THE KANSAS COURT RULES NAME "REPUBLICAN PARTY" MAY BE ON T. R. TICKET.

### IS TO BE A LEGAL BATTLE

There is Interest Over the Report That Taft's Friends Will Carry Case Before the Supreme Court Justice For a Sattlement

Washington.—Reports from Topeka that supporters of Mr. Taft in Kansas, among them David W. Mulvane, plan to have the Supreme Court of the United States review the decision of the Supreme Court of Kansas in the presidential primary case, have aroused interest of Republican political leaders here of all factions.

Friends of Colonel Roosevelt, particularly Senator Bristow of Kansas, are watching for developments in the case and keeping a keen lookout for the arrival of legal representatives of the Taft champions in Kansas, who may be coming to seek an order

directing that the case be reviewed. The Supreme Court of Kansas decided that it would not enjoin county clerks from printing on the primary ballots of August 6 under the name of "Republican party" the names of men who had declared they would vote for Roosevelt.

Any member of the court has the power to issue an order requiring the Kansas Supreme Court to send the case up for review. Logically application would be made the cally the application would be made to Justice Van Devanter, but he is spending his vacation in the mountains of New Hampshire. Application might also be made to Justice Day, now at Mackinaw.

While a justice might feel himself empowered to issue an order for the review, members of the court lately have hesitated to take that responsibility, where momentous questions delicately balanced were involved. Chief. Justice White referred the application to the entire court when an application for similar relief was made in the "beef trust" case last winter. Such action would be equivalent to a denial of the application in this case, be a welcome relief. I intend to prac- be over before the court could act in October, its next date of meeting.
