

Mrs. L. E. Gunn

Health Brings Beauty

Discovery That Has Done a World of Good

Augusta, Ga.—"My father's family was kept well ever since I can remember by using Dr. Pierce's remedies. My father used to get a supply of the 'Golden Medical Discovery' every spring, as a tonic. He took it himself and gave it to the rest of us. He did not wait until we were sick. He said, 'An ounce of prevention is worth a pound of cure.' When I was about sixteen my parents saved me, I believe, from serious feminine trouble by giving me Dr. Pierce's Favorite Prescription.—Mrs. L. E. Gunn, 506 Moore Ave.

Keep yourself in the pink of condition by obtaining Dr. Pierce's Golden Medical Discovery in liquid or tablets from your neighborhood druggist, or send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial package.

Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all the advantages of grandmother's mustard plaster WITHOUT the blister. You just apply it with the fingers. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief.

Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, croup, asthma, neuralgia, congestion, pains and aches of the back and joints, sore muscles, sprains, bruises, chilblains, frosted feet, colds of the chest. It may prevent pneumonia and "flu." 35c and 65c, jars and tubes.

Better than a mustard plaster

Women Made Young

Bright eyes, a clear skin and a body full of youth and health may be yours if you will keep your system in order by taking

The world's standard remedy for kidney, liver, bladder and uric acid troubles, the enemies of life and looks. In use since 1896. All druggists, three sizes.

Look for the name Gold Medal on every box and accept no imitation

Bilious people need them

Dr. KING'S PILLS —for constipation

DON'T NEGLECT inflamed eyelids or other eye irritations. You will find a soothing and safe remedy in MITCHELL EYE SALVE. 25¢ at all druggists.

Present, but Not in the Swim. "Four years isn't a very long period of public service." "No," replied Senator Sorghum; "a man doesn't get well started holding an office before he's liable to begin feeling like a lame duck."

A man is foolish to go around looking for trouble unless he is strenuous enough to take a fall out of it.

Anyone who can make biscuits is a good camp cook. That's the test.

TURKISH SURTLES

Prominent People

Chance for the "Fighting Daughters"

Mrs. William Cumming Story has opened again the controversy which raged about her during the war, when four indictments were returned against her for her conduct of the affairs of the National Emergency Relief society.

The four indictments have long since been withdrawn, but she never came to trial, and she feels that "the poison and sting will last forever" unless she receives a moral acquittal at the hands of the 135,000 Daughters of the American Revolution.

She asked this acquittal when she announced that she would be a candidate for the office of president general of the organization at the biennial election in April. The nomination was tendered her by Roosevelt Chapter of Rye, N. Y., at a meeting at the Waldorf-Astoria.

Her acceptance is expected to precipitate a battle such as even the martial annals of the "Daughters" has never equaled. Mrs. Story will enter the contest with the shadow of the indictments over her name, and with the inherited animosity of thousands of "Daughters" who have been opposed to her in previous contests. She was elected president general in 1913 and again in 1915, after a battle in which her personal and public history was aired.

There are already three other candidates in the field—Mrs. Wallace G. Hanger of Washington, D. C., Mrs. George Thatcher Guernsey of Kansas (a hereditary enemy and former president general), and Mrs. Anthony Wayne Cook of Pittsburgh.

W. Hohenzollern and Frau von Ruchow

It now appears that Frau Gabriele von Ruchow (portrait herewith) was secretly engaged to Wilhelm Hohenzollern six months before he married Princess Hermine of Reuss. At least she says so—and she ought to know. The jilted lady says her husband died in April, 1921, about the time the kaiser died. Soon after the kaiser wrote her begging her to visit him at Doorn. He called to her because she had been his friend for nearly four decades. So she went to Doorn last summer. And here's what happened August 22:

"He did not beat about the bush, but straightaway said: 'Markgraf (a pet name), I have come to ask you to be my wife.'"

"I tried to interrupt him. As I spontaneously raised my hands, as if to bid him cease, I felt a sickening sensation. In that fraction of a second it seemed as if all the heartaches, tortures and torment of subsequent months flashed before me like sinister premonition. He continued:

"I cannot live without you. You are the only being on earth who can make life bearable for me. You must marry me."

Frau Gabriele, touched to the heart, finally consented to become the kaiser's bride and then began a battle by the members of the "kaiser's court" at Doorn to have the engagement broken. They enlisted members of the Hohenzollern family and ultimately were successful.

Emile Coue's "Every Day in Every Way"

This is a new portrait of Emile Coue, the little pharmacist of Nancy, France, made world-famous by his cures through auto-suggestion as embodied in the formula, "Every day, in every way, I'm growing better and better."

No wonder Coue comes to America. He got his great idea from a correspondence course on hypnotism which he secured for twenty francs from Rochester, N. Y. Boyd Fisher says so in his new book, "Mental Causes of Accidents" and quotes Dr. Coue thus:

"It was a very good course," Coue said to me. "It taught me how to hypnotize. The preliminary experiments it gave, to use as a means of testing a subject's suggestibility, are the ones I employ today in my seances and I have never had to add to them."

Mr. Fisher says Coue had for fourteen years labored as a pharmacist and built up a flourishing trade in Troyes. He invested in a farm near Nancy. He turned his pharmacy over to a friend with the privilege of paying for it out of profits. At the end of four years Coue found that to save anything from the mess, he would have to go back into business and build up his trade anew. That was in 1901, when Coue was forty-three years old. Then he began his hypnotic studies by taking the correspondence course.

Dentist Goes to United States Senate

Dr. Henrik Shipstead upset the Republican political traditions of Minnesota in being elected United States senator on a ticket other than that of the G. O. P., which has happened only three times before in the history of the state. Defeating Frank B. Kellogg, Dr. Shipstead, elected on a Farmer-Labor ticket, will go to the senate for six years, joining Knute Nelson, veteran Minnesota senator.

Hiring out when fourteen years old, shipping grain behind a binder at a dollar a day and waiting on tables while completing his dental course at Northwestern university, Chicago, Dr. Shipstead has made his own way in life. He was born on a farm in Kandiyohi county, Minnesota, January 8, 1881, making him forty-one years old. He was one of the 12 children of Saxe Shipstead, who came to Minnesota from Norway.

In 1904 he located at Glenwood, Minn., as a dentist. In 1906 he married Miss Lulu Anderson at Heigrade, Minn. As a reform candidate he was twice elected mayor of Glenwood and was elected to the Minnesota legislature in 1917. As an independent candidate, supported by the Non-Partisan party, he ran for governor in 1920, but was defeated.

SIZE OF ARMY TO BE UNCHANGED

THREE HUNDRED MILLION IS THE ESTIMATED COST; GUARD GETS MORE.

AIR SERVICE GETS BIG SUM FOR THE NEXT TEN YEARS

Army of 125,000 Enlisted Men and 12,000 Commissioned Officers Provided For in Bill.

Washington. — A standing army of 125,000 enlisted men and 12,000 commissioned officers, the same as authorized last year, is provided for in the last army appropriation bill reported to the house.

The bill carries \$314,064,294 for military and non-military activities, or \$16,010,444 less than last year. Of the total, \$37,000,000 goes for river and harbor projects heretofore authorized. Last year \$42,815,661 was appropriated for the purpose.

Budget estimates for food control on the Mississippi, amounting to \$5,988,000, were allowed. The amount recommended for the Mississippi completes the authorization of \$45,000,000 contained in the 1917 act.

For the Panama canal the bill carries \$6,599,683. An appropriation of \$750,000 additional, is recommended for replacing worn-out portions of the Washington-Alaska submarine cable system.

A fund of \$50,000 is provided for continuation of airplane bombing tests against obsolete naval craft. The air service gets \$12,426,000 and the Chemical Warfare Service \$650,000. For the National Guard the bill provides \$28,939,140, compared with \$25,815,000 last year, the increase being made to permit the maximum growth of the organization to 215,000 men during the next fiscal year.

An appropriation of \$3,250,000 is recommended for the reserve officers' training corps, an increase of \$150,000 over last year. Civilian training camps are provided with \$2,500,000, of which \$500,000 represents an unexpended balance from last year's appropriation. The war department had recommended larger appropriations for both the training corps and the civilian camps.

U. S. Proposal Still Before Nations. Washington. — Secretary Hughes' proposal for reference of the reparations problem to financiers for recommendations based upon purely economic considerations is regarded in Washington as still before the allied governments for acceptance or rejection.

A White House spokesman stated that the government was not moving in the German reparation crisis in any way at this time and could not move unless the powers concerned showed a desire that it should do so. It was added that the friendly purposes of the United States had been made plain to all concerned. Ultimately it is hoped that a way to the help will be opened by action of the French and British governments.

At the state department it was said that Secretary Hughes' suggestion stood unchanged; that nothing had been done by the government to withdraw the proposal.

Health Standards Women's Subjects. Washington.—Health standards for women in industry, women's wages and home work performed by women were on the program of the second day's sessions of the National conference on women in industry, called by the women's bureau of the Department of Labor. With nearly 400 women delegates present from 41 States, the conference was declared by the speakers to be truly representative of the women of the Nation.

Mrs. Ellis Yost, legislative representative of the women's Christian Temperance Union, presided at the meeting and Dr. R. A. Spaeth, of Johns Hopkins University, was chosen to lead in the discussion of "health standards for women in industry." Another speaker was Mrs. Florence Kelly, executive secretary, National Consumers' League.

Mrs. Thomas G. Winter, president general of the Federation of Women's Clubs, was the presiding officer at the afternoon session, and Mrs. Maud Swartz, president, national women's trade union league, New York, and Mrs. Sophonisba P. Breckenridge, assistant dean of women, University of Chicago, were the principal speakers on the subject of "women's wages."

A general discussion from the floor was a part of the consideration of each subject taken up.

Agree to Release Greek Prisoners. Lausanne.—The Turkish delegation to the near east conference agreed that all Greek males seized by the Ottoman army at the time of the Smyrna affair shall be liberated and sent to Greece immediately after signature of the peace treaty. Most of these able-bodied Greeks at present are working in labor gangs in the interior of Anatolia. A general exchange of the Turk and Greek civil populations—that is Turks in Greece and Greeks in Turkey—probably will begin in May.

WILL OPEN IRON MINE AT MURPHY

DEPOSIT ESTIMATED TO YIELD TWO HUNDRED TONS OF ORE A DAY.

FOR THE NEXT TEN YEARS

Vein of One-quarter of Mile in Length and 100 Feet Wide Known to be on Property.

Murphy. — Opening what is pronounced as one of the finest iron ore deposits in the South. Heaton & Mahaffey, of Murphy, are installing an equipment to handle 200 tons of ore per day and it has been estimated that at this rate the deposit will produce for the next ten years.

The deposit is a tract of 1,800 acres, the larger part located almost in Murphy, formerly known as the Hitchcock property, and now owned by Dr. S. Westray Battle, W. H. Garrett, L. H. Bourne, Dr. J. A. Sinclair and W. S. Shiting of Asheville.

The tract was one time owned by Mrs. Colt, of Paris, France, and was acquired by the Asheville business men, who have leased the iron ore rights.

A vein one-quarter of a mile in length, 100 feet wide, with the depth not determined, is known to be on the property, and this is the vein to be worked by the Murphy men, who will ship the ore to steel plants.

Opening of this valuable ore deposit adds another of nature's deposits in Western North Carolina and are among the features attracting business interests to this section.

Newspaper Men at High Point.

High Point.—Newspaper men and women from all parts of the state are in High Point to attend the mid-winter meeting of the North Carolina Press association.

Visitors were welcomed to the city by Mayor John W. Hedrick; Fred N. Tate, president of the chamber of commerce; Dr. H. B. Hiatt, president of the Rotary club; T. J. Gold, of the Kiwanis club, and representatives of other local organizations. J. W. Bailey, former collector of internal revenue, will be the chief speaker at the convention.

Newspaper men of High Point, receiving the co-operation of local citizens, have made elaborate preparations for entertainment of members of the Fourth Estate. One of the features of the meeting will be a banquet to be given by the chamber of commerce and the Rotary and Kiwanis clubs.

Let Contract for Railroad Grading.

Sanford.—At a meeting of the board of directors of the Carolina Coal company at their office in Sanford a contract was let to Summers & McAuley for the grading of the three miles of railroad to connect the mines at Coal Glen with the Norfolk Southern and the Southern roads on the west side of the river between Cummeck and Gulf. The contract calls for the completion of the work in 90 days. The Carolina company is now taking out coal faster than it can be moved away, and so much coal is in sight that the railroad has become imperative. The coal company will operate the road unless present plans are changed. The headings in the mine are now driven far enough into the coal to make at least 100,000 tons of coal available for mining as fast as it can be moved away from the colliery.

High Figure for Charlotte Dirt.

Charlotte.—A minimum sum of \$3,500 a front foot has been stipulated as the amount the City Hall property must bring when it is put up at public auction on January 27. At this rate the property will net the city \$290,500. The conditions are not believed to be so severe as to forestall the sale, as there are two parties who are understood to be very desirous of the site.

May Favor Road Over Mountains.

Lenoir.—There is a general feeling favorable to a state-built railroad among the legislators and senators at Raleigh. It is understood, Mr. Squires said, that the legislative committee appointed at the last general assembly to investigate the proposition, will make its report soon. It is understood that this report will be unfavorable to the proposition of selling the state-owned railroad stock for the construction of such a road, but would favor the state financing the building of a road across the Blue Ridge.

Two Meet Death Through Accident.

Statesville.—Two deaths by accident occurred in Iredell county when Mrs. A. S. Storrs, of Montreat, was killed instantly when an automobile in which she was riding with her husband was in collision with a train at the Belmont crossing of the Southern railway just east of Statesville.

The other accidental death was that of George Shook, of Shiloh township, who was crushed by a falling limb as he was chopping wood in a forest near his home.

WOMAN SUFFERED THREE MONTHS

Pains in Back and Nervousness. Made Well by Lydia E. Pinkham's Vegetable Compound

Montevideo, Minn.—"I suffered for three months with pain in my back and sides, and was awful nervous so that I was unfit to do my work. After I began taking Lydia E. Pinkham's Vegetable Compound I grew strong, and now I weigh 150 pounds. I keep house and am able to lift and do any kind of work. I have got wonderful results from the Vegetable Compound and recommend it very highly to my friends. I give you permission to publish my testimonial."—Mrs. OLA BERGSTROM, 210 8th St. So., Montevideo, Minnesota.

Another Nervous Woman Finds Relief

Port Huron, Mich.—"I suffered for two years with pains in my side, and I worked very much I was nervous and just as tired in the morning as when I went to bed. I was sleepy all the day and didn't feel like doing anything, and was so nervous I would bite my finger nails. One of my friends told me about Lydia E. Pinkham's Vegetable Compound, and it helped me so much that I soon felt fine."—Mrs. CHARLES BEELER, 1910 Elk Street, Port Huron, Mich.

KEEPS CHILDREN WELL AND STRONG

THIN, pale, impoverished blood makes children frail, backward and delicate.

Gude's Pepto-Mangan creates a bountiful supply of pure, red blood, restores bodily strength, brings back color to the cheeks and builds firm, well-rounded flesh.

For over 30 years Gude's Pepto-Mangan has been recommended by leading physicians as a tonic and blood enricher. Your druggist has it—liquid or tablets, as you prefer.

Gude's Pepto-Mangan Tonic and Blood Enricher

British Columbian Honey. More than 700,000 pounds of honey were harvested in British Columbia in 1922, compilations made by the provincial apiarist show. Fifty-three tons were contributed by the Kootenay bees, the Okanogan and Thompson valleys yielding another fifty. From Vancouver Island and the Gulf Islands twenty-nine tons were gathered, while twenty-four tons were harvested from Greater Vancouver and Westminister. The populous Fraser valley produced more than half of the total yield, accounting for nearly two hundred tons.

Unkind. "The word idiot," writes a philologist, "did not imply a lack of mentality until the middle of the Seventeenth century. It merely meant an average citizen." "But what's the difference?—Exchange.

Fathers who think they have the brightest child in the world should keep the thought to themselves.

No more colds —quick relief!

Don't neglect it

Stop that cough now with this simple treatment that heads off the development of serious ailments. It soothes inflamed, tender tissues, loosens hard-packed phlegm and breaks the cold. Now—stop that cough in time—ask your druggist for

DR. KING'S NEW DISCOVERY —a syrup for coughs & colds

Keep Stomach and Bowels Right

By giving baby the harmless, purely vegetable, infant's and children's regulator.

MRS. WINSLOW'S SYRUP

Brings astonishing, gratifying results in making baby's stomach digest food and bowels move as they should at teething time. Guaranteed free from narcotics, opiates, alcohol and all harmful ingredients. Safe and satisfactory.
