Down Pour of Rain

The hardest rain that has fallen in this section in a long time fell last Monday about six o'clock. The storm was from the North west and was accompanied by a strong wind. The Frisby Branch resembled a small river. Logs rocks and trash were piled up on the railroad and for a time it looked as though the trestle would go, but the force of the water was deflected by a number of logs, and after the rain the track was soon cleared; aside from blowing down late corn very little damage is reported.

Revival Services

The Methodist Church will have revival meetings beginning the first Sunday of October. Rev. J. J. Barker, of Biltmore the Conference Evangelist will conduct these meetings which we hope will be full of profit to all the churches in town. The Pastor is inviting all the churches to attend and help in these meetings for we need to help and be helped in the meetings. Mr. Barker is a fine preacher and it will pay all the people in town to go to hear him. Rev. Mr. Hornbuckle will welcome all the people.

Presence of mind is a valuable asset in this world. We read in the story of the train that plunged into the raging torrent in Missouri that Miss Nora Campbell a trained nurse climbed to the upturned side of the chair car and rescued five imprisoned passengers by pulling them thru the windows. It meant that that young lady kept her presence of mind and the result was that many that would have been lost were saved. The thing to do is to cultivate this because we do not know the moment we may need it. It is what makes heroes and heroines in this world and they are only doing what you and I could have done had we had that coolness and presence but which many times we lack.
