"Hello, Central." "Give me the Depot." "They haven't a phone." Then they turn around and good naturedly walk all the way up to the depot to find out how the "Special" is. The walking is good exercise but it sometimes interferes with business.

There are three very strong points about the Crown Special Overalls. Firstly, they are big and roomy; Secondly, they are guaranteed not to rip; Thirdly, we give you another pair if they do rip. Now don't you think these are strong points? The Crown Special is sold only by H. K. Ramsey, on Route No. 1.

Now that the Prisoners are assured us and we have some money to go to work on the highway right at once it becomes necessary to have a foreman or grader. We are aware of the fact that this man must be an experienced one and we believe that he can be found right here in the county, we do not believe in getting labor outside the county when as good can be had right at home. The men at home helps to pay the freight and they ought to have some of the benefits. We could name several good men that has had many years of experience and can deliver the goods, and we would suggest to the Highway Commission that they try our own county for a man before going into foreign territory.

**Clerk of The Court Gone Crazy.**

We have just had a talk with the Clerk of the Court, Hon. N. B. McDevitt, and he says that he has gone crazy on the subject of reducing the expense of the county incurred by the court. He says that the expenses of the past term of the Criminal Court will be little to the County, if any thing out side of the salaries paid to the officers.

Mack has refused to permit discharged witnesses to prove their attendance and charge it up to the county in cases where no true bills were found or in cases where a nolle prosequi was entered. The Clerk says he is "The Peoples Friend." Mack says that he does not want the office again but that while he is in the office he is going to keep a keen eye on the bills of cost.

**Pool Rooms.**

By W. E. Finley, D. D.

"I would rather send my boy to Hell for the same time as to send him to a pool room."

Strong words these, yet a Judge on the bench uttered them when he was sentencing a young man for a misdemeanor. The words of this able jurist voices the opinion of the better class of citizens.

We are going to quote some more of his charge to the father of the young man. "You are at fault in letting him do such things and such raising will make any boy a failure in life for it will make him a criminal. Pool rooms are the places where the young man learns to bet and when the money runs short, he is going to get it in some easy way to play pool and the result is that he steals or bootlegs, and so becomes liable before the law."

This able Judge is a man who weighs things and has a means of knowing the cause of crime that comes before him and instead of judging from the immediate cause, goes back beyond it to the primal cause and he lays the blame on a thing that we permit because it brings some revenue into the town. It is a specious argument that justifies a thing that is harmful because the young will need some place to enjoy themselves and because some others want this to play themselves. Men go into the business to make money and it is taken from those often times that cannot afford to spend the money.

It is no religious dogmatic that uttered the words that begin this article, but one who deals with the law and a man who has to do with the transgressions of the law. Had it come from a minister many would say that it was the idle vaporing of a religious fanatic whose profession required him to say such things. Instead of that it comes from a Judge on the bench and is the result of years of experience and thought and we court it as one of the truest utterances that we have heard in a long time.

Parents should take note of this and see that their children do not go to these places. We do think the associations are the best for young boys and we have seen those whom the Judge was lecturing as menaces to society hanging around these places. Such are the associations connected and we believe that the young boy is contaminated by such associations.

We talk of liberty that is limited, but the liberty should be limited until the habits are formed. If the liberty is given and the young form their habits in the pool room as it generally is carried on, we cannot expect any other kind of product than the one that the Judge was scoring. Gambling, betting, waste of time and little love for the better things of life. There is not a young man in Marshall or the surrounding country that would mention having spent his time in a pool room to the person he was asking for employment. He would hide it as much as possible and the reason is that the employer does not consider it a good place to have his clerk or bookkeeper to spend his time in because of the temptations that surround him.

It behooves us to look to this and if these rooms are doing any harm to stop them, and it is in our hands to say whether they shall stay or the license be denied them. Our city Fathers can do something and we call their attention to the words of the most worthy judge that presided at the last term of court.

"I WOULD RATHER SEND MY BOY TO HELL FOR THE SAME TIME AS TO SEND HIM TO A POOL ROOM."

Just to think of it. And we have two of them in our town.
