For 1917-18, 1918-19, year the amount of \$19,127 to the toyear. For 1922-23 and thereafter \$166,846 wil be provided.

The act provides that each state above \$10,000 a year.

In explaining the appropriation the department of agricultures ays:

The act first appropriates \$480,000 gives each state \$10,000 for each fiscal year as a basic fund.

The act then appropriates additionthe proportion of rural population. To as its theme. share in these additional fnuds the state must dpulicate the additional money thus received. The additoinal appropriations are as follows: 1915-\$600.000; 1916-17, \$1,100,000; 16. 1917-18, \$1,600.000; 1918-19, \$2,100, 000; 1919-20, \$2,000,000; 1920-21-, \$3,-100,000; 1921-22, \$3,600,000; 1922-23, and thereafter, \$4,100,000.

It will be noticed that after 1915-16 each year by \$500,000. The fifth column in the table shows the amount of each additional \$500,000 that the state is entitled to receive. To get the amount that any state is entitled to receive for any fiscal year from 1917 to 1922 add the amount given in the table to the total for the immedithe maximum given under the column 1922-23 is reached.

The totals for each state contain the basic \$10,000 granted each year. To obtain the amount that the state would have to duplicate in any year to receive its entire Federal quota, st ract \$10,000 from the total. Example: The amount Alabama would have to duplicate in 1917-18 is \$67,-315 minus \$10,000, or \$57,315.

As there was no warning of such action, the inhabitants were forced to fiee to the sand dunes which surround the city, after the hail of solid shot had begun. Trails of blood led from the choked gates of the ill-starred town. In 1838 the French bombarded the place.

# **AN APPEAL** TO WOMEN

# By One Who, From Her Past Experience, is Capable of Giving Sound Advice.

Bud, Ky .- "I want to urge all weak women," says Mrs. Lizzie R. Barker, of this place, "to give Cardul, the woman's tonic, a fair trial, for I belleve it will do for them what it has done for me.

I was a sufferer for 13 years, with such pains I could scarcely walk or stand on my feet. I had headache, dizziness and fainting spells.

After many treatments failed to help me, my husband persuaded me to give Cardul, the woman's tonic, a trial, and I did so. Now I feel like a new woman. I am well of all these troubles, and can do all my housework, with pleasure.

When I commenced taking Cardul, I was not able to sit up. Now I am enjoying good health and do all of my work.

I shall keep Cardui in my home all the time. There is not any medicine that equals it for women."

We, also, urge you to try Cardui, the woman's tonic, for your 'roubles. It has helped so many thousands of women in the past half century that we feel sure it will help you, too.

Prepared from perfectly harmless, vegetable ingredients, Cardul is the remedy for you to use. It can do you nothing but good.

As the gateway through which all the commerce with Spain was conducted, there always were great stores of valuable property on hand. This was true particularly just before the sailing of the galleons, which usually traveled in fleets owing to the menace of pirates. By learning of the schedule of the galleons the buccaneers generally dropped in when the supply of treasure was great. Nicolas de Agriamonte, another highwayman of the deep, pillaged the town some years after the visit of Lorencillo. He enriched himself with \$7,000,000 in silver awaiting transportation to Spain. By way of appreciation he took prisoners 300 of the citizens of the town and marconed them on the Sacrifice islands, patches of sand not far from the coast, where they died of starvation. The anniversary of this calamity is observed by memorial services to this day.

Electric . Creatures Bealege Ship In Gulf Stream, Sailors Assert on Reaching Port.

Boston .- A remarkable story is told by the crew of the British freighter Rochelle. According to storles by several of the men, the delay was due principally to electric fishes, otherwise known as torpedo fishes, which were attracted by the steel plates of the vessel, and fastened themselves by hundreds against her bottom and sides.

The steamer was in the Gulf Stream north of Cuba, when she began to slow down. The officers were unable to erplain the change in the progress of the craft. Several sailors said they felt a tingling sensation about their feet and finger tips. The steamer was held back strangely. Members of the crew became alarmed. A sailor looked over the side and says it was plastered with atrange-looking fishes. They were two or three thick along the port side un-der water. The starboard side also

was covered. As the Rochelle moved north and got out of the warm waters of the tream the fishes dropped off and the vessel resumed her spe
