BONDS

The clipping from the Ashe ville Citizen in this weeks issue blows what the outside world thinks of Madison Counties issping bonds for the improvement of public roads. All most all of the progressive Counties in the State are building good roads and we are glad to see that our county is joining in the March of progress. The Counties like Buncombe, Mecklenburg and Guilford that have issued bonds and built good roads are now reaping the reward for their foresight in this matter. The present tax rate in Madison County is almost as high as any other County in the State, and yet we have the worst roads. The Counties that have good roads and have bonded have a much lower tax rate. The good roads will enable people to come in our county and find out something about our great natural resources, and in this way wealth will flow to us and taxes decrease. No one can dispute the advantages of good roads.

The Highway Commission of Madison under the law must give to each township in the County its proportional part of the money coming from the bond issue. roads can be built up that will to State Geologist Joseph Hyde connect the different parts of the County. This will not only build up and develope the whole will enable the citizens of the passed at the recent session of county in a material way, but it different sections to enjoy greater social priviliges and make life more enjoyable.

room in Marshall, and these county during the early part of church down town. meetings will be wide open to the May. That portion of the cenheard who has anything to say for the betterment of the County.

We feel that there is better things for our county in the ty. future, and we hope that every loyal citizen will aid the Highway commissioners in every way possible.
