### Unfair to The Druggist

The Old Joke about "something Just as Good," Doesn't Apply to This Drug Store

You have probably heard dozens of times the old story that a drug store was a place to "get something just as good." There is at least one druggist in the

world that you can't say this about.

It is certain that an inferior article will never be substituted for a guaranteed one by Marshall Pharmacy drug store. Take for instance a safe, reliable remedy for constipation and liver trouble like Dodson's Liver Tone. This harmless vegetable liquid has proved so satisfactory a liver stimulant and reliever of biliousness, and to entirely take the place of calomel without any danger or restriction of habits or diet, that there are dozens of preparations springing up with imitations of its claims.

But Dodson's Liver Tone is guaranteed to do all that is claimed for it, and if you are not satisfied with it, Marshall Pharmacy will hand your money back with a smile. Any person going to this store for a bottle of Dodson's Liver Tone will be sure of getting a large bottle of this genuine remedy in exchange for his half dollar.

### Backache-Rheumatism Vanishes Away

Men and women having backache, rheumatism, stiff and swollen joints are honestly glad to know that Foley Kidney Pills are successful everywhere in driving out these ills. That is because Foley Kidney Pills are a true medicine and quickly effective in all diseases that result from weak inactive kidneys and urinary irregularities. I. E. Burnett, Mars Hill, N. C.

### EDUCATIONAL

(Thomas Jefferson.)

If a nation expects to be ignorant and free in a state of civilization it expects what never was and never will be. The functions of every government have propensities to command that will the liberty and property of their constituents. There is no safe deposit for these but with the people themselves; nor can they be safe with them without information.

I have, indeed, two great measures at heart, without which no republic can maintain itself in strength: (1.) That of general education, to enable every man to judge for himself what will secure or endanger his freedom; (2.) to divide every county into hundreds of such size that all the children will of each will be within reach of a central school in it.

I do most anxiously wish to see the highest degree of education given to the higher degrees of genius, and to all degrees of it, so much as may enable them to read and understand what is going on in the world, and to keep their part of it going on right; for nothing can keep it right but their own vigilant and distrustful superintendence.

Above all things, I hope that the education of the common people will be attended to; convinced that on this good sense we may rely with the most security for the preservation of a due degree of liberty.

(John Jay.)

I consider knowledge to be the soul of a republic, and as the weak and wicked are generally in alliance, as much care should be taken to diminish the number of the former as of the later. Education is the way to do this, and nothing should be left undone to afford all ranks of the people the means of obtaining a proper degree of it at a cheap any easy rate.

### State vs. Jetton

In the case of State vs R. M. Jetton for the killing of Dr. Wooten at Davidson a few days ago the course of the law was probably the swiftest on record for a killing in North Carolina where the parties were of equal prominence with those directly connected with this affair. It is true that the defendant was acquitted but those who always want convictions and become skeptical when a defendant is acquitted should remember that twelve jurors sat on the case and that each was sworn, "a true deliverance to make, between the State and the defendant." We believe that the jury usually does the right thing. Any way, its for the jury to say "guilty" or "not guilty" and not for any one else. And, by the way, did ever occur to you that probably the jury is generally in a better position to judge of the guilt or innocence of one accused of crime than any one else?

Mr. N. B. Tweed left Tuesday for Baltimore and New York to buy his, Spring and summer goods.

### A Few Words About the Recorder's Court by W. R. Sams.

At the start I guess I was like a lot of other folks. I thought it was a Harvest for the Lawyers and officers. I have watched the disposition of it from the start to the present. I don't think there has been a better law past for the people of Madison County. For many reasons first they have court every Wednesday they dispose of the cases in a week after indictments and when they can pay a fine the fine goes into the school fund to help the school children. This is a great help to the schools.

I am glad to say I am well pleased with the Judge. He is discreet in all his judgment he fills his office with wisdom and dignity.

Also the Solicitor is a modle lawyer and is not an extremes. He wants everyone to have justice.

Also, the whole Bar is composed of gentlemen and all seem to be doing all they can for the betterment of the whole county. I think every good citizen in the County ought to do everything in their power to make the Recorder's Court a success.

To make it the best thing for the morals and peace and the suppression of crime that has ever been in the county.

This is called Mashburn's Law If he had never done anything more this long needed law is enough to add to him fame to his name.

Every County in the State will soon adopt the Recorder's Court. I was pleased with Mr. E. Zeph Ray the other day when he plead for a reasonable fine instead of a road sentence and with his good reasoning showed this to be the best course for the welfare of the County.

The Judge fined him \$250.00 and cost. All parties were well pleased and the county benefited. The fine was a reasonable in this case.

I am more than pleased with it and hope the good citizens of the county will support it by letting the Officials no of the crimes that are committed in the various parts of the County.

W. R. SAMS.
