MURPHY FUNNYGRAPHS.

Scout. With our wife's garden growing and our chickens hatching, old man Hard Times might as well hunt another home.

A man with an ounce of brains will not be influenced by people whose chief occupation is to knock their fellowman.

It has been proven that Sherman did say "war is hell," which leads us to wonder what he would say about the present freight rates if he were in business now.

WILLIAM CREASMAN DIES.

William Creasman, aged about 57 years, died at his home on Killian street Tuesday evening after a long illness, leaving a widow and several children.

Don't Ever Hunt For Trouble

(By Jesse Daniel Boone.)

If you are hunting trouble, Bud, you'll find it any day;
For there are trouble makers who serve for little pay;
And they are glad to "mix it" without a good excuse,
So if you are determined, go to it and "cut loose."

But if I may advise you, just pass Old Trouble by,
For trouble likes the fellow who doesn't mind to die.
"Don't trouble Trouble till Trouble troubles you,"
Or you will have a lot of things to think of and to rue.

There are a thousand shoulders bedecked with little chips;
So watch your steps, in passing, and guard your tongue and lips.
Don't step on corns and bunions in passing through the throng,
But rather walk with caution and hum a merry song.

Keep smooth your face and wrinkles and never cease to smile,
Then you will help somebody on every traveled mile;
This world's a bunch of troubles which you may help dispel
If you are well disposed to it, and do your own part well.

Don't ruffle up your feelings and get your clothing torn
Because a rowdy is at large and he has cursed and sworn.
Some fellows who don't like you may cause a troubled mind,
But you can do more with them by simply being kind.

THE FARM WOMEN OF TODAY.

(Morganton News-Herald.)
The investigations and discoveries of the last hundred years have meant progress for the farm, but have they benefited the farm home in a proportionate degree? What is the status of the farm woman?

During 1920 the home demonstration agents made a survey in thirty-three states; about 10,000 women answered the inquiries. The following according to North Carolina Progress, are some of their findings:

Only ten per cent of the farm homes have indoor toilets or bath tubs; 68 per cent of the women have to carry their own water; 50 percent have to carry it from outside of the house; 80 per cent care for oil lamps, although on one-half of these farms electricity is used for farm purposes. The average working day is thirteen hours in summer and 10 in winter; 87 per cent have no vacation. Besides the daily drudgery of preparing food and doing the house work generally; 96 per cent do the heavy, dirty laundry for the farm workers, while only 43 per cent have washing machines, many of which are hard, and 2 per cent have electric irons to lighten the work. Ninety-two per cent do family sewing; 95 per cent having sewing machines.

Aside from all the above, 81 per cent care for the farm poultry, the flock averaging 90 chickens; 38 per cent do or assist in the milking; more than 50 per cent do gardening, and 25 per cent help with the farm work part of the year. Of the 81 per cent who care for poultry, only 22 per cent are allowed to keep the money, and only 16 per cent of the egg money; and though 60 per cent make the butter and 36 per cent assist with the milking, only 11 per cent have the butter money for their own.

If conditions in North Carolina were revealed, where would we stand on these and other questions? Would it be better or worse?

CHROME COMPANY RECOVERS FROM GOVERNMENT.

Washington, June 6.—Secretary Full of the interior department, has forwarded the Carolina Chrome company of Waynesville, \$17,788.76 on its claim for loss sustained in producing chrome at the request of the government during the war.

The Carolina Chrome company is composed of Hugh J. Sloan, of Waynesville, and H. Hamilton, of Philadelphia. The original award by the war mineral relief commission was \$5,976.40, but an appeal was made to the secretary, who increased the amount here stated. The claimants were represented by G. S. Ferguson, Jr.

THE MAID OF THE CENT.

The government of the United States in 1835, made an offer of \$1,000 for the most acceptable design to be placed upon the new cent coin soon to be issued.

Some Indian chiefs traveled from the Northeast to Washington to visit the Great Father, and then journeyed to Philadelphia to see the mint, whose chief engraver was James Barton Longacre, who invited them to his house.

The engraver's daughter, Sarah, aged 10, greatly enjoyed the visit of her father's guests, and during the evening, to please her, one of the chiefs took off his feathered helmet and war bonnet, and placed it on her head. In the company was an artist, who immediately sketched her and handed the picture to her father.

Mr. Longacre, knowing of the competition for a likeness to go upon the cent, projected, under the inspiration of the hour, resolved to contend for the prize offered by the government. To his delight the officials accepted it, and the face of his daughter appeared upon the coin, which was circulated about the nation for nearly a century. There were more than a hundred competitors. The cent bearing the face of Sarah Longacre has gone into more hands than any other American coin.

The above interesting historical item is a clipping from "Watson's Stationer & Printer" of more than a generation ago and was loaned the Mountaineer by Mr. Edward Barton who is a cousin of Sarah Longacre. Mr. Barton has in possession a deed for much of the land on which is now situate Chester, Pa., dated 1736 from Thos. Wade, who, the deed recites received it from Wm. Penn to Tomas Barton, the latter being the great, great, great grand father of Mr. Edward Barton of Waynesville.

The cost per prisoner per day was only 19 cents as against 13 and one-half cents during the month of April. Reports for the month of May were completed by Sheriff Lyster yesterday.

JUDGE SUSTAINS MALLONEE'S DECISION.

Sylva Journal.
The finding of Referee J. D. Mallonee, granting a non-suit in favor of the democratic officer holders in the Jackson county election contest case, was sustained by Judge B. F. Long in a decision handed down in Superior court at Sylva, Monday.

The case grew out of the action of the canvassing board of Jackson county, which threw out of the count certain alleged illegal votes, including the entire vote of the Cherokee Indians in the county, thereby changing an apparent republican victory in Jackson county to a victory for the democratic candidates.

The matter was heard before J. D. Mallonee for that purpose, in March, and after a two-day hearing in which the relators, the republican candidates, had rested their case and the defendants, without producing any evidence, made a motion for a non-suit which was granted by Referee Mallonee.

D. A. R. CHAPTER MEETING.

The Dorcas Bell Love Chapter D. A. R. held their regular monthly meeting with Mrs. R. N. Barber on Tuesday, May 31st.

Roll Call—International Statesmen. Mrs. Carraway read a most interesting paper on "America's Place in the World's Civilization."

Miss Rogers, the chapter regent, gave an interesting report of the National Congress held in Washington City, April 19-23, which Miss Rogers attended. An invitation from the Edward Buncombe Chapter D. A. R., Asheville, was read by the secretary, Mrs. Gwyn, inviting the chapter to the D. A. R. district meeting to be held in that city on Flag Day, June 14th. Quite a number of the Dorcas Bell Love Chapter signified their intention of attending the meeting, which will be held at Battery Park Hotel. The Asheville chapter hopes to have as special guests several prominent D. A. R. women present, among others the state regent, Mrs. W. O. Spencer and Mrs. W. N. Reynolds of Winston-Salem.

A gift of \$25.00 from Mrs. Walter Chancellor of San Francisco and also a gift of \$10.00 from Mrs. Charles Padgett of Dallas, Texas, a former member of the chapter was reported by the regent. Both gifts are for the Memorial Tablet to be erected to the Revolutionary soldiers buried in Haywood county, as both these women are descendants of Revolutionary patriots. At the close of the meeting Mrs. Barber served a delicious ice course. On each plate was a bunch of sweet peas as favors.

The guests for the afternoon were Mrs. Gerald West of Marietta, Ga. and Mrs. Wicker from the Federal school. The chapter adjourned to meet the last Tuesday in June.

BASEBALL TEAM TO DISBAND.

On account of being unable to secure a baseball ground the Waynesville team will have to quit playing. Mr. Harbeck has stopped play at his fair ground property and no other ground can be had at figures the team can afford to pay.

THE BOY WHO WORKS.

Mineola Monitor.
God bless the boy who works; he is true and noble and good. True courage is his only shield, eternal vigilance is his never failing support. He is not too proud to wear rough clothes. He is not too slothful to always be neat.

The light of energetic resolutions beams from his honest countenance as he trudges life's pathway day by day toiling with father to support the family, or as he performs some little house duty to lighten the cares of mother or sister.

Give him a chance. There is something in him if he will work. We can't always read a boy's aspirations, but we can call him to some useful station when there is great responsibility at stake.

Intensive farming, talented literary ingenuity, able and honest statesmanship, skill teachings, art and mechanics are making great demands on the present boy or future man for not only industry, but intellectual capacity for work. Encourage the boy who works.
