

STOMACH MISERY GAS, INDIGESTION

"Pape's Diapepsin" fixes sick, sour, gassy stomachs in five minutes.

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no distension, bloating, or foul breath.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please for your sake, get a large fifty-cent case of Pape's Diapepsin from any store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest relief known. Adv.

Mrs. Meekton's Position.

"Supposing," said Mr. Meekton, "that you were a voter."

"Well?" rejoined his wife.

"And suppose I were a candidate?"

"You want to know whether I would vote for you?"

"That was the question I had in mind."

"Yes, Leonidas; I should vote for you. But if I caught any other woman voting for you I should consider their action very forward and impudent!"—Washington Star.

"IT SEEMED I WOULD DIE"

Expression Used by Mrs. McGee in Describing the Terrible Agonies She Underwent.

Stephenville, Texas.—"For ten years," says Mrs. Jay McGee, of this place, "I suffered from womanly troubles. I had terrible headaches, pains in my back, etc."

My husband told me to try Cardui, the woman's tonic, but I did not think anything would do me any good.

It seemed as though I would die, I suffered so! At last, I consented to try Cardui, and it seemed to help me right away. I was interested, and continued to use it.

The full treatment not only helped me, but it cured me. It will do the same for all sick or suffering girls or women—both married and unmarried.

I will always praise Cardui, the woman's tonic, highly, for it has been the means of saving my life and giving me good health."

Other women, who suffer as Mrs. McGee did, should profit by her experience, and get relief, as she did, by taking Cardui, the woman's tonic.

For women's pains, for womanly troubles, for nervousness, weakness, etc., its 50 years of splendid success, has proven that Cardui is a good remedy, prompt, reliable and harmless.

Cardui is almost sure to help you and will leave no disagreeable after-effects. Try it.

N. R.—Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

Not Yet.

"Do you not propose to marry?" asked Miss Flitters of young Mr. Bainbridge.

"Well, I haven't proposed yet," replied he, in a tone which forbade a further prosecution of inquiries.—Puck.

SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Common Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—Adv.

Other Side of Shield.

Wife (complainingly)—The Williams' house is much larger than ours. Husband—Yes, my dear, and so is their mortgage.—Boston Transcript.

For sprained wrist rub on and rub in Blainford's Balsam thoroughly. Adv.

It's improper to eat pie with a knife—but an ax is permissible.

PROTEST AGAINST INTRASTATE RATES

NINE N. C. RAILROADS ALLEGE PROPOSED TARIFFS TO BE CONFISCATORY.

ASK FOR AN INVESTIGATION

Call on Governor to Appoint Special Rate Commission Provided For in the Act to Adjust Rates—Will Make Appointments Soon.

Raleigh.—Formal protests were filed with Governor, Craig recently by nine of the railroad companies doing interstate freight business in North Carolina against the application of the Justice intrastate rate act of the recent extra session of the Legislature. The protests ask that the special rate commission provided for in the act be appointed to investigate and adjust the rates on a basis fair to the carriers.

The Southern Railway, the Atlantic Coast Line and the Seaboard Air Line, more especially, file exhibits along with their protests that show differences between the rates in this state and a number of other states, and the effect that the application of the proposed rates will have on their earnings. All the railroads assert that the rates are low to a degree that they are confiscatory and disastrous to the railroads in North Carolina.

The Atlantic Coast Line submits an exhibit to show that the present rates in North Carolina are considerably lower than the rates in effect in a number of the other states in this section, and that the application of the Justice act rates would put them so far below rates in other states as to indicate on their face that they are confiscatory and disastrous to the railroads.

The Southern Railway gives a special exhibit that compares Minnesota rates with the North Carolina rates and asserts that Minnesota rates are 18 to 50 per cent higher on lumber, lathes and shingles than those proposed under the Justice act.

Another exhibit sets out a large variety of commodities with comparison of rates in North Carolina with those in Minnesota, and is designed to show that the application of the Justice act rates would give North Carolina cuts in large percentage under the Minnesota rates.

There are also comparisons of Virginia, South Carolina, Alabama and North Carolina rates.

The Seaboard Air Line protest also carries exhibits that compare the rates in North Carolina, Virginia, South Carolina, Georgia, Florida and Alabama, all being to the same end.

The roads that filed protests are the Southern, Atlantic Coast Line, Seaboard Air Line, Norfolk Southern, Rockingham, Norfolk & Western, Carolina & North-Western, Washington & Vandermore and the Winstan-Salem Southbound.

Until Successors Are Appointed.

The seven special employees and deputy collectors of the Republican faith who are employed in the Asheville division of the Internal Revenue Service and who were instructed recently to report at their home stations were instructed that the officers be kept in the service until their successors are appointed.

For Home For Wives and Widows.

The building commission of the North Carolina Home for Wives and Widows of Confederates and Governor Craig and Council of State held a conference recently relative to the possibility of raising the \$10,000 state appropriation for erecting the main building of the Home at Fayetteville.

Two Charters Issued.

The Williams Brothers Company of Yadkinville received a charter with \$10,000 capital authorized, and \$5,000 subscribed by S. C. Williams and others for real estate and mercantile business. There is also a charter for the Aurora Telephone Company of Aurora, Beaufort county, capital \$8,000.

Agricultural Employment Agency.

E. H. Anderson, agricultural agent for Guilford county, a position recently established by the county and Chamber of Commerce, has decided to conduct an employment bureau for the benefit of Guilford farmers. It will be the purpose of this bureau to keep in touch with farmers who want laborers and with men who want work and to bring the two classes together. It is believed that a vast deal of good work can be done in this way, and it will be mutually advantageous to employer and employe.

Contest For Collectorship.

Collector of Internal Revenue J. W. Bailey is inaugurating along with all other internal revenue collectors of the country just now, the work of collecting the Federal income tax that became operative November 1 and he says the closest attention will be given to the collection of this tax, which is expected to raise something like \$30,000,000 in the United States from something like five per cent of the citizenship. The tax applies to personal incomes of \$3,000, for unmarried, and \$4,000 for married persons.

CHANCE FOR FOUR FAR HEELS

Competition Strong For Position of Collector of Revenue at Panama.

North Carolina is in the fight for the position of Collector of Revenue at Panama. There are four candidates for the position: Charles N. Vance of Black Mountain, A. C. Avery of Morganton, William Wilson of Henderson and D. H. McCollough of Charlotte.

Colonel Goethals, who is chief of everything at Panama, wants a man who is familiar with the Canal Zone to have the place. He has indicated as much to the War Department.

Other states have candidates, who are at Panama, and if North Carolina expects to win, a united effort will have to be made for Mr. McCollough or some other Tar Heel familiar with the Isthmus.

Representative Webb, supported by a number of Charlotte citizens, has taken up the fight for McCollough, who is said to be satisfactory to Goethals.

Secretary Garrison of the Department of War makes the appointment. John W. Thompson of Raleigh has already been appointed a deputy collector for the Canal Zone.

President Wilson made an important statement concerning the Interstate Commerce Commission recently. When asked about a successor to Commissioner Charles A. Prouty, whose resignation has been tendered, the President said that he had not accepted Mr. Prouty's resignation and would not do so until he found a man for the place. He stated that he had not found the man.

Two weeks ago it seemed certain that ex-Gov. Robert B. Glenn of North Carolina would get a place on the commission. Since, a very determined fight has been made to put a New England man in Judge Prouty's place. At the same time, friends of Commissioner Clements, whose term expires next year, have urged the President to retain him. The matter is far from settled.

D. A. R. Unveil Sun-Dial.

The formal presentation by Liberty Hall Chapter, Daughters of the American Revolution, of the elegant sundial with granite slab beneath bearing the names of the first trustees of Liberty Hall College, the first institution of the kind in the colony, to the Board of Commissioners of Mecklenburg county was one of the interesting features of the State Conference in session in the city. The marker was erected on the site of the first college, on ground donated for the purpose, and is one of the handsomest monuments of the kind ever placed in this section of the state. Liberty Hall Chapter raised the necessary funds, procured the design and made all the necessary arrangements and the presentation marked the consummation of a longcherished dream. The sun-dial stands on the northwestern corner of court house square, at the entrance to the grounds and therefore in a most advantageous place.

Edgecombe Farm Land Increases.

As an index of the rapid increase in Edgecombe farm land two sales made here during the past week tell the story. Three years ago Mr. J. H. Evans purchased from Mrs. John Best 276 acres, four miles from Tarboro. He recently sold this land to W. W. Eagles for \$12,000, and the Atlantic Coast Realty Company, subdivided the tract and sold it at auction, bringing an aggregate amount of \$14,000. Another big sale was that of the Winfield Ruffian farm near Whitakers, which was purchased by L. E. Everett for \$16,500 and three days later sold to C. M. Landon for \$19,000. During the week real estate and farm lands to the amount of \$51,000 was transferred.

Charlotte May Get Parcel Post Depot.

Special from Washington says: Charlotte will have one of the parcel post terminals if proper quarters can be secured at a nominal price. Representative Webb saw the postoffice authorities, and got the promise of the terminal. This means that Charlotte will be in the class with New Orleans, Atlanta and other large Southern cities. The establishment of the headquarters will take to Charlotte 8 or 10 more mail experts.

Exterminating Mosquitoes.

As the result of a two-weeks' campaign to eliminate the mosquito from the town's back lots and streets. Morehead City school children have collected tin cans and bottles enough, if placed end-to-end, would reach a distance of five miles. Fifty thousand cans and bottles were piled up by the children to be counted. A girl, Miss Alice Willis, led the children in the number collected, with 4,327 to her credit. Harold Willis, second, turned in 2,736. Many others made good reports.

Persistence Secures Patent.

The announcement from Washington that the Southern Railway Company has decided to use the Wright Safety Air-Brake means that at last the patience, perseverance and persistence of Mr. John B. Wright of Greensboro, the inventor, will be rewarded. Mr. Wright invented the appliance nearly eight years ago, after working on it for several years. A number of tests have been given. A company was organized to take up the matter and push the patented appliance.

In the PUBLIC EYE

COLONEL GORGAS' WORK IN CANAL ZONE

The last, and one of the greatest of all the feats on the Isthmus, was not accomplished by the engineers. It is the marvelous work by which Colonel Gorgas of the medical corps cleaned up the canal zone and made it possible for men to work there. Before the Americans came the Isthmus of Panama was notorious as the most unhealthy place in the world. The French diggers of the canal were beaten by yellow fever. When the Panama railroad was built it was said, though the statement is probably an exaggeration, that every tie in the road represented a man's life. The cities of Panama and Colon were sinks of filth and corruption.

There is no yellow fever now in the canal zone and there has been none for several years. Malarial fever has almost disappeared. The death rate is lower than anywhere else in the United States or its possessions. The zone is being advertised as a health resort. Colonel Gorgas did it.

He cleaned and paved Panama and Colon, supplied them with pure water, gave them sewers and compelled the inhabitants to maintain their premises in a sanitary condition. He warred on the mosquito, exterminated the yellow fever kind, and has almost wiped out the malarial variety.

TOM HEFLIN TOLD THIS ONE

Conversation in the house lobby at Washington the other day wandered off to houn' dawgs, and the various members, mostly southerners, were telling their various experiences. Finally, Tom Heflin, the Adonis from Alabama, offered a contribution.

"Down in a mountain town in my state," said he, "a man from outside one day rode in and behind him came a lean and sad-eyed dog. It was the custom to put any newcomer in town through a hazing process, and this was accordingly done with the stranger.

"After he had his dinner and was smoking, a big mountaineer whom he knew slightly wandered out and kicked at a lean, sad-eyed dog lying almost at the stranger's feet.

"Don't kick that dawg," said the stranger, protestingly.

"Who says I mustn't kick that dawg?" demanded the mountaineer fiercely. "I reckon I'm about good enough aroun' here to kick anything I want to kick!"

"Then he kicked the dog again."

"I don't want to see you get into trouble," said the stranger, quietly, "so I wish you'd stop kicking that dawg."

"For the reply the mountaineer merely kicked the dog again."

"The stranger, instead of accepting the challenge, arose and walked toward the hotel entrance.

"Air you gine to stan' my kickin' this dawg o' yourn without stein'?" demanded the astounded mountaineer.

"That ain't my dawg you're kickin'," replied the stranger, with a yawn, "thet dawg belongs to you're brother Hez."

"The mountaineer looked uncomfortable.

"Whar 's your dawg?" he asked.

"The stranger yawned again.

"I don't rightly know now," he replied, "but half a' hour ago he was killin' that setter pup of yourn back of the pump!"

DR. GLADDEN WARNS THE CHURCH

Charges that the church is drifting away from the common people and catering to the rich and a warning that future success depends on a revival of interest in the workingman and his family gave interest to the meeting of the Home Missionary society held in connection with the National Council of Congregational churches at Kansas City.

"The church must get back to the needs of the plain people or quit," declared Dr. Washington Gladden of Columbus, Ohio, former moderator. Dr. Gladden some years ago came into prominence when he challenged the propriety of acceptance by the American Board of Foreign Missions of a gift of \$100,000 from John D. Rockefeller. The controversy which arose over this challenge brought into popularity the phrase "tainted money."

"It is imperative that the church awaken to a realization of its mission, and look to the Christianizing of every human Endeavorer.

OUTLINES POLICY OF OFFICE

Recognition of the rights of capital in its disputes with labor will be the policy of the new department of labor, according to the plans outlined by Secretary William B. Wilson the other night at a dinner of the men of Gunton-Temple Memorial Presbyterian church in Washington.

"Some extremists say capital performs no function in the world of production and therefore is entitled to no consideration," said Secretary Wilson. "Capital, being the unconsumed product of labor, is in a position to furnish the worker with the means of living until the product is ready for use. Without the use of capital in that way, labor could only be used as it is in savage countries. Capital is one of the elements by which productivity may be increased. Capital furnishes the machines and gives the worker ability to increase his product.

"Labor is the philosopher's stone, for it turns all its touches into wealth. It does the actual production. Capital and labor being thus related, it will become one of the purposes of the new department of labor to bring those two partners together when they disagree and settle their differences at the council table rather than by strikes."

Pain in Back and Rheumatism are the daily torment of thousands. To effectually cure these troubles you must remove the cause. Foley Kidney Pills begin to work for you from the first dose, and exert so direct and beneficial an action in the kidneys and bladder that the pain and torment of kidney trouble soon disappears.

HUMOR DISFIGURED BABY

Clarendon, N. C.—"My baby was broken out with a red, thick and rough-looking humor when about two months old. It would come in patches and went almost all over her in that way. The places were like ringworm and as they would spread they would turn red and make sores and itch. The trouble went to her face and disfigured her badly. Her clothes irritated it.

"I saw the advertisement of Cuticura Soap and Ointment and I got a sample and in one night's time I could see a change in the redness and in two days the place would be nearly gone. I sent and got one twenty-five cent cake of Cuticura Soap and two fifty-cent boxes of Cuticura Ointment, which cured my baby. She was well in three months." (Signed) Mrs. Bertha Sawyer, Oct. 11, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample each free, with 32-p. Skin Book. Address post card "Cuticura, Dept. L, Boston."—Adv.

Daylight at All Hours. Dr. Herbert E. Ives of London has invented daylight, he says. Scientific men have worked for years trying to accomplish this task. Doctor Ives has been at work for at least a dozen, and he asserts he has finally produced a light which is in every way equal to sunshine. The scientist has designed a powerful incandescent lamp with a special mantle, which is so placed in a cabinet he has designed that its rays are immediately beneath a reflector. This is made of metal, and the light is forced downward through a series of delicately colored screens, so arranged that the average rays which are not found in the north light are eliminated, and the effect, it is said, is that of a perfect harmony of light similar in every way to the rays of the sun.

She Scored. He was trying to make up their quarrel and came home with a package held behind him.

"Look here, dearest," he said, "I've got something here for some one I think more of than anyone else in the world."

"A box of cigars, I presume," she said sweetly.

During the Spat. "John, there's just one thing I want to say to you!"

"What's the matter, Maria? Aren't you feeling well?"—Puck.

Toasted to a Golden Brown!

Sounds "smacking good," doesn't it?

That's Post Toasties

Tender thin bits of the best parts of Indian Corn, perfectly cooked at the factory, and ready to eat direct from the package—fresh, crisp and clean.

There's a delicate sweetness about "Toasties" that make them the favorite flaked cereal at thousands of breakfast tables daily.

Post Toasties with cream and a sprinkling of sugar—
