Minor Occurrences of the Week of Interest to Tar Heels Told in Paragraphs.

Peace Institute Kept Within the Presbyterian Church.

Goldsboro, Special.—The Presbytery of Albemarle, in session here, adopted the articles of agreement by a vote of nearly three to one. The Presbytery was addressed by Governor Glenn and Hon. J. R. Young, of Raleigh, on the matter of the Presbytery's endorsing the purchase of Peace Institute by a committee of the First Church, Raleigh. The enterprise was approved by the Presbytery and warmly commended to the ministers and churches within its bounds. The price paid was \$45,000. The institution is thus kept within the Presbyterian church.

Four Men Are Swept Over Cape Fear River Falls.

Raleigh, Special.—Swept over the falls, four men were drowned in Cape Fear River at Buckhorn Falls, Chatham county, thirty miles from Raleigh. The dead—Hans Thorson, of St. Paul, Minn., general foreman of a construction company erecting a power plant; E. B. Brady, of Monroeville, assistant foreman, and two negro laborers. The men were coming down the river in a baptha launch which was caught in the current and carried over the falls. The bodies have not yet been recovered. Thorson was to have been married here Sunday, and his fiancée Miss Thelma Lindgren, was to have left St. Paul to join him in Raleigh.

A Horrible Find.

Wilson, Special.—Between Wilson and Tarboro a porter on the Coast Line train observed a package behind a stove. Picking same up and noticing the bad order, the porter threw same out of the window without examination. A man on the country road picked up the package and on unwrapping it discovered a dead infant negro baby, presumably placed on the train at Wilmington.

NORTH CAROLINA CROPS

Condition of North Carolina Crops for the Past Week as Given Out by the Department—Conditions for Week Ending Monday, April 29th.

The weather has been much more favorable, the temperature for the State averaged about normal, and while there was considerable rain, the sunshine was about normal. The temperature rose from the beginning of the week to the 26th, which was the warmest day, and then fell somewhat. The highest temperature was 86 degrees on the 26th in Madison county, and the lowest was 32 degrees in Burke county. Light frost was reported in only two places on the 25th. The rainfall was considerably above normal and most of the rain fell on the 23rd and 27th. On the 23rd severe thunderstorms accompanied by high winds were general; hail occurred in some localities, but only slight damage was done. Southwest of Chalybeate Springs at 4 p. m. of the 23rd a destructive tornado occurred damaging considerable timber and some buildings. Pine trees 16 inches in diameter at the stump were broken off in great quantities. The precipitation on the 27th consisted of light showers.—A. H. Thiessen, Section Director.

Must Connect at Selma.

The Supreme Court of the United States has decided in effect that the railroad commissioners of North Carolina can compel a railroad company operating in that State to so adjust its schedule as to accommodate passengers on other lines from any particular part of the State. The opinion was delivered by Justice White in the case of the Atlantic Coast Line Railroad Company vs. the corporation commission of North Carolina. The case arose out of an order issued by the commissioners directing the railroad company to make connection at Selma at 2:25 p. m. with a train on another line running from the eastern part of the State, with the object of accommodating passengers whose destination was Raleigh. The railroad company resisted the order on the ground that it could not be complied with without putting on a special train which would involve extra expense. This, it was contended, amounted to taking property without due process of law. The commission justified its course on the ground that compliance with the order was necessary to accommodate a large part of the public. The Supreme Court of North Carolina held against the railroad company, and its decision was affirmed by the action of the Supreme Court of the United States on the ground that the order of the commission does not affect the rates but is a proper act of State regulation.

GREAT SHOW OPENS

Jamestown Exposition Now in Full Blast

PRESIDENT PRESSES BUTTON

The President introduced by President Tucker, of the Exposition Company, Who Declared That the Executive's Name Would go Down in History as the Greatest Advocate of the Great Event.

Norfolk, Va., Special.—President Roosevelt, the diplomatic, naval and military representative of 37 of the nations of the world and the Governors of a score of States participated in the opening exercises of the Jamestown Ter-centennial Exposition. While the exposition, which is to remain open until November 30th next, is still far from complete, the unfinished condition of buildings and grounds was not allowed to interfere in any way with the celebration of the three hundredth anniversary of the first English settlement in America. From the firing of a salute of 100 guns by the United States army, through the picturesque beauty of the review of the international fleet of war vessels anchored in Hampton Roads, through the ceremonies of dedication at which the President spoke and down to a late hour when the chief executive repaired aboard the naval yacht Sylph to spend the night in the lower bay, the day was crowded with notable incident.

Not the least impressive of the day's events was the quick action of the President in assuming command of the situation in front of the crowded grandstand from which he spoke when a panic seized the surging throng of spectators. Pressed against the guard ropes by thousands of eager persons in the rear of the gathering who were forcing their way forward, the safety of life and limb of those who had the more favored positions were endangered. President Roosevelt had just been introduced by Harry St. George Tucker, the head of the Jamestown Exposition Company, when the disorder and unrest in the crowd reached its height and the evil guards in front of the grandstand seemed about to be swept from their posts. With the agility of a school boy, the President jumped upon the table which had been placed in the speaker's balcony and waving his arms cried out to the men of Virginia to live up to their traditions of gallantry and cease the pushing and crowding which was threatening the lives of the women and children in the assemblage, a throng which all but blocked the big grass-covered plaza known as Lee's Parade.

The ceremonies of dedication were brief, the features being the addresses of President Tucker, of the Exposition, and President Roosevelt. The latter at the conclusion of his address, pressed the gold button which formally marked the opening of the commemorative enterprise. Then followed an informal luncheon to the President and 40 other guests in the auditorium of administration building. The repast ended the President repaired again to the grand stand from which he reviewed a parade of United States soldiers and sailors. Seamen from the visiting fleets were expected to take part in the parade, but the difficulties of landing on the uncompleted grounds prevented. The parade was quickly over and a reception by the President in the auditorium brought the day's events at the fair grounds to a close.

The addresses of President Roosevelt and President Tucker of the Jamestown Exposition Company were both of a high order and were attentively listened to by an immense crowd of people. The opening ceremonies were fully up to the highest expectations of those in attendance.

PRESIDENT'S ADDRESS.

President Roosevelt, being introduced, delivered a strong and patriotic address to the immense throng present. His speech was of too great length to be given here in full. The following, however, are some of his most striking thoughts.

"At the outset I wish to say a word of special greeting to the representatives of the foreign governments here present. They have come to assist us in celebrating what was in very truth the birthday of this nation, for it was here that the colonists first settled, whose incomes, whose growth from their own loins and by the addition of newcomers from abroad, was to make the people which 100 years later assumed the solemn responsibilities and weighty duties of complete independence.

"Again, let me bid you welcome, representatives of our sister republics of this continent. In the larger aspect, your interests and ours are identical. Your problems and ours are in large part the same; and as we strive to settle them, I pledge you herewith on the part of this nation the heart-

Best friendship and good will.

"Finally, let me say a special word of greeting to those representatives of the Asiatic nations who make up that newest East which is yet the most ancient East, the East of time immemorial. In particular, let me express a word of hearty welcome to the representatives of the mighty island empire of Japan; that empire, which, in learning from the West, has shown that it had so much, so very much, to teach the West in return.

"To all of you here gathered I express my thanks for your coming, and I extend to you my earnest wishes for the welfare of your several nations."

Kills Supposed Highwayman.

Birmingham, Ala., Special.—E. K. Body, a switchman for the St. Louis & San Francisco Railroad, shot and killed a well-dressed white man, about 29 years of age. Body is in jail. Recently two murders and several robberies have occurred in the railroad yards and Body said he was about to be held up when he fired. The body was identified later as that of W. A. Kennedy, a moulder. He was on his way to work when he was killed.

A Negro Shot to Death.

Columbus, Ga., Special.—D. B. Mitchell, a Columbus traveling man, was shot in the arm at Pittsview, Ala., Monday by a negro, named Ebb Calhoun. Calhoun later was shot to death by a number of white men, seven or eight participating. The sheriff and a posse have gone from Seale at the request of Pittsview citizens. The trouble was started by Calhoun's son running against a white woman at Pittsview.

Two-Cent Passenger Rate.

Richmond, Va., Special.—The State corporation commission has handed down a decision in the rate cases by which after July 1, passenger rates on trunk lines are reduced to two cents per mile, on their feeders to 2 1-2 cents, on certain minor roads they will be three and on one or two lines 3 1-2 cents. On freight a uniform schedule is established thereby making a slight reduction.

A Severe Snow Storm.

Pueblo, Col., Special.—The snow storm that began at noon Sunday continued throughout the night. With six inches of snow on the ground there was no immediate prospect of cessation. The storm extended east to Dodge City, Kan., and south into Texas. The snow drifted badly crippled railroad and street car traffic. The thermometer registered 2 degrees above zero. Fruit and vegetable are badly damaged.

SICK ROOM "DON'TS."

Don't appear anxious, however great your anxiety. Don't be unkindful of yourself if you are in the responsible position of nurse. To do faithful work you must have proper food and stated hours of rest.

Don't forget that kindness and tenderness are needful to successful nursing. Human nature longs to be soothed and comforted on all occasions when it is out of tune, says Woman's Life.

Don't permit currents of air to blow upon the patient. An open fireplace is an excellent means of ventilation. The current may be tested by burning a piece of paper in front.
