NOTICE
State of North Carolina
County of Jackson.
DeWITT P. DOWDLE, Executor
of the Estate of THOMAS CLARKE RAVENEL, Deceased
Petitioner,
vs.
FRANCES RAVENEL GARWES
and VIRGINIA BAIRD RAVENEL,
Respondents.

PURSUANT to Orders of the Court heretofore entered in the above entitled action, I, DeWitt P. Dowdle, Executor of the Estate of Thomas Clarke Ravenel, Deceased, will, at the Court House door of the County Court House of Jackson County in Sylva, North Carolina, on the 15th day of May, 1950, at 12:00 Noon, sell to the highest bidder for cash the following described real estate, to-wit:
Approximately fifty (50) acres of land containing one house lying near Glenville Lake in Hamburg Township in Jackson County, North Carolina, and being more particularly described in a deed from Cedar Creek Realty Company to Thomas Clarke Ravenel dated April 17, 1926, and recorded in Deed Book 100, Page 74, in the Office of the Register of Deeds of Jackson County, North Carolina.
You will FURTHER TAKE NOTICE that a ten per cent deposit must be deposited with the Clerk of Superior Court of Jackson County with said bid.
This the . . . day of . . . A.D., 1950.
DeWITT P. DOWDLE, Executor
of the Estate of Thomas Clarke Ravenel, Deceased.

Forty-five head of registered Hereford cattle brought a total of \$28,970, or an average of \$643.78 each, in the 10th annual State sale of the North Carolina Hereford Breeders Association at Statesville recently.

Dr. Hardy, Chiropractor, over Slack's on main street in Waynesville. Nights by appointment. Call 1123, Waynesville. 46tf

NOTICE OF SUMMONS
North Carolina,
Jackson County.
MARY M. FRANKLIN,
By her next friend,
W. E. MESSER, Plaintiff
vs.
J. O. FRANKLIN, Defendant
The defendant, J. O. Franklin, will take notice that an action entitled as above has been commenced in the Superior Court of Jackson County, North Carolina, against said defendant for judgment in favor of the plaintiff for an absolute divorce on the grounds of two years' separation. That said defendant will further take notice that he is required to be and appear at the Office of the Clerk of the Superior Court of Jackson County, North Carolina in the courthouse in Sylva, on or before the 29th day of April, 1950, or within 20 days thereafter and answer or demur to the complaint of the plaintiff filed in this action, or the plaintiff will apply to the Court for the relief demanded in the complaint.
This the 1st day of April, 1950.
JOHN E. HENSON,
Clerk of Superior Court.

Notice
This is to notify all citizens of the South Ward that the registration books will open Saturday the 29th at Davis Furniture Store. Mrs. Glenn Davis, registrar.

Rev. Corsey Hooper filled his regular appointment at Zion Hill Baptist church Sunday.

Blind Prodigy.

BLIND since birth, three-year-old Rosalie Hoffman goes through a few finger exercises for her proud father. Sidney Hoffman. After she had astounded a Brookline, Mass., audience Her performance on the piano is considered particularly remarkable because unable to read music, Rosalie learned to play by listening to records (International)

SYLVA SENIORS SEE WASHINGTON, OTHER POINTS ON TRIP

A group of 35 happy and enthusiastic Sylva High School seniors, accompanied by Mrs. Irene Buchanan and Mr. Brank Profit, senior sponsors, left at 1:30 p.m. Friday on a chartered bus on an educational trip to Washington, D. C.

The route to Washington was by way of Greensboro, N. C., Danville and Charlottesville, Va.

The trip home called for stops at Annapolis, points in Maryland and Delaware; from Cape Charles by ferry to Norfolk, Va., and a number of other scheduled places of special interest. In a telephone conversation Sunday with Mr. R. L. Smith, the seniors said they spent part of the day at Mt. Vernon. They also chartered a DC 3 and had a wonderful view of Washington from the air.

Those going on the trip included: Naomi Beck, Audrey Bryson, Libby Dillard, Barbara Fisher, Bobbie Franklin, Hattalean Frizzell, Nell Greene, Jean Harris, Madge Henson, Loquetta Holden, Ruth Jacobs, Mary Lou Jones, Betty Livengood, Doris Middleton, Joanne Moody, Elizabeth McClure, Ruth Nations, Betty Revis, Etta Lou Terrell, Mildred Ward, Doris Whitaker, Mary Jo Bumgarner, Jack Alexander, Frank Crawford, Dennis Ensley, Zolzie Finannon, Jim Bob Hall, William Holdea, Ronald Howell, Tommy Norman, Derel Monteith, Jack Morris, Harold Parris, John Robinson, James Turpin, Tom Henry, and Wesley Warren.

PERSONALS

Visitors of Mr. and Mrs. Don Davis in Webster over the week-end were Mr. and Mrs. Joe Bryson of Greensboro, Mrs. Charles Galloway of Asheville, and Mrs. Elem Galloway and daughter, Jovanell, of Rosman.

Mrs. J. L. Clements and daughter, Mary Bob, attended the funeral of Mr. Al Dunn held in Robbinsville Tuesday.

Miss Edith Alley has recovered from a recent illness in C. J. Harris hospital and has now returned to Alexandria, Va. where she is a member of the school faculty.

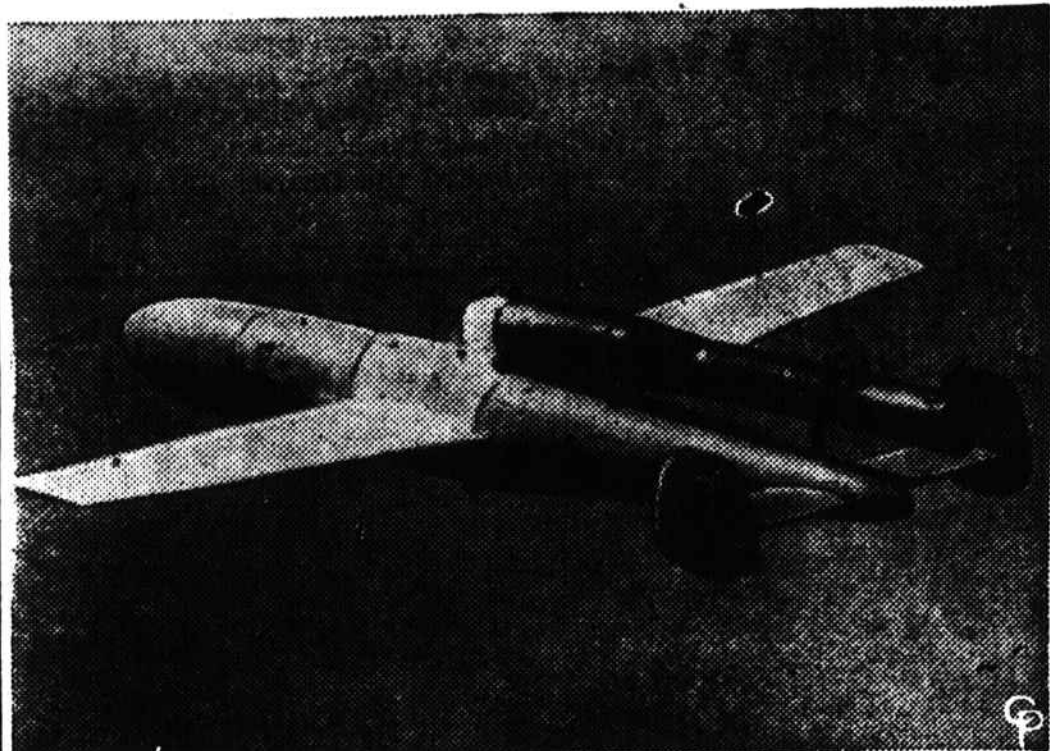

Luncheon guests Tuesday of Mrs. Dan Moore were Mrs. G. R. Easley of Greenville, S. C. and Mrs. R. N. Barber, Jr., Mrs. B. J. Sloan, and Mrs. Jonathan Wood, all of Waynesville.

Dr. and Mrs. R. P. Smith returned to their home in Cullowhee, Monday, after spending a few days with relatives in Richmond, Va. and Raleigh.

Mrs. Belle Buchanan returned home Monday after having spent since January 1st in Eustis, Fla., and the past two weeks visiting her son, Mr. and Mrs. Ralph Buchanan in Savannah, Ga. Mr. Carl Buchanan went down on Friday to accompany his mother home.

ROBOT TARGET PLANE IN FLIGHT

SHOWN IN FLIGHT over Washington, this pulse-jet powered pilotless aircraft target of the U. S. Navy is to be used for training naval gunners. In appearance it resembles the German "buzz bomb" of the late war. Known as the KD2G-2, it is remotely controlled from air or land and, with mission completed, it can float down by parachute (International)

Your Child And The School

By Miss Lucille Hunt

As we have seen, the purpose of Elementary Arithmetic is not to train mathematicians, but to train the child so that he can deal adequately with the many quantitative situations which he faces as a child and later will face as an adult. It is necessary to emphasize that arithmetic is to be learned for its practical importance and its social values. So a great variety of experiences in all types of problems must be used in the Elementary School Arithmetic course.

These problems of addition, subtraction, multiplication, and division are to be solved by all of us every day. All types of measurements are used by most of us in some form each day. For instance, mother measures the ingredients of her biscuits, pies, cakes, and other cookery every day. One of the children needs a new dress so mother decides how much material is needed. Then the next problem is the cost of each yard. Father has money enough to finance part of a project he needs. How much more does he need? What is the rate of interest? Will the returns be sufficient to finance the project? All of these are practical everyday problems. We must find the answers and there is no answer book. Common sense must help solve the problem.

Then the question of geometry faces a child in school, and he immediately wants to know what good that will do him. The house needs painting. How much paint

will it take? How do you figure the surface? Immediately you begin work with squares, rectangles, triangles, and other geometric figures. Mother has a given piece of cloth to cut a garment. She turns the pieces until the figures, stripes, or other materials are fitted for the press. She has used geometry in many forms before she finishes the garment.

Another necessity in arithmetic is the vocabulary. There are certain terms and words that must be mastered if we are to talk intelligently in the every day use of commonly accepted terms such as budget, note, long term loan, square, triangle, circle, and many others that we can name. Arithmetic is an exact science and requires exact knowledge of some facts. These must be mastered step by step from the first concepts of numbers. Two balls to the baby is the concept of one and one. From these tiny beginnings we build step by step until we can solve complicated problems.

The whole field of money from the first penny a child has and knows what it can buy until the adult realizes the dream of his own farm or business that he has successfully financed is also built step by step on previous understandings and concept.

Thus we see that arithmetic is not just another subject in school but a practical everyday tool that is necessary to modern living. The more we understand the fundamental principals of arithmetic the more successfully we can solve our own problems.
