OUR ORPHANAGES NEED HELP

To the Press of North Carolina:

Relying on the generosity and public spirit of the press of the state the undersigned are emboldened to ask of our newspapers such timely and telling help as they are able to give us in impressing upon every man, woman and child in the state of North Carolina the importance of contributing one day's income to the orphanage work of the state as a Thanksgiving offering.

The orphanages of the state are contributing largely to the enrichment of the life of North Carolina. They are gathering up the waste material and transforming it into valuable citizenship. They, more than any other institutions of whatever kind, are beginning at the beginning of things. They are molding indigent childhood into useful manhood and womanhood exactly at the point where the process of training is vital; and they are doing this work for the most part without the cost of a copper to the state.

The movement to secure a contribution of one day's labor from every citizen was begun last spring. At a meeting held in Raleigh, September 28, the Executive Committee met and formally launched the campaign. The editors of North Carolina were the men toward whom the members of the Committee first turned their eyes. We are counting on these men who, more than any others, shape and control our public sentiment to stand by us in this movement and make the next Thanksgiving notable in the annals of the State's history.

We are often called on to do honor to the dead and this is a sentiment that is creditable and worthy, but in this movement we are called upon to perform a service for the living at a time and place where that service will tell most mightily on coming ages. Thousands of children are safely sheltered in our Orphan Homes, but four times as many are as yet uncared for and left to shift for themselves in a world of temptation and peril without a father's counsel or a mother's care—without a home, a penny, or a friend!

It is primarily in behalf of these homeless ones that this movement is launched. We must enlarge our orphanages and admit more of the little ones on the outside, who are clamoring to come in. Each institution in the State is crowded to its utmost capacity, with a stream of children standing at the gates and crying for admission. If a tithe of the citizens of North Carolina will give the price of one days labor to the orphanage work it will mean the salvation of a thousand North Carolina children now on their way to the dogs and the devil. Is this work not worthy of the best effort of every good citizen?

It is our hope that every North Carolina pastor will freely and gladly give his best efforts to the advancement of this movement. We hope and believe that they will urge those of their congregations who have an income to sacredly set apart one days work to this great cause, and send it forward to the orphanage of his choice on or near Thanksgiving Day.

Fellow citizens, this is no child's play. It is a man's job. The pennies of the children are not to be despised. Every gift,

however little, helps the object to which it is given, and helps the giver more; but we are not appealing especially to children in this movement, but to men and women who are busy in the world's work. And knowing the spirit and temper of our North Carolina people, we do not believe that we will appeal in vain.

The Chapman Alexander Meetings

Asheville, N. C. Oct. 7, 1915. To the People of Western North Carolina, Greetings:

We are soon to be blessed with the presence and messages of Dr. J. Wilbur Chapman and Mr. Alexander and their associates. The meetings will begin in this city October 17. The tabernacle for the meetings is being erected on Haywood St., near the intersection of Haywood St., French Broad Ave., Montford Ave., Cherry St., and the terminus of Cumberland Ave. I am authorized to invite you, one and all, to attend these meetings; and to urge you to pray for the success of this campaign for righteousness and better living; that every individual in Western North Carolina may be personally invited to accept Jesus Christ as his Saviour and to turn away from evil and give his life henceforth to the service of the Christ.

All secret orders and fraternities and unions are invited to attend the meetings in a body. Towns and villages will be recognized in the meetings in their respective groups. Leaders in churches and fraternities are requested to communicate with the chairman for detailed information as to plans and dates.

It is not too early for all interested parties to begin to organize their communities and churches and fraternities for attendance upon the meetings on special days.

Personal Workers are being trained by Mr. C. L. Everts, the herald of the Chapman-Alexander forces.

With a big and cordial welcome we remain,

THE DELEGATION COM. Rev. J. S. WILLIAMS Chairman.

FOLEY'S KIDNEY PILLS

A LETTER TO J. R. SAMS, FROM BLUFF, N. C.

BLUFF, N. C. Oct. 1, 1915.

Mr. J. R. Sams: Marshall, N. C., Dear Mr. Sams: In answer to your inquiry about my method of crop rotation I will say first, that at my father's death my mother, an invalid at the time, was left with fifty acres of run down land, at least one fourth of it washed out in deep gullies, and one old black cow and a mortgage on her. I doubt if the entire cleared portion of the farm would have produced one hundred bushels of corn. I began with deep plowing and clay peas for the first few years.

Then I used red clover, when I could raise money to buy the seed, and followed the clover with corn, and at last cultivation would sow one half bushel of peas per acre broadcast, and follow with wheat and back to clover in the spring. I cut the first crop of clover for hay and plowed under the rest to improve the land. I have used crimson clover at the last cultivation of my corn and would pasture calves on it from February till May and then turn under the clover and sow New Era Peas and cut for hay and follow with wheat in the Fall and Red clover again in the Spring, when I sow wheat. I use 400 lbs. acid phosphate, 16% per acre and am making 18 bushels of wheat and 50 bushels of corn per acre, on land that eleven years ago was nothing but a waste place covered with deep gullies.

With best wishes, I am yours, Respectfully, J. B. WHITE.

How an Engineer Keeps Well.

Railroad engineers are more exposed to catching cold than other workers. E. G. Dunaphant of Montette, Mo., has run a Frisco engine 25 years and all the medicine he has taken is Foley's Honey and Tar. He writes: "I always keep it in my house and recommend it to all who have a bad cough or cold."—Sold everywhere.

ANOTHER DECLARATION OF INDEPENDENCE.

A self-feeding community is on the high road to permanent farm prosperity and economic independence. North Carolina is moving forward toward it in leaps and bounds.

Our increase in home-raised food and feed supplies this year over last year is as follows:

Hay and forage 100,000 tons more; oats 1,000,000 bushels more; Irish potatoes 1,300,000 bushels more; sweet potatoes 1,400,000 bushels more; corn 2,000,000 bushels more; and wheat 4,000,000 bushels more. These figures are from the last Federal Crop Report.

For the first time since the war we have raised enough hay, forage, and roughage to feed our farm animals. In wheat, hay and forage production, we are at last independent of western markets.

When we can read our titles clear in corn, oats, beef, pork, and mutton production, the farm wealth of the state will quickly be doubled and quadrupled.
