MISCHEIF.

The plan is being formed to have a tent meeting for the Marshall churches and all go in for a great revival that will stir the town. It would be a grand thing if we could get some thing built on the Island and all go in for the conversion of all the people and make all feel that we were working for a general uplift of the people. Let this thought simmer in your minds and then let us carry it out.

Community Tree.

Is it too long ahead of Christmas to get to thinking of something for that time? While the hot days are on us we are wishing for some cool weather and our thoughts naturally go to Christmas times. In the time past the different Sabbath Schools have each had their own trees and it means that at the time that all should be together we are all separated trying to out do the other. The rivalry is one that should not be and so last year some of the people, remembering that year before last we had a community entertainment and the enjoyableness of it all, suggested that we all go together and have a community Christmas Tree in the Court House Square. We hope this may take effect and in place of separate trees we may have one great tree like Asheville had last and which many of the cities have

had, and so get together and make Christmas a town affair and make the effort one worth while, and that will include every one in town. It is several months until the time, but if we speak of it in time we will do it.
