Items From Buckner N. C.

To The News-Record:— Its been quite a long time since I have wrote anything from Buckner, I have just been waiting to gather all the news I could possibly get and put it in one letter.

The people of Bethel, has called Rev. W. L. Edwards, of Bald Creek, as their Pastor. We are glad to see the Godly man come among us as pastor, knowing him as I do I feel sure he will be an inspiration to our people.

Our new house is being completed by S. L. Ponder and Levy Ballard, Bethel can certainly boast of the best county Church anywhere around when the building is finished.

The new School building is being rapidly completed, but we are not surprised at the progress knowing the contractor as we do, and some of you all know him to be the Rev. John Beaver, our preachers is not ashamed to work Any legitimate job beats begging.

We certainly have grounds to compliment the Board of Education, for what they are doing and especially for what they have done for Bethel, by putting Bethel and Middle Fork Schools together, which at this time is causing some little growling, but it will soon die down and we will have one of the best schools in the County.

Some says we will have to take the Association, our people says send it on, we will be glad to have it, we count it a great honor to have such a noble institution in our community.

It looks as though some folks are going to do like Frank Holt, climb just as high as they can and then fall and kill themselves.

Our Choir went to Pleasant Valley in Yaney County, on July 4th, and exhibited some of their skill in praise service. The people said they sang fine. It was greatly enjoyed by all.

Quite a large crowd went from here on July the 11, to a Decoration at Swiss, N. C., and had a nice time.

The farmers are nearly through with their corn and it sure looks fine in this part, but it keeps on raining. Don't know when it will quit, some say that it is caused by so much explosions in Europe, if this is the cause, I hope the Allies will soon lick Germany. Success to the paper.
A FRIEND.

ONE NIGHT ONLY

Big Day at Laurel Branch Church Sunday July 18, 1915.

A large crowd gathered at Laurel Branch Church on Sunday the 18, and three Singing Classes were present to render music. A bountiful dinner was served on the ground by the local citizens, and the day was greatly enjoyed. The East Fork Singing Class was led by George Bruce, and the Laurel Branch Singing Class by James Hunter, and the Lower

Walnut Creek Singing Class was directed by C. F. Rannion. Each class was at its best, and made splendid music to the great pleasure of all who were present.

Several parties from Marshall were present, and those who had visited Laurel Branch in former years enjoyed meeting many of their old friends formerly met there on such occasions. The C. F. Rannion Singing Class will attend the Chautauqua to be held at Marshall on the 9, 10, and 11, a part of the time, and assist in making music.

A Faint Heart.

They say that a faint heart never won a fair is. It is equally true that a firm that wants business ought to ask for it.

That's why we are talking each week, telling you about the good features of our bank and the benefits to be derived from doing business with us. We want you to be a customer of our bank. We are not afraid to tell you so frankly. We conduct a conservative and reliable bank. But we are not so blamed conservative that we are afraid to ask for new business

TWENTY-ONE MAIMED PER MINUTE.

Every minute twenty-one persons are accidentally injured. Every five minutes one person is accidentally killed. Over 11,000,000 are killed or injured yearly—about 30,000 each day. Five times as many persons are killed or injured each year as die from natural causes. More die and are disabled from pin pricks and other slight injuries than die from pneumonia. More people are killed and injured yearly than have been killed or injured in any war of the last two hundred years. More people are kept from work by accidental injury than are idle from lack of employment. One death in every twelve is due to accidental causes. A person is twice as liable to die from accident as from old age. Out of 20,000,000 cases of disability that occur each year only 5% are fatal.

This means that life insurance covers 95% and accident and sickness 5%—From Government Statistics.

Our Accident and Health Insurance Costs Three Cents a Day.
