ALIEN LAND BILL

PRACTICALLY ENTIRE MEMBER-SHIP VOTES FAVORING THE

MEASURE.

THE BILL GOES TO JOHNSON

Act Antagonistic to Japan Will Be Telegraphed To President Wilson For His Opinion. - Governor Will Not Sign It At Present.

Sacramento, Cal.—The alien land ownership bill previously passed by the senate, was passed by the assembly and awaits only the signature of the governor to become a law.

Only three votes were cast against the measure in the lower house, one Democrat and two Republicans opposing the bill on the final passage. Acting under suspended rules the assembly took up the land bill early in the afternoon and sent it through first and second readings in rapid order. Then followed the debate which continued until the roll call was demanded. The assembly refused to strike out

the clause permitting leases, to which the Democrats objected. Several other amendments were voted down by the heavy administration majority and in the end the bill carried with 72 affirmative votes out of 75. Five members were absent.

At no time during the course of the arguments was the result in doubt. The Democrats following the lead of their colleagues in the senate made desultory attempts, to amend the measure or delay its passage.

When the body came, to consideration of the main question of barring the Japanese, the debate was more virulently anti-Asiatic than in the sen-

There were many demands for s stronger bill both from Democrats and Progressives but in the end it was agreed that the act as drawn by Attorney General Webb would serve the needs of the state for the present.

A verified copy of the measure will be telegraphed at once to President Wilson who has asked for it that he may lay it before the Japanese gov-

OBJECTIONAL PART CUT OUT

Amendment Adopted Permitting Incligible Aliens to Lease Lands for Not Exceeding Three Years

**** Measure Passed by 36 Votes to 2

The administration anti-alien holding bill, drawn by Attorgeneral Webb passed the senate by a vote of 30 to 2, after nearly ten hours of debate The only negative votes were cast by Senator Cartwright,

Democrat, and Senator Wright, Republican. Governor Johnson will sign the alien bill as soon as it comes to him, reserving a "reasonable time" in which to lis-

ten to protests. "I have assured Mr. Bryan," he said, "that when the bill comes to me from the legisla-A ture I will wait a reasonable A time for his protests. I can-A not say how long."

Sacramento, Cal.-The California senate showed a resolute determina tion to put aside the recommendation of President Wilson and his envoy, Secretary Bryan, and pass an act pro hibiting Japanese and other aliens ineligible to citizenship from holding land by purchase or by lease for more than three years.

In phraseology, the bill as redraft ed by Attorney General Webb after many conferences with Governor John son and the administration floor lead ers, omitted the words "ineligible to citizenship" which are offensive to Japan, but those in charge of the bill repeatedly admitted in debate that the end sought was the same,

Democratic opposition was purely tactical. The minority confessed its sympathy with the ends sought and freely criticised the bill, not as too drastic, but as too weak. Where the minority differed was in its judgment of the means wisest to employ. This attitude found its expression in a resolution offered by Senator Curtin and defeated by a vote of 10 ayes to 26 noes. The administration majority for the bill was solid with a single exception. In opposition were eight out of Senator Wright, of San Diego, the lone Taft Republican in the chamber.

NATIONAL BANKS TO PAY INTEREST

ALL DEPOSITARIES, BEGINNING JUNE 1, MUST PAY 2 PER CENT PER ANNUM.

WILL INCREASE CIRCULATION

McAdoo Says With Banks Paying Interest Government Deposits Will Be Increased

Washington.-The fiscal system of the United States governing deposits of federal funds in national banks was revolutionized by Secretary Mc-Adoo, of the treasury department, with an announcement that all government depositaries, whether active or inactive, would be required to pay interest at the rate of 2 per cent per annum beginning June 1 upon deposits of the government.

Simultaneously with this action the secretary authorized an immediate increase of \$10,000,000 in government deposits in the national banks, making the totad \$52,649,964, from which the federal treasuhy will earn, under the new interest order, \$1,053,000 annually. There are indications that Secretary McAdoo intends to release still more surplus money from the treasury vaults and place it in general circulation through increased deposits with the national banks.

In a statement Secretary McAdoc

"With the banks paying interest on government deposits the secretary may be justified in keeping larger balances in the national banks, thereby increasing the volume of money in circulation and to that extent reducing the amount locked up in the treasury."

Mr. McAdoo also announced radical change in the character of securities which the treasury department would accept for government deposits. Instead of requiring that the national banks secure treasury deposits exclusively with the United States or provincial government bonds, they will be allowed in future to secure 70 per cent with government bonds and the remaining 30 per cent with high-class state, city and county bonds, acceptable to the secretary of the treasury, to be taken as security at 75 per cent of their market value, but not to exceed par.
