### Dehorning Cattle.

The cruelty connected with the cutting off the horns of cattle is more to be condemned because it is wholly unnecessary. The time to take of the horns is before there are any horns to take off. It has been published so often in agricultural journals that of the horns can be prevented. and no farmer can plead ignoand prefers to wait till the horns must be sawn off or cut off he deserves punishment for needless and brutal cruelty. "For the removal of grown horns there are many excellent instruments, but thoroughly competent operators often consider nothing equal to an ordinary sharp saw. The horn should be cut ofi close to the head, even to the extent of removing fully half inch of hair and skin. This is also the least painful method, as one thus cuts where the horn is thickest and the nerve or quick is narrowed down to the thickness of a pencil; and the difference between this and sawing through inches of horn and the same quantity of nerve is obvi

Many have an exagerated no tion of the trouble involved in stopping the growth of the horn. that might serve for all the churches that wish to celebrate the day as our President has asked us to do. It is a powerful arm the one that all of us have. There is one who has power to urdo all that man can devine, to overthow the good in the world. We do not say that the Lord takes part of either side in the great contest; but we do think he is grieved that, at this stage of the world's history, the nations should be killing on e anoth er Our great country does not have a hand in it; and as we are at peace with all, and as we cannot by the force of arms stop the bloody conflict, we can use the arm that is stronger than all the arms of the world, and we on n appeal to the Lord of all and pray to Him that he may stop the bottle of Foley's Honey and Tar strife and turmoil and then bring Compound, and take it freely. For that reason our President. a man who believes in the infinte power of Almighty God, aska the christian people that they gather on that on that day, and send up to the Supreme Arbiter of the destinies of nations our petitions that he may stop the carnage and bloodshed, and so incline the nations that may listen to the counsel of wisdom and stop the murder of their fellow beings.

So let every person in Madison County on the coming Sabbath go to some place of worship and join with God's people in the solemn act; and we know he who heareth the faintest cry of his beloved will not fail to listen when the united prayers of millions rise to him on that day from this land of ours.

We know that there are thousands in other countries who will join with us; and, even in the countries who are at war with one another, there will be many a cry for peace that are sore from the losses suffered. "Ask and ye shall receive,"

says the Savior; and let us go asking, and He, who cannot deny the prayer of Faith, will answer and give peace.
