and when their reaction to immunizing procedures is least marked.

## Explore Possibilities For T.B. Detection Clinic and Equipment For This Area

At a meeting of the T. B. Seal Sales Committee at Jarrett Springs Hotel on Monday night, it was decided to form a county-wide committee to handle the fight against Tuberculosis, immediately following the Seal drive, with representatives from the different townships throughout the county represented.

With Mrs. Dan K. Moore presiding, the committee heard C. S. Venable, District representative for the Red Cross discuss the problems and possibilities of a county-wide drive against the disease. It was pointed out that, with the different townships working together in common cause, the County funds could be concentrated wherever most needed.

Dr. Mary Michael told the group that the present system of detecting T.B. is far from adequate, since its coverage is not complete enough. She pointed out that there was a need in Jackson County for X-Raying large numbers of persons on small X-Ray film, then retaking the X-Ray on larger film in the case of suspicious signs. At the present time there are no such facilities in Jackson County.

A suggestion was offered that there was a possibility that facilities could be set up at the Community Hospital which could serve the entire County. Another suggestion was presented whereby several counties in this area might combine funds to purchase a T.B. X-Ray Mobile Truck which could divide its time among the participating counties, and under the direction of qualified technicians, do a complete job of T.B. detection in the area. The Committee plans to look into both possibilities.

Present at the meeting were: Mrs. Dan K. Moore, presiding; Mrs. Ralph Smith, Chairman of the T.B. Seal Sales drive; Mrs. Ruth Smith of the Welfare Department, Dr. Mary Michael, Miss Violet Mann, Mrs. David Hall, Jr., Rev. W. Q. Grigg, Dr. David Daniel, Mrs. Walter Jones and Bill Fisher.

## Sylva Band Plans Expansion, Young Musicians Sought

With an expansion of the Sylva High School Band planned for an early date, efforts are being made at the present time to enlist young musicians as members. Ben Cole, director of the organization has announced that a plan is in effect whereby students may purchase any instrument of their choice on a 10 month installment plan.

An agreement with the Brodt Music Company of Charlotte, allows interested beginners to make a small down payment on an instrument and then "rent" the instrument for 10 months, the "rent" going towards purchase of the instrument.

Instruments which may be chosen are Clarinets, Cornets, Trumpets, Trombones or Drums. The price of these instruments is \$93.50 complete with case. To purchase the instrument however, the

student can pay \$8.00 on delivery and \$4.00 per month. Instruments also can be obtained at prices ranging from \$125.00 to \$137.50. The "rent" on these is \$10.00 on delivery and \$5.00 per month thereafter.

Under the plan, the student has two options at the end of the 5 month rental period. The instrument may be returned. In this case, if the rent is all paid, and instruments and case are in normally good condition, wear and use considered, a refund of 1-2 the first payment will be made. Or if the student desires, the balance can be paid after 5 months and the instrument will be his. As 5 months is paid at rental rates, the last five months are allowed for payment of the balance.

Upon request, additional time, and lower payments will be arranged.
