ROBT. M. LEATHERWOOD, Manager

SAVE EVERY TONOFFODDER

IT WILL HELP TO DEFEAT GERMANY in the war as much as a shell fired at the enemy trenches.

Every farming community should have a McCORMICK HUSKER and SHREDDER to make the corn stalks into good feed, saving grain for human food.

 AGENTS, ASHEVILLE, N. C.

FOR SALE

500 Acre Farm--Good, Rich, Deep Soil in Fertile Belt.

An Ideal Cattle and Sheep Raising Farm.

Situated in Madison County, within 1 1-2 Miles of Schools, Churches and Homes of Walnut, N. C.

This tract of beautiful, rolling farm land lies just one and one half miles from Walnut, N. C., and seven miles from Marshall, N. C. Convenient to the good Schools and Churches of these thriving mountain towns. There is a large saw mill and town just one mile away, and the roads throughout this section are exceptionally fine.

There are 500 acres in the tract. Over two-thirds is cleared land and ready for immediate cultivation, and the timber is now being sawed from balance of land. 100 acres are now in excellent shape for corn or wheat.

This land is in the fertile belt. Deep, rich soil, with no stones. Suitable for any farming purposes but especially adapted to cattle and sheep raising. There are four railway stations, conveniently located. Fine, rich mountain grazing and four streams of crystal water.

If you are interested in buying a high-grade Western North Carolina farm or farms—as I will sell the 500 acres as a whole or in parts—here is a proposition which warrants your immediate investigation. I say immediate, for such land as I am offering is seldom to be had and someone is going to grasp it quickly. The price is interesting too, as I am not in the Real Estate business and this land must be sold. Interested parties write or call on,
