MARS HILL COLLEGE

The Leading Co-Educational Institution in Western North Carolina.

A school that draws 379 students from 58 North Carolina Counties, and from six other States and two Foreign Countries, some coming half around the world to reach it must have merit worth considering by Madison county people.

It drew 132 students from Madison county, and 245 students from the rest of the world. Is this a fair proportion? Its students succeed at higher institutions and in life, out of all proportion to our number.

North Carolina Education says: "There are few schools in the world that do better work than Mars Hill, and make so little noise about it."

The Fall Term opens August 15, 1912.
