Help Somebody Today.

The world needs help all the time. There are a great many things that we can do that will make the world better.

The temptation is to wait un til something great comes to us and in waiting all of us let slip opportunities that may become great by growth.

One of the easiest things to do is to help some one each day and there are many persons who need our help by comfort, by favors, done by aid in any way that comes to us.

It is a good motto to have and a good resolution to make each day, to do some one a benefit in feels no Turry although it is said order that they may be bettered and perhaps pass it along.

We sing the song with this refrain but do we act upon it and do we seek the opportunities and enjoy the priviliges that lie in our ways. Many a heart is helped along in its way by some little act of ours and the world made better and a life brightened. See if you cannot help some one today and helping, make the world better.

Mr. George Wild of Big Pine spoke much to the point and suggested that the outsiders give money for the bell. After the contributions had been counted it was found that the audience had given \$24.75 for this perpose.

The people of Little Pine and some friends from outside gave the lumber and the County School Board promised to have them made. About \$50.00 was given for this.

After all this the crowd began to leave feeling that the day had been well spent and that Little Pine had done itself proud in entertaining and giving such a proof of patriotism and liberality.

French Broad Association at Waynesville

On June 26th and 27th a conference of the Western Division of the W. M. U. of North, Carohas been prayerfully and conssientiously at her post of duty writing letters, making personal operation of all of her vice presidents. The good to be obtained from attending these Institutes cannot be estimated.

Let us as an Association rally around our vice president, Mrs. R. L. Moore, so that next year will find all our churches repre sented instead of one.

The Standard of excellence is worth our time and thought. If we cannot keep the nine points we can keep some of them, so for this year, suppose we select, at least, four points and earnestly endeavor to carry them out. If you haven't this standard write to your vice president for it and ask any questions that puzzle you-that is her duty and privilige, to help you.

We must not forget our watchword for the year, Prayer and. the responsibility resting on us for organizing and keeping alive the Junior Societies, Our girls and boys need our help, shall we go to their rescue or leave them to struggle alone or perhaps to die from want of support and encouragement? Let us look to the hope of Christian Ameri-
