SUGGESTS TAXING OLD MAIDS. The editor of the North American Review, who recently declared the American girl to be a bore, has the following to say about old maids:

"There was never yet a woman who could not marry, as she should, if she would. It is only necessary to be a woman to win a man-some man.

"Spinsterhood is a purely voluntary condition, due to reprehensible contrariness, as is clearly proved by the non-existence of a single authentic claim to exemption because of lack of opportunity.

"The real point at issue is whether the old maid of the present day renders a fair equivalent, or even tries to do so, in one way or another, for what she receives, and to that our answer is decisively negative. It is a sad state of affairs, to which we have given much unavailing thought. As a last resort in search of a method of reformation, the ubiquitary remedy of taxation occurs to our mind as the only one holding forth hope of effectiveness."

SEN'R BRYAN Florida's Junior Sedator Dies After Short Illness

· 1' ......

# YOUNGEST MEMBER OF SENRTE

Elected Less Than Three Months Ago to Succeed the Late Senator Mallory as Florida's Representative in the Upper House of Congress.

Washington, Special. - United States Senator William James Bryan of Florida, died at Providence Hospital at 8:30 o'clock Sunday morning of typhoid fever. It was only 73 days since he took his seat as the successor of the late Senator Stephen R. Mallory, who died December 23d, and 3 days of that time was spent in his fight against disease. Several times during Mr. Brayn's illness his friends despaired of his recovery, but as late as Saturday night the report was given out that his condition had taken a turn for the better. His death, therefore, came as a surprise and a distinct shock.

In physique Mr. Bryan was unfitted to withstand a protracted fever. He was slight of build and of nervous temperament. He came to Washington early in January from the warm climate of Florida and from the day of his arrival was far from well. Finally he was compelled to give up and was taken to Providence Hospital. During the last few days of his illness he was attended by specialists from Johns Hopkins University Hospital, Baltimore.

In Mr. Bryan the Senate loses the seventh member by death since the adjournment of the Fifty-ninth Congress on March 4th, a year ago. They were the two late Senators from Alabama, Mr. Morgan and Mr. Pettus; Mr. Mallory, of Florida; Mr. Latimer of South Carolina; Mr. Proctor of Vermont; Mr. Whyte, of Maryland, and Mr. Bryan. Curiously enough the last two were the oldest and the youngest members of ... he body. Mr. Whyte was 84 years old and Mr. Bryn less than 32. hough Mr. Bryan was in the

Senate too short a time to impress his individuality on legislation, or to take a prominent part in the consideration of matters in committee, it is conceded that he would have become a forceful part of the minority. Mr. Bryan was born in Orange

county, Florida, October 10th, 1876. He attended the public schools of his State and Emory College, Georgia, graduating from the latter instituion in 1896. Three years Inter h

Senate he had served as solicitor of

MARSHALL, N. C., FRIDAY, MARCH 27, 1908.

A Good Showing.

Raleigh, Special.-Assistant Labor

Commissioner M. L. Shipman gave out some news regarding the miscellancous factories in North Carolina which will appear in the annual report later on. He says that 587 returus were made, 46 more than last year, and that the averages give a very accurate idea of the conditions prevailing throughout the State. It is gratifying to note the remakable progress North Carolina is making industrially. While the chief object ot these reports is to get the conditions of wage-earners, yet the department endeavors to obtain also information as will give the public a good idea of the number and class of factories now in operation. The returns show an aggregate capital of \$42,-085,790, by 523 of the 587 miscellaneous factories reported, 64 failing to report capital stock. The Old Fort Extract Work as usual merely as a branch of the United States Leather Company and represents only a part of the \$125,164,600 reported by that corporation. Last year the aggregate capital stock reported by 467 factories was \$31,239,-510, exclusive of the Old Fort plant, so that this year's increase is \$10,-846,280. Of the factories 422 report steam power, 84 electric, 25 water, 12 gasoline, 9 steam and water, 3 gas and they show a total employment of 119,836 horse-power. The number of persons dependent upon them for livelihood is 92,081, which is 16,838 more than reported last year. Six of them report eight hours as the day's work, seven report nine hours, 436 ten hours, 48 eleven hours, 69 twelve hours. There is a decided tendency toward shorter hours. Seventy-four per cent report increased wages, 69 per cent pay weekly, 11 per cent monthly, 17 per cent semi-monthly. They report 30,991 employes, against 22,438 last year, the increase being 8,553. The highest wages a day are \$2.47, increase 18 cents over list year. Lowest wages, 93 cents, increase 9 cents. Of the adult employes 84 per cent read and write and 87 per cent are children. Eighty-one per cent say that children under 14 should not work in factories; 7 per cent say they should and 12 per cent express no opinion; 82 per cent favor a compulsory school law; 9 per cent oppose it and 9 per cent fail to answer the question.

NO. 13.

Washington, Special .- The American battleship fleet is to visit Japan The desire of the Emperor of the island kingdom to play host to the "Big Sixteen" was laid before Secretary Root by Baron Takahira, the Japanese ambassador. The invitation which was couched in the most cordial terms, was made the subject of extended consideration by President Roosevelt and his entire Cabinet. Secretary Root was directed to accept the invitation, and the acceptance was laid before the Japanese ambassador. It is regarded in official circles here as more than likely that China will be next to bid for a look at the fleet, and that should this be the case the invitation would be accepted.

Secretary Metcalf and Admiral Fillsbury, chief of navigation, are arranging the details of the new With the exception of itinerary. China, it is believed to have been determined that all other invitations, should any be received, will be declined, for at best the fleet will now not be able to reach the Atlantic seaboard before the first of next March. The itinerary which seems to be the most direct includes stops at the Hawaiian Islands, Samoa, Melbourne, Sydney, Manila, Yokohamashould that port be selected as the stopping place in Japan-possibly a

Chinese port, back to the Philippines and then home by way of the Suez canal, with only such stops as are necessary for coaling.

The fall target practice has been planned to occupy a month at Manila either before or after the visit to Japan. The desire to have the fleet return to its home station may lead to a curtailment of the month planned for Manila.

Japan will have the ships a week, according to tenative plans.

The aceptance of the Japanese nvitation is regarded in official circles as of considerable importance in the way of administration of the cordiality existing between the American and Japanese governments. The added trip is nearly equal in distance to a voyage from
