Jesus of Nazareth

ABOUT 1900 years ago a Man was born in the Far East in a humble family of a subject race. He taught for two or three years, never outside His own country; not in the schools or universities, but in the fields, on the hillsides, and in the streets of the towns. He taught a curious doctrine that it seemed quite impossible to comprehend or to follow. He was opposed by the persons who were called the best and most religious people of his day. Finally these persons decided that He was too dangerous to be allowed to live. They put Him to death, while those who stood by condemned and abused Him.

When He died He had no great following, only a few humble, uneducated peasants, not one of whom really understood what it was their Teacher had meant. They looked for nothing further from Him, and went back to their fishing or their farming. There was not then one written word of His in existence. All the words of His that the world has ever had consist of only a few pages. There are only four words that profess to be the very ones He uttered. His life and His death would seem to be quite unimportant events in the world's history. Yet what results have come from them!

He has changed the course of history more than any other being who has lived. No king or conqueror or scholar or poet has to-day an influence compared to His. His teaching to-day, so far as it is understood, is accepted as authoritative over most of the world. Christendom asks, "What did He teach? What did He mean?" and when it agrees on that, the matter is settled.

He is also the most loved person in all history. Different ages have had their heroes who have been loved; no other hero in any age has been loved as He has been by all the ages. All over Christendom, and more and more in heathendom, the birthday of Jesus of Nazareth has become the greatest holiday and the gladiest day of the year. Verily, "Thou hast conquered, O Gallilean!"—*Youths Companion*.

Gore, Ga., F. A. Morgan had occasion recently to use a liver medicine and says of Foley Cathartic Tablets: "They thoroughly cleaned my system and I felt like a new man—light and free. They are the best medicine I have ever taken for constipation, they keep the stomach sweet, liver active, bowels regular." Dr. I. E. Burnett, Mars Hill, N. C.

One hopeless cynic remarks that he would not mind an automobile accident so much if the "first aid to the injured" amateurs did not insist on experimenting on him.

The heart of the vegetarian beats considerably slower than the heart of the meat eater, and it is our experience that he is much more apt to get cold feet in an emergency.
